Kaunda On Violence:

Kaunda on Violence Kenneth David Kaunda, 1980 *An Introduction to African Philosophy* Maurice Muhatia Makumba, 2007 [Peace, Decolonization, and the Practice of Solidarity](#) Rob Skinner, 2023-10-05 This book shows that the connected histories of decolonization and globalization concern the practices of individuals and movements as much as they do the ideologies of states institutions and organizations Viewing decolonization through non state activist practices and setting anti colonial solidarity in the context of the methods of contemporary global peace movements it argues that seemingly marginal histories can illuminate aspects of the end of empire that are not readily apparent in studies centred on state diplomacy and nationalist movements Focusing on a group of British and American activists including the pacifist campaigner A J Muste the anti apartheid priest Michael Scott and the civil rights organiser Bayard Rustin Skinner explores connected global histories of anti nuclear peace campaigns anti colonialism and decolonization to illuminate new perspectives on the end of empire and the Cold War Studying a failed attempt to infiltrate the French atom bomb test site in southern Algeria and a mass march across the border between Tanganyika and Northern Rhodesia that never took place these stories provide valuable insights into the interactions between local and global scales of historical experience In presenting these histories this book demonstrates how global and transnational histories can challenge and disrupt rather than reinforce hierarchies of power and privileges In doing so it also contributes to ongoing debates surrounding the nature of decolonization as a historical phenomenon by focusing on the practices of activism that shaped and were shaped by the political and intellectual structures of decolonization **The Strategy of Nonviolent Defense** Robert J.

Burrowes, 2015-10-26 Because of the way in which the history of nonviolence has been marginalized relatively few people have a sense of the rich history of nonviolent struggle or realize that it can be systematically planned and applied Nevertheless the historical record illustrates that nonviolent struggle is a powerful form of political action But can it be effective against military aggression The Strategy of Nonviolent Defense answers this question in the affirmative by first defining the notion of social cosmology the four mutually reinforcing features that determine the character of any society It then devotes attention to strategies for dealing with conflict in particular to developing a strategic theory and framework for planning a strategy of nonviolent defense In order to develop this theory Burrowes synthesizes insights drawn from the strategic theory of Carl von Clausewitz the nonviolence of Mahatma Gandhi and recent human needs and conflict theory

Gandhi as Disciple and Mentor Thomas Weber, 2004-12-02 Thomas Weber's book comprises a series of biographical reflections about people who influenced Gandhi and those who were in turn influenced by him Whilst previous literature tended to focus on Gandhi's political legacy Weber's book explores the spiritual social and philosophical resonances of these relationships and it is with these aspects of the Mahatma's life in mind that the author selects his central protagonists These include friends such as Henry Polak and Hermann Kallenbach who are not as well known as those usually cited but who left a

deep impression nevertheless and motivated some of Gandhi's major life changes. Conversely the work of luminaries such as E. F. Schumacher and Gene Sharp reveal the Mahatma's influence in arenas which are not traditionally associated with his thinking. Weber's book offers intriguing insights into the life and thought of one of the most significant figures of the twentieth century.

The Politics of Gender and the Culture of Sexuality Ali A. Mazrui, 2014-07-08 The *Politics of Gender and the Culture of Sexuality* outlines theories of gender within the intellectual paradigm of the triple heritage: Islam, Africanity, and the West. This book describes the impact of individual contexts and politics on meanings attributed to the human body. The *Politics of Gender and the Culture of Sexuality* explores how men and women relate to each other in monogamous and polygamous marriage, race rivalries, slavery, miscegenation, cultures of procreation, family planning, and the Islamic view of women's dignity vis-à-vis the Western view of women's liberty. In doing so, the author and editor present a multifaceted and dynamic theoretical discourse of gender.

Power, Politics, and the African Condition Ali Al'Amin Mazrui, 2004 *Power, Politics, and the African Condition* is the third volume of *The Collected Essays of Ali A. Mazrui* which will provide readers with a broad spectrum of Ali A. Mazrui's scholarly writings. The third volume is centered on issues of power and politics at the nexus of Africa's domestic affairs and its international concepts about the disequilibrium of power in the international system and the problems that Africa has confronted globally because of it. Mazrui focuses the reader's attention on the impact that the colonial legacy and African tradition had on state formation, leadership, Africa's political economy, violence, and conflict resolution while presenting some of his most interesting and even controversial ideas for building Pax Africana. Spanning nearly forty years, Mazrui's essays are classic and contemporary statements on the diagnosis and treatment of what he called The African Condition.

Rethinking African Politics Miles Larmer, 2016-04-08 In 1964 Kenneth Kaunda and his United National Independence Party (UNIP) government established the nation of Zambia in the former British colony of Northern Rhodesia. In parallel with many other newly independent countries in Africa, this process of decolonisation

created a wave of optimism regarding humanity's capacity to overcome oppression and poverty. Yet as this study shows in Zambia as in many other countries the legacy of colonialism created obstacles that proved difficult to overcome. Within a short space of time democratisation and development was replaced by economic stagnation, political authoritarianism, corruption and ethnic and political conflict. To better understand this process Dr Larmer explores UNIP's political ideology and the strategies it employed to retain a grip on government. He shows that despite the party's claim that it adhered to an authentically African model of consensual and communitarian decision making it was never a truly nationally representative body. Whereas in long established Western societies unevenness in support was accepted as a legitimate basis for party political difference in Zambia this was regarded as a threat to the fragile bindings of the young nation state and as such had to be denied and repressed. This led to the declaration of a one party state presented as the logical expression of UNIP supremacy but it was in fact a reflection of its weakening grip on power. Through case studies of opposition political and social movements rooted in these differences the book demonstrates that UNIP's control of the new nation state was partial, uneven and consistently prone to challenge. Alongside this the study also re-examines Zambia's role in the regional liberation struggles providing valuable new evidence of the country's complex relations with Apartheid era South Africa and the relationship between internal and external opposition shaped by the context of regional liberation movements and the Cold War. Drawing on extensive archival research and interviews Dr Larmer offers a ground breaking analysis of post colonial political history which helps explain the challenges facing contemporary African polities.

Afrasia Seifudein Adem, Ali A. Mazrui, 2013-05-02 Is there a new scramble for Africa involving China, Japan and India in competition with each other and with the Western world? In the second half of the twentieth century Mao's China and Jawaharlal Nehru's India were political players in Africa while Japan limited itself to trade and investment in Africa. Africa and Asia have historically been allies against Western exploitation and have also been rivals as producers of raw materials. India and West Asia have led the way in the soft power of culture and religion in Africa while Japan and China have engaged in the harder disciplines of the economy and the construction of infrastructure. This book explores the historical and unfolding dynamic interactions among China, India, Japan and Africa and their ramifications.

India in the Contemporary World Jakub Zajączkowski, Jivanta Schottli, Manish Thapa, 2015-07-17 This book brings together Indian and European perspectives on India's polity, economy and international strategy. It explores internal, regional and global determinants shaping India's status, position and goals in the early 21st century. Through an array of methodological and theoretical approaches it presents debates on democracy, economic development, foreign and security policy and the course of India-European Union relations. The volume will prove invaluable to scholars and students of international relations, politics, economics, history and development studies as well as policy makers and economists.
