The Truth of Valor Tanya Huff,2022-07-29 Bestselling author Tanya Huff returns to the Confederation series of military science fiction where after centuries of fighting the dangers of peacetime prove as alien as any new galaxy Once Torin Kerr was a gunnery sergeant secure in the embrace of the Confederation Marine Corps Now the war is over Torin is free to delve the depths of space with Craig Ryder in a tiny salvage ship responsible only for keeping them in enough ready credit to breathe and eat But when she discovers pirates actual pirates are a deadly threat to salvage operators she can t imagine not taking action Even if Ryder s motley group of colleagues and quasi family think it s ridiculous After all she doesn t have the Marines behind her anymore Then Ryder goes missing Of course Torin is going after him And whatever the odds there will always be some who follow Torin Kerr into battle But this time instead of Other armies she s facing ruthless criminals who ve seen her story on broadcasts She s fighting through all the scars and fears experience has left with her with none of the rules that told her when to stop And whatever happens no one s coming to rescue her Truth to Post-Truth in American Detective Fiction David Riddle Watson,2021-10-25 Truth to Post Truth in American Detective Fiction examines questions of truth and relativism turning to detectives both real and imagined from Poe s C Auguste Dupin to Robert Mueller to establish an oblique history of the path from a world where not believing in truth was unthinkable to the present where it is common to believe that objective truth is a remnant of a simpler more na ve time Examining detective stories both literary and popular including hard boiled postmodern and twenty first century novels the book establishes that examining detective fiction allows for a unique view of this progression to post truth since the detective s ultimate job is to take the reader from doubt to belief

David Riddle Watson shows that objectivity is intersubjectivity arguing that the belief in multiple worlds is ultimately what sustains the illusion of relativism India and Nepal - Truth is stranger than fiction Matti Munnukka, 2016-03-29 This book describes the author's first journey to India and Nepal in 1984. He was a third year geography student when he decided to make his dream come true and to travel to India, Nepal and Himalaya with his friends. Kathmandu, the capital of Kingdom of Nepal and the highest mountains of the world like Mount Everest, Annapurna, Dhaulagiri, Makalu and Kangchenjunga were familiar to him only from maps or literature. The mountains were hidden behind the clouds and it rained for days. The breathtaking mountain scenery was visible only momentarily. The trip took place in May and June during the hot and rainy monsoon season. Unlike the peak tourist seasons in spring and fall, the monsoon caused much pain and suffering from rains and muddy trails, landslides, leeches, snakes, bad food and severe diarrhea. After returning to Finland, the author had lost 20 pounds of his weight and looked like a skinny Indian holy man. This did not, however, prevent the author from returning to Nepal again and again.
