Scooped! David J. Krajicek, 1998-05-06 *Scooped* surveys the impact of tabloid journalism in America and reveals that crime news and reporting say much about a society fascinated by sleaze and violence David Krajicek raises important questions about how and why certain crimes are reported and the ways in which these representations are framing debates concerning crime policy and the criminal justice system He challenges journalists in the tabloid television and otherwise respectable news media to fulfill their mission to inform and not inflame the public **The Sex Offenses and their Treatments** Victor T. Cheney, 2004-10-01 This book is the only one that lists 115 crimes offenses deviances and 62 infamous criminals that can all be blamed on the sex urge and its underlying chemistry The book also enumerates and briefly explains more than a hundred different treatments that have been used to treat these problems The efficacy of these treatments has been found to vary greatly Some of them have even proven to be counterproductive and the best is seldom used This book is one of the very few available that dwell extensively with the powerful sex urge in its evil results crime disease aggression jealousy lost spirituality etc in as much detail Most that is written about sex deals with its good aspects love ecstasy children family etc but we need the information in this book to come to the reality of the power of these urges for evil

Jacquet,2019-09-17 From 1950 to 1980 activists in the black freedom and women s liberation movements mounted significant campaigns in response to the injustices of rape These activists challenged the dominant legal and social discourses of the day and redefined the political agenda on sexual violence for over three decades How activists framed sexual violence as either racial injustice gender injustice or both was based in their respective frameworks of oppression The dominant discourse of the black freedom movement constructed rape primarily as the product of racism and white supremacy whereas the dominant discourse of women s liberation constructed rape as the result of sexism and male supremacy In *The Injustices of Rape* Catherine O Jacquet is the first to examine these two movement responses together explaining when and why they were in conflict when and why they converged and how activists both upheld and challenged them Throughout she uses the history of antirape activism to reveal the difficulty of challenging deeply ingrained racist and sexist ideologies the unevenness of reform and the necessity of an intersectional analysis to combat social injustice **Lady Lushes** Michelle L.

McClellan,2017-11-30 According to the popular press in the mid twentieth century American women in a misguided attempt to act like men in work and leisure were drinking more Lady Lushes were becoming a widespread social phenomenon From the glamorous hard drinking flapper of the 1920s to the disgraced and alcoholic wife and mother played by Lee Remick in the 1962 film *Days of Wine and Roses* alcohol consumption by American women has been seen as both a prerogative and as a threat to health happiness and the social order In *Lady Lushes* medical historian Michelle L McClellan traces the story of the female alcoholic from the late nineteenth through the twentieth century She draws on a range of sources to demonstrate the persistence of the belief that alcohol use is antithetical to an idealized feminine role particularly one that glorifies motherhood *Lady Lushes* offers a fresh perspective on the importance of gender role ideology in the formation of medical knowledge and authority **Passion and Power** Kathy Lee Peiss,Christina Simmons,Robert A. Padgug,1989 *Passion and Power* brings together some of the most recent and innovative writings on the history of sexuality and explores the experiences ideas and conflicts that have shaped the emergence of modern sexual identities Arguing that sexuality is not an unchanging biological reality or a universal natural force the essays in this volume discuss sexuality as an integral part of the history of human experience Articles on sexual assault homosexuality birth control venereal disease sexual repression pornography and the AIDS epidemic examine the ways that sexuality has become a core element of modern social identity in the nineteenth and twentieth century United States It is only in recent years that historians have begun to examine the social construction of sexuality This is the first anthology that addresses this issue from a radical historical perspective examining sexuality as a field of contention in itself and as part of other struggles rooted in divisions of gender class and race Author note Kathy Peiss is Associate Professor of History and Women s Studies at the University of Massachusetts at Amherst and author of *Cheap Amusements Working Women and Leisure in Turn of the century* New York Temple P Christina Simmons is
