Mental Maps in the Early Cold War Era, 1945-68 S. Casey, J. Wright, 2011-07-26 The early Cold War was a period of dramatic change New superpowers emerged the European powers were eclipsed colonial empires tottered Political leaders everywhere had to make immense adjustments This volume explores their hopes and fears their sense of their place in the world and of the constraints under which they laboured **The**

Economic Struggle for Power in Tito's Yugoslavia Vladimir Unkovski-Korica, 2016-08-24 Here Vladimir Unkovski Korica re assesses the key episodes of Tito s rule from the joint Stalin Tito offensive of 1944 through to the Tito Stalin split of 1948 the market reforms of the 1950s and the turn to the West which led to Yugoslavia s non alignment policy For the first time Unkovski Korica also outlines Tito s internal battle with the Workers Councils empowered union bodies which emerged with the withering away of the party in the early 1950s The Economic Struggle for Power in Tito s Yugoslavia draws out the impact of the period economically and politically and its long term effects A comprehensive history based on new archival research this book will appeal to scholars and students of European Studies International Relations and Politics as well as to historians of the Balkans **Constructing the Monolith** Marc J. Selverstone, 2009 As the Cold War took shape during the late 1940s policymakers in the United States and Great Britain displayed a marked tendency to regard international

communism as a monolithic conspiratorial movement The image of a Communist monolith distilled the messy realities of international relations into a neat comprehensible formula Its lesson was that all communists regardless of their native land or political program were essentially tools of the Kremlin Marc Selverstone recreates the manner in which the monolith emerged as a perpetual framework on both sides of the Atlantic Though more pervasive and millennial in its American guise this understanding also informed conceptions of international communism in its close ally Great Britain casting the Kremlin s challenge as but one more in a long line of threats to freedom This illuminating and important book not only explains the Cold War mindset that determined global policy for much of the twentieth century but also reveals how the search to define a foreign threat can shape the ways in which that threat is actually met **Imposing, Maintaining, and Tearing Open the**

Iron Curtain Mark Kramer, Vit Smetana, 2013-11-22 The Cold War began in Europe in the mid 1940s and ended there in 1989 Notions of a global Cold War are useful in describing the wide impact and scope of the East West divide after World War II but first and foremost the Cold War was about the standoff in Europe The Soviet Union established a sphere of influence in Eastern Europe in the mid 1940s that later became institutionalized in the Warsaw Pact an organization that was offset by the North Atlantic Treaty Organization NATO led by the United States The fundamental division of Europe persisted for forty years coming to an end only when Soviet hegemony in Eastern Europe dissolved Imposing Maintaining and Tearing Open the Iron Curtain The Cold War and East Central Europe 1945 1989 edited by Mark Kramer and V t Smetana consists of cutting edge essays by distinguished experts who discuss the Cold War in Europe from beginning to end with a particular

focus on the countries that were behind the iron curtain The contributors take account of structural conditions that helped generate the Cold War schism in Europe but they also ascribe agency to local actors as well as to the superpowers The chapters dealing with the end of the Cold War in Europe explain not only why it ended but also why the events leading to that outcome occurred almost entirely peacefully *Breaking Down Bipolarity* Martin Previšić, 2021-10-04 This book is aimed at presenting fresh views interpretations and reinterpretations of some already researched issues relating to the Yugoslav foreign policy and international relations up to year 1991 Yugoslavia positioned itself as a communist state that was not under the heel of the Soviet diplomacy and policy and as such was perceived by the West as an acceptable partner and useful tool in counteracting the Soviet influence Foreign Relations of the United States United States. Department of State, 1949

Foreign Relations of the United States, 1949: Eastern Europe; the Soviet Union, 1976 *Dueling Visions* Ronald R. Krebs, 2001 The presidential election of 1952 unlike most others before and since was dominated by foreign policy from the bloody stalemate of Korea to the deepening menace of international communism During the campaign Dwight Eisenhower and his spokesmen fed the public's imagination with their promises to liberate the peoples of Eastern Europe and created the impression that in office they would undertake an aggressive program to roll back Soviet influence across the globe But time and again during the 1950s Eisenhower and his advisers found themselves powerless to shape the course of events in Eastern Europe they mourned their impotence but did little In *Dueling Visions* Ronald R. Krebs argues that two different images of Eastern Europe's ultimate status competed to guide American policy during this period Finlandization and rollback Rollback championed by the Joint Chiefs of Staff and the Central Intelligence Agency was synonymous with liberation as the public understood it detaching Eastern Europe from all aspects of Soviet control Surprisingly the figure most often linked to liberation Secretary of State John Foster Dulles came to advocate a more subtle and measured policy that neither accepted the status quo nor pursued rollback This American vision for the region held up the model of Finland imagining a tier of states that would enjoy domestic autonomy and perhaps even democracy but whose foreign policy would toe the Soviet line Krebs analyzes the conflicting logics and webs of assumptions underlying these dueling visions and closely examines the struggles over these alternatives within the administration Case studies of the American response to Stalin's death and to the Soviet Yugoslav rapprochement reveal the eventual triumph of Finlandization both as vision and as policy Finally Krebs suggests the study's implications for international relations theory and contemporary foreign affairs **The Means to Kill** Gerrit Dworok, Frank Jacob, 2015-12-03 Throughout human history technological innovation has functioned as a driver of civilization and inspired many people's belief in progress When it comes to warfare where technology is applied with a cruel and deadly logic a nuanced view is needed From siege engines to drones innovation has often served a less enlightened aim elimination of the enemy This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives **Britain, the Cold War and Yugoslav Unity,**

1941-1949 Ann Lane,2012-06-01 This work sets out to examine the policy of the British Foreign Office towards Yugoslavia and the Tito Government during and immediately following World War II It looks at the relationship between Yugoslavia and the Soviet Union and the effects on Soviet Western relations Perilous Partners Ted Galen Carpenter,Malou Innocent,2015-09-22 American leaders have cooperated with regimes around the world that are to varying degrees repressive or corrupt Such cooperation is said to serve the national interest But these partnerships also contravene the nation's commitments to democratic governance civil liberties and free markets During the Cold War policymakers were casual about sacrificing important values for less than compelling strategic rationales Since the 9 11 attacks similar ethical compromises have taken place although policymakers now seem more selective than their Cold War era counterparts Americans want a foreign policy that pursues national interests while observing American values How might that reconciliation of interest and morality be accomplished In Perilous Partners authors Ted Galen Carpenter and Malou Innocent provide a strategy for resolving the ethical dilemmas between interests and values faced by Washington They propose maintaining an arm's length relationship with authoritarian regimes emphasizing that the United States must not operate internationally in ways that routinely pollute American values It is a strategy based on ethical pragmatism which is the best way to reconcile America's strategic interests and its fundamental values Perilous Partners creates a strategy for conducting an effective U S foreign policy without betraying fundamental American values **Deterrence, Reputation and Cold-War Cycles** John D. Orme,1992-06-18 A historical reexamination of the Cold War's cyclical pattern It aims to show how Soviet aggressiveness was most likely to occur when the credibility of US efforts at deterrence was damaged by the inability or unwillingness of the US to meet previous challenges **Hot Art, Cold War - Southern and Eastern European Writing on American Art 1945-1990** Claudia Hopkins,Iain Boyd Whyte,2020-12-21 Hot Art Cold War Southern and Eastern European Writing on American Art 1945 1990 is one of two text anthologies that trace the reception of American art in Europe during the Cold War era through primary sources Translated into English for the first time from sixteen languages and introduced by scholarly essays the texts in this volume offer a representative selection of the diverse responses to American art in Portugal Italy Spain Greece Yugoslavia Romania Bulgaria Soviet Union including the Baltic States Czechoslovakia Poland Hungary and East Germany GDR There was no single European discourse as attitudes to American art were determined by a wide range of ideological political social cultural and artistic positions that varied considerably across the European nations This volume and its companion Hot Art Cold War Northern and Western European Writing on American Art 1945 1990 offer the reader a unique opportunity to compare how European art writers introduced and explained contemporary American art to their many and varied audiences Whilst many are fluent in one or two foreign languages few are able to read all twenty five languages represented in the two volumes These ground breaking publications significantly enrich the fields of American art studies and European art criticism Yugoslavia Ann Lane,2017-03-14

Yugoslavia was a phenomenon of the short twentieth century. Its two incarnations fell between the cataclysm of the First World War which destroyed the old order and the transformation of Europe which followed the collapse of communism in 1989. The task of building a viable unified state was complicated not only by Yugoslavia's diverse cultural composition but also by the pressures which the evolution of international society have placed on the modern state. Yugoslavia Explains and examines the key themes in the history of the former Yugoslavia. Synthesises the main strands in contemporary debate about the origins of the Yugoslav crisis. Presents a truly international history exposing in full the role played by other countries in the rise and fall of the nation. Focussing on both domestic and external factors. Ann Lane presents a balanced analysis of this ultimately failed attempt at state building in a region of cultural diversity. *Sport in Socialist Yugoslavia* Dario Brentin, Dejan Zec, 2018-09-24. The history of sport in socialist Yugoslavia is a peculiar lens through which to examine the country's social, cultural and political transformations. Sport is represented as one of the most popular and engaging cultural phenomena of social life. Sport both embodied the social dynamics of the socialist period as well as revealing questions of the everyday lives of the Yugoslav people. Ultimately sport was closely intertwined with the country's overall destiny. This volume offers an introduction into the myriad social functions that sport served in the Yugoslav socialist project. It illustrates how sport was central to the establishment of Yugoslavia's physical and leisure culture in the early post-Second World War period, an international promotional tool for Yugoslav communists championing the ideological superiority of the Brotherhood and Unity and the Non-Aligned Movement as well as a social field in which the ideological contradictions of Yugoslav socialism became increasingly apparent. The chapters expand the existing knowledge of the processes that defined Yugoslav sport and contribute to a more nuanced understanding of socialist Yugoslavia in the years between 1945 and 1991. This book was originally published as a special issue of *The International Journal of the History of Sport*. *Prostitution in Twentieth-Century Europe* Sonja Dolinsek, Siobhán Hearne, 2023-05-08. This book places prostitution at the very centre of European history in the twentieth century. With its wide geographical focus from Italy to the USSR via Sweden, Germany, occupied Czechoslovakia and Yugoslavia as well as the international stage of the United Nations, this book encourages comparative perspectives which have the potential to question, deconstruct and re-adjust distinctions between western, eastern, northern and southern European historical experiences. This book moves beyond exploring state-regulated prostitution which was the dominant approach to managing commercial sex across Europe in the nineteenth and early twentieth centuries. State regulation combined police surveillance, the registration of women selling sex or suspected of doing so, and compulsory medical examinations for registered women as well as various restrictions on personal movement and freedom. The nine chapters shift focus onto the decades after the abolition of state-regulated prostitution well into the second half of the twentieth century to examine the ruptures and continuities in state administrative and policing practices following the end of widespread legal toleration. The varied chronology extends the parameters of existing historiography and explores

how states grappled to understand or impose control over the commercial sex industry following the far reaching social economic and political upheaval of the Second World War The chapters in this book were originally published as a special issue of European Review of History

A History of Yugoslavia Marie-Janine Calic, 2019-02-15 Why did Yugoslavia fall apart Was its violent demise inevitable Did its population simply fall victim to the lure of nationalism How did this multinational state survive for so long and where do we situate the short life of Yugoslavia in the long history of Europe in the twentieth century A History of Yugoslavia provides a concise accessible comprehensive synthesis of the political cultural social and economic life of Yugoslavia from its nineteenth century South Slavic origins to the bloody demise of the multinational state of Yugoslavia in the 1990s Calic takes a fresh and innovative look at the colorful multifaceted and complex history of Yugoslavia emphasizing major social economic and intellectual changes from the turn of the twentieth century and the transition to modern industrialized mass society She traces the origins of ethnic religious and cultural divisions applying the latest social science approaches and drawing on the breadth of recent state of the art literature to present a balanced interpretation of events that takes into account the differing perceptions and interests of the actors involved Uniquely Calic frames the history of Yugoslavia for readers as an essentially open ended process undertaken from a variety of different regional perspectives with varied composite agenda She shuns traditional deterministic explanations that notorious Balkan hatreds or any other kind of exceptionalism are to blame for Yugoslavia's demise and along the way she highlights the agency of twentieth century modern mass society in the politicization of differences While analyzing nuanced political and social economic processes Calic describes the experiences and emotions of ordinary people in a vivid way As a result her groundbreaking work provides scholars and learned readers alike with an accessible trenchant and authoritative introduction to Yugoslavia's complex history

Kim Il Sung in the Khrushchev Era Balázs Szalontai, 2005 Concentrating on the years 1953-64 this history describes how North Korea became more despotic even as other Communist countries underwent de Stalinization The author's principal new source is the Hungarian diplomatic archives which contain extensive reporting on Kim Il Sung and North Korea thoroughly informed by research on the period in the Soviet and Eastern European archives and by recently published scholarship Much of the story surrounds Kim Il Sung his Korean nationalism and eagerness for Korean autarky his efforts to balance the need for foreign aid and his hope for an independent foreign policy and what seems to be his good sense of timing in doing in internal rivals without attracting Soviet retaliation Through a series of comparisons not only with the USSR but also with Albania Romania Yugoslavia China and Vietnam the author highlights unique features of North Korean communism during the period Szalontai covers ongoing effects of Japanese colonization the experiences of diverse Korean factions during World War II and the weakness of the Communist Party in South Korea

Yugoslavia, Nonalignment and Cold War Globalism Zvonimir Stopić, Robert Niebuhr, David Pickus, 2024-10-28 This book explores the emergence of Yugoslav globalism and how it was influenced by the early Cold War the changes once Yugoslavia established

itself as a nonaligned leader and what the decline of Yugoslav globalism reveals about the waning Cold War and the history of internationalist diplomacy Although Yugoslavia was correctly defined as a regional power it is not true that Tito's influence was confined to the Balkans alone Even before the 1948 split with Stalin political elites and intellectuals imagined socialist Yugoslavia as a model for international comity and development Subsequently due to dramatic changes in the climate of international diplomacy Yugoslav globalist outreach found an audience and altered the course of early and fateful superpower stand offs In turn such globalism was a significant part of Tito's stewardship of nonalignment This is a story that has never been fully told Yugoslavia Nonalignment and Cold War Globalism fills this gap in discussions of the emergence of globalist discourse in the post 1989 era This volume is aimed at scholars and students of the Cold War and Tito's era in Yugoslavia as well as general readers of history interested in leadership and the role of regional powers in world politics
