places its subject in its precise regional context The Caribbean generally considered as one area is highly discrete in its topography race and languages including mainland Guyana the Atlantic island of Barbados the Lesser Antilles Trinidad and Jamaica whose size and history gave it an early sense of separate nationhood Beginning with Raleigh's Discoverie of Guiana 1596 this innovative study traces the sometimes surprising evolution of cultures which shared a common experience of slavery but were intimately related to individual local areas The approach is interdisciplinary examining the heritage of the plantation era and the issues of language and racial identity it created From this base Louis James reassesses the phenomenal expansion of writing in the contemporary period He traces the influence of pan Caribbean movements and the creation of an expatriate Caribbean identity in Britain and America Britain is considered as a West Indian island created by colonization in reverse Further sections treat the development of a Caribbean aesthetic and the repossession of cultural roots from Africa and Asia Balancing an awareness of the regional identity of Caribbean literature with an exploration of its place in world and postcolonial literatures this study offers a panoramic view that has become one of the most vital of the new literatures in English This accessible overview of Caribbean writing will appeal to the general reader and student alike and particularly to all who are interested in or studying Caribbean literatures and culture postcolonial studies Commonwealth new literatures and contemporary literature and drama

Slavery, Empathy, and Pornography Marcus Wood, 2002-11-21
 Slavery Empathy and Pornography considers the operations of slavery and of abolition propaganda on the thought and literature of English from the late eighteenth to the mid nineteenth centuries Incorporating materials ranging from canonical literatures to the lowest form of street publication Marcus Wood writes from the conviction that slavery was and still is a dilemma for everyone in England and seeks to explain why English society has constructed Atlantic slavery in the way it has He takes on the works of canonic eighteenth and nineteenth century white authors which claimed when written to account for slavery and asks with some scepticism what kind of truth they hold Taking an interdisciplinary approach chapters focus on the writings of the major Romantic poets English Radicals William Cobbett and John Thelwall the Surinam writings of John Stedman the full range of slavery texts generated by Harriet Martineau John Newton and the social prophets Carlyle and Ruskin Slavery Empathy and Pornography also contains a radical new critique of the operations of slavery within the work of Austen and Charlotte Brontë

The Haitian Revolution in the Literary Imagination Philip Kaisary, 2014-02-21 The Haitian Revolution 1791-1804 reshaped the debates about slavery and freedom throughout the Atlantic world; accelerated the abolitionist movement; precipitated rebellions in neighboring territories; and intensified both repression and antislavery sentiment. The story of the birth of the world's first independent black republic has since held an iconic fascination for a diverse array of writers, artists, and intellectuals throughout the Atlantic diaspora. Examining twentieth-century responses to the Haitian Revolution, Philip Kaisary offers a profound new reading of the representation of the Revolution by radicals and conservatives alike in primary texts that span English, French, and Spanish languages and that include poetry, drama, history, biography, fiction, and opera. In a complementary focus on canonical works by Aimé Césaire, C. L. R. James, Édouard Glissant, and Alejo Carpentier, in addition to the work of René Depestre, Langston Hughes, and Madison Smartt Bell, Kaisary argues that the Haitian Revolution generated an enduring cultural and ideological inheritance. He addresses critical understandings and fictional reinventions of the Revolution and thinks through how and to what effect authors of major diasporic texts have metamorphosed and appropriated this spectacular corner of black revolutionary history. **Commonwealth Literature** NA NA, 2016-01-03

Forbes Burnham Linden F. Lewis, 2024-01-12 It is virtually impossible to understand the history of modern Guyana without understanding the role played by Forbes Burnham. As premier of British Guiana, he led the country to independence in 1966 and spent two decades as its head of state until his death in 1985. An intensely charismatic politician, Burnham helped steer a new course for the former colony, but he was also a quintessential strongman leader, venerated by some of his citizens yet feared and despised by others. *Forbes Burnham: The Life and Times of the Comrade Leader* is the first political biography of this complex and influential figure. It charts how the political party he founded, the People's National Congress, combined nationalist rhetoric, socialist policies, and Pan-Africanist philosophies. It also explores how, in a country already deeply divided between the descendants of African slaves and Indian indentured servants, Burnham consolidated political power by intensifying ethnic polarizations. Drawing from historical archives as well as new interviews with the people who knew Burnham best, sociologist Linden F. Lewis examines how his dictatorial tendencies coexisted with his progressive convictions. *Forbes Burnham* is a compelling study of the nature of postcolonial leadership and its pitfalls. **The West Indian Novel and Its Background** Kenneth Ramchand, 2004 An account of the emergence of the West Indian novel in English, this work provides valuable insights into the social, cultural, and political background, offering concise and focused accounts of the growth of education, the development of literacy, and the formation of West Indian Creole languages. **Twentieth Century Fiction** George Woodcock, 1983-04-01 **Dictionary of Caribbean English Usage** Richard Allsopp, Jeannette Allsopp, 2003 This remarkable new dictionary represents the first attempt in some four centuries to record the state of development of English as used across the entire Caribbean region. **The Islands in Between: Essays on West Indian Literature** Louis James, 1968 *Adventures of an Artisan Hunter* David Brian Plummer, 2000-10 Account of Plummer's development as a

hunter from boyhood exploits with lurcher and terrier to adulthood with many interesting digressions Includes chapters on cock fighting and bird catching cooking and eating badgers foxes and rats hawks and hawking Although Plummer often comes across as bonkers many of his apparently eccentric actions such as badger eating or covering himself with a concoction of badger grease and herbs were experiments to establish the plausibility of claims made by other writers Being perpetually surrounded by people incapable of sharing this pioneering spirit of enquiry seems the source of his restlessness and the driving force behind the hundreds of books he wrote in his lifetime This is not to say that Plummer did not have deep problems as he himself describes in Hancock s *My Life with Lurchers*
