## **Keats And The Silent Work Of Imagination:**

**Keats and the Silent Work of Imagination** Leon Waldo, 1985     *John Keats, Updated Edition* Harold Bloom, 2009  
Presents a collection of critical essays on the works of John Keats     **Encyclopedia of the Romantic Era, 1760-1850**  
Christopher John Murray, 2004 Review Written to stress the crosscurrent of ideas this cultural encyclopedia provides clearly  
written and authoritative articles Thoughts themes people and nations that define the Romantic Era as well as some  
frequently overlooked topics receive their first encyclopedic treatments in 850 signed articles with bibliographies and  
coverage of historical antecedents and lingering influences of romanticism Even casual browsers will discover much to enjoy  
here The Top 20 Reference Titles of the Year American Libraries May 2004     *The Romantic Imagination* Frederick  
Burwick, Jürgen Klein, 1996     Keats's Poetry and the Politics of the Imagination Daniel P. Watkins, 1989 A reassessment of  
the historical dimension of Keats's poetry that addresses the influence on his work of the immediate post Waterloo period and  
traces his source materials A new reading of Keats's major poems is presented as well as of many less studied pieces     *The*  
*Romantic Imagination* , 2025-02-03     **Critical Essays on John Keats** Hermione De Almeida, 1990 Keats's ideal of negative  
capability which he defined as letting the mind be a thoroughfare for all thought is the subject of much recent criticism These  
18 essays published since 1965 by both British and American scholars focus on this and other broad aspects of study Keats's  
degree of intellectual vigour his philosophy and his current relevance Seven contributions are original excerpts from studies  
in progress presenting new historical evidence on the poet's major influences his involvement in medicine and in his primary  
social and gender biases     Reading The Eve of St. Agnes Jack Stillinger, 1999-10-14 Using the 180 year history of Keats's  
Eve of St. Agnes as a basis for theorizing about the reading process Stillinger's book explores the nature and whereabouts of  
meaning in complex works A proponent of authorial intent Stillinger argues a theoretical compromise between author and  
reader applying a theory of interpretive democracy that includes the endlessly multifarious reader's response as well as  
Keats's guessed at intent Stillinger also considers the process of constructing meaning and posits an answer to why Keats's  
work is considered canonical and why it is still being read and admired     *Keats's Places* Richard Marggraf  
Turley, 2018-09-03 As the essays in this volume reveal Keats's places could be comforting familiar grounding sites but they  
were also shifting uncanny paradoxical spaces where the geographical comes into tension with the familial the touristic with  
the medical the metropolitan with the archipelagic Collectively the chapters in Keats's Places range from the claustrophobic  
stands of Guy's Hospital operating theatre to the boneshaking interior of the Southampton mail coach from Highland crags to  
Hampstead Heath from crowded city interiors to leafy suburban lanes Offering new insights into the complex registrations of  
place and the poetic imagination the contributors to this book explore how the significant places in John Keats's life helped to  
shape an authorial identity     Imagination Transformed Karla Alwes, 1993 From the mortal maidens of 1817 to the  
omnipotent goddesses of 1819 Keats uses successive female characters as symbols portraying the salvation and destruction

the passion and fear that the imagination elicits Karla Alwes traces the change in these female figures multidimensional and mysteriously protean and shows that they do more than comprise a symbol of the female as a romantic lover They are the gauge of Keats's search for identity As Keats's poetry changes with experience from celebration to denial of the earth the females change from meek to threatening to a final maternal and conciliatory figure Keats consistently maintained a strict dichotomy between the flesh and blood women he referred to in his letters and the created females of his poetry in the same way that he rigorously sought to abandon the real for the ideal in his poetry In her study of Keats's poetry Alwes dramatizes the poet's struggle to come to terms with his two consummate ideals women and poetry She demonstrates how his female characters serving as lovers guides and nemeses to the male heroes of the poems embody not only the hope but also the disappointment that the poet discovers as he strives to reconcile feminine and masculine creativity Alwes also shows how the myths of Apollo which Keats integrated into his poetry as early as February 1815 point up his contradictory need for yet fear of the feminine She argues that Keats's attempt to overcome this fear impossible to do by concentrating solely on Apollo as a metaphor for the imagination resulted in his eventual use of maternal goddesses as poetic symbols The goddess Moneta in The Fall of Hyperion reclaims the power of the maternal earth to represent the final stage in the development of the female In combining the wisdom of the Apollonian realm with the compassion of the feminine earth Moneta is more powerful than Apollo and able to show the poet who does not recognize both realms that he is only a dreamer one who venoms all his days Bearing more woe than all his sins deserve Because of Moneta's admonishment Keats becomes the poet capable of creating To Autumn In this final ode Keats taps the transcendent power inherent in the temporal beauty of the earth His imagination once attempting to leave the earth now goes beyond the Apollonian ideal into the realm of salvation the human heart that connects him to the earth And because of his poetic reconciliation between heaven and earth Keats is ultimately able to portray an earthly timelessness in which summer has overbrimmed the bees clammy cells making for warm days that will never cease

The Broadview Anthology of Literature of the Revolutionary Period 1770-1832 D.L. Macdonald, Anne McWhir, 2010-03-04 The selections from 132 authors in this anthology represent gender social class and racial and national origin as inclusively as possible providing both greater context for canonical works and a sense of the era's richness and diversity In terms of genre poetry non-fiction prose philosophy educational writing and prose fiction are included Geographically America Canada Australia India and Africa are represented along with Britain emphasizing Romantic literature as a world literature Biographical headnotes explanatory footnotes and an extensive bibliography clarify and illuminate the texts for readers

Romanticism, Hermeneutics and the Crisis of the Human Sciences Scott Masson, 2017-11-28 The human sciences established and developed in the nineteenth century have slowly disintegrated It is an ironic end It was in the name of the greater legitimacy of more universal psychological criteria that its architects disavowed the traditional theological standard for valuing and evaluating human words and deeds With hindsight we can see

that universality was indeed gained but only at the cost of alienating any sense of common legitimacy Harold Bloom defending the canon largely in the humanising moral sense convention of critics operating since Matthew Arnold has resolutely maintained the common legitimacy of aesthetic value against the claims of particular interest groups But the very universality attached to aesthetic value is at odds with the world of common sense and thus lies at the root of the problem To complicate matters this universality has been understood as a traditional criterion A more radical treatment of the subject is needed This study begins by surveying the field of modern hermeneutics Noting its repeated crises of self legitimisation it traces these to circular beliefs bequeathed by Romanticism that human nature is self begetting and can thus be known intimately and autonomously After providing a historical overview of how human nature had been understood the focus shifts to the attack in Coleridge s *Biographia Literaria* on Wordsworth s 1802 Preface to *Lyrical Ballads* and to a reading of some key Romantic texts It reads Coleridge s famous definition of the imagination as an attack on Romantic hermeneutics rooted in the traditional view that man has been created in *Imago Dei* British Romanticism and the Science of the Mind Alan Richardson,2001-07-26 In this provocative and original study Alan Richardson examines an entire range of intellectual cultural and ideological points of contact between British Romantic literary writing and the pioneering brain science of the time Richardson breaks new ground in two fields revealing a significant and undervalued facet of British Romanticism while demonstrating the Romantic character of early neuroscience Crucial notions like the active mind organicism the unconscious the fragmented subject instinct and intuition arising simultaneously within the literature and psychology of the era take on unsuspected valences that transform conventional accounts of Romantic cultural history Neglected issues like the corporeality of mind the role of non linguistic communication and the peculiarly Romantic understanding of cultural universals are reopened in discussions that bring new light to bear on long standing critical puzzles from Coleridge s suppression of *Kubla Khan* to Wordsworth s perplexing theory of poetic language to Austen s interest in head injury **John Keats's Landscapes** Luisa Camaiora,2014-04-03 Romanticism, Memory, and Mourning Mark Sandy,2016-04-08 The subject of Romanticism Memory and Mourning could not be timelier with Žižek s recent proclamation that we are living in the end times and in an era which is preoccupied with the process and consequences of ageing We mourn both for our pasts and futures as we now recognise that history is a continuation and record of loss Mark Sandy explores the treatment of grief loss and death across a variety of Romantic poetic forms including the ballad sonnet epic elegy fragment romance and ode in the works of poets as diverse as Smith Hemans Blake Wordsworth Coleridge Byron Shelley Keats and Clare Romantic meditations on grief however varied in form and content are self consciously aware of the complexity and strength of feelings surrounding the consolation or disconsolation that their structures of poetic memory afford those who survive the imaginary and actual dead Romantic mourning Sandy shows finds expression in disparate poetic forms and how it manifests itself both as the spirit of its age rooted in precise historical conditions and as a proleptic power of lasting transhistorical significance

Romantic meditations on grief and loss speak to our contemporary anxieties about the inevitable but unthinkable event of death itself **Puzzling the Reader** Gregg A. Hecimovich, 2008 *Puzzling the Reader* establishes the place of charms and riddles in nineteenth century British literature by exploring the literary and political work riddles performed at cultural thresholds courtship initiation death rituals moments of greeting and intercultural relations Furthermore *Puzzling the Reader* investigates the new narrative genre that riddles uncover by transforming traditional narrative techniques Far from disappearing from view the oral tradition of the riddles rises into view alongside the literary narratives of William Blake John Keats and Charles Dickens The folk tradition of the riddle is imported into print media and reaches its zenith in the nineteenth century Through analyses of riddles in weekly literature and satire magazines parlor game books and popular collected riddles such as Queen Victoria's Windsor Enigma this volume examines the literary and political roles riddles play as they migrate into mass print culture Three crucial texts illustrate this argument Blake's Jerusalem Keats's The Eve of St Agnes and Dickens's Our Mutual Friend Each is a work of formal experimentation and each typifies the full range of word play in the period From Blake to Keats to Dickens nineteenth century British literature charts a history of the literary riddle

**The Broadview Anthology of Literature of the Revolutionary Period 1770-1832**, 2010 **Pushkin's Lyric Intelligence**

Andrew Kahn, 2012-05-31 Pushkin's lyric intelligence is his capacity to transform philosophical and aesthetic ideas into poetry that questions the creative process This first major study of his lyrics reveals the links between Pushkin's conceptual vocabulary and his intellectual life and between his writing and the influences of French and English authors and movements

*Misfit Forms* Lorri G. Nandrea, 2015-01-02 The complicated junctions negotiated by the novel during the eighteenth century reveal not only achievements but also exclusions *Misfit Forms* offers a speculative reconstruction of roads less traveled What if typographical emphasis and its associated transmission of sensuality and feeling had not lost out to transparent typography and its paradigms of sympathetic identification What was truncated when cumulative narrative structures were declared primitive in relation to the unified teleological plot What visions of the novel's value as an arena for experience were sidelined when novel reading was linked to epistemological gain Reading novels by Sterne Charlotte Bronte Defoe Gaskell Hardy and Woolf in tandem with less known works Nandrea illuminates the modes and techniques that did not become mainstream Following Deleuze Nandrea traces the dynamic repetitions of these junctures in the work of later writers Far from showing the eclipse of primitive modes such moments of convergence allow us to imagine other possibilities for the novel's trajectory **It's Silence, Soundly** John McGreal, 2016-04-21 It's Silence Soundly It's Nothing Seriously and It's

Absence Presently continue The It Series published by Matador since The Book of It 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago In their aesthetic form the books are a decentred trilogy united together in a new concept of The Bibliograph All three present this new aesthetic object which transcends the narrow limits of the academic bibliography The alphabetical works also share a

tripartite structure and identical length The Bibliograph itself is characterised by its strategic place within each book as a whole as well as by the complex variations in meaning of the dominant motifs nothingness absence and silence which recur throughout the alphabetical entries that constitute the elements of each text It's Nothing Seriously for example addresses the amusing paradox that so much continues to be written today about nothing The aleatory character of the entries in the texts encourage the modern reader to reflect on each theme and to read them in a new way The reader is invited as well to examine their various intertextual relations across given conventional boundaries in the arts and sciences at several levels of physical psychical social reproduction
