Fastiggi, 2014-05-17 Creating Earthaven in Your Life is unique and it is innate in all human beings Humanity's quest for a wholesome peaceful life goes unabated Our search for our better self that identifies with the reality of the world we live in all too often filled with grief and stress is juxtaposed with faith and hope for change or a miracle Do we just have faith expecting God will deliver humanity from the ills we have caused Should we just buckle down and be practical seeking solution with our rational self What kind of God do we actually know or are we seeking a relationship with an image of God taught to us What is the divine matrix and does a personal God speak to us Science stands for one view of creation and faith stands for another Is there a joining point of the two Has our species Homo sapiens stalled out in evolutionary development Is the world becoming a village of cooperation and mutual peace seeking Can we continue the way we have been and survive our own arrogance What is the future of faith religion and spirituality The author in a comprehensive way takes us on a journey to explore answers to these questions and much more Earthaven is a paradigm of integration between the soul's development and our biological body and by extension all creation He delves into scientific reality while preserving in the beginning God created Creating Earthaven in Your life is a deep exploratory of the soul's life in the experience of hurt and suffering and the potential for there to be personal divine human embodiment and therefore earth peace Through ten fundamental teaching combining Jesus words of two thousand years ago an Aramaic understanding the author's revelatory experience in an apparition of Jesus his 44 years life experience psychology and science your reading and learning experience will be a challenge and liberation of the soul Profound transformation is needed and this codex offers the leverage needed to shift our life course towards personal awakening and transformation as well as providing a blue print for future generations Creating Earthaven in Your Life brings us into universal principles of life a meeting for humanity without walls This volume of two addresses specifically transformation of the soul heaven unfolding Volume two addresses transformation of the body representing the earth and thus earthaven Granted this book is not an easy read but proves to be a strong mirror reflecting back to us our lives and what we can become fulfilling humanity's evolutionary life potential and perhaps vital to our survival as a people **Ageing Rewired** Lynne Dorling, 2022-08-02 Lynne Dorling MCIPD and positive psychology coach has spent the last couple of years researching the topic of positive

ageing In *Ageing Rewired* she shares findings from her own research coaching case studies and highlights from selected secondary research on this topic The demographic age shift has been well documented and for the first time ever in the UK there are more people aged 60 and over than there are aged 19 and below Whilst this obviously has huge implications for society health systems and government Lynne tackles the issue from an individual perspective encouraging people to take a more proactive approach to their own ageing process Much of the existing advice for approaching later life focuses on the physical elements of ageing *Ageing Rewired* tackles this subject from an emotional and psychological angle There is some compelling evidence for the advantages of taking control of our own mind set to optimise our later years Lynne has identified 8 positive character traits which super agers have in common and draws on her 20 years of coaching experience to illustrate these The good news is that all of these traits can be developed The book defines each characteristic explains why it is important and offers tips and techniques for enhancement She challenges some of the negative stereotypes and assumptions around ageing showing real life pioneers who live and breathe the qualities we can all influence if we choose to do so Lynne also sets the tone and engages the reader by sharing her own personal experiences of ageing *You Can be Happy No Matter what* Richard Carlson, 2008

Making Accountable Decisions Sam Silverstein, 2018-03-20 We struggle making decisions and most times we just wish someone would make them for us What if that could all change and you could master the decisions you face in your life The average person makes hundreds of decisions each day They range from the ordinary and mundane to life altering events Many decisions we are faced with have little effect on our lives They deal with the simple problems and require simple choices However there are those decisions which impact our lives and the lives of those around us in very significant and consequential ways In *Making Accountable Decisions* Sam Silverstein presents ways to approach our life's decisions and how we interact with and affect others He does this by focusing on the most substantial decisions in our lives considering how they impact us and what decisions we can make to add value and meaning Sam is the founder of The Accountability Movement and works with companies government agencies and people around the world helping them build accountable cultures and live accountable lives Building an accountable world is his life's mission Some people choose to let life happen Some people make it happen What's your decision *What Do You Believe?* Michelle Brignone, 2025-03-18 Almost 80 percent of Americans say they believe in God with most religions teaching peace love and understanding yet crime lies hate racism misogyny discrimination and violence all seem to be reaching pandemic proportions Maybe we don't believe what we think we do There is a disconnect between our actions and what we say we believe and it's tearing us apart Society cannot afford for this disconnect to continue Either we don't know what we truly believe or we just don't care anymore I am an optimist and hoping the answer is people don't really know or don't remember what their true beliefs are *What Do You Believe* does not tell people what to believe it merely asks questions to encourage readers to figure out for themselves what exactly they believe and why they believe it It then asks readers to consider how their beliefs influence or not their actions to
