Keewatin Land Of The Northwest Wind:

Distant Fires Scott Anderson, Details the adventure of two men who canoed 1700 miles from Duluth Minnesota to the shores of Hudson Bay and discusses their battle with mosquitoes their struggle with a tent that doesn't stay up in the wind and their diet of macaroni and cheese for countless breakfasts Our North Land Charles Richard Tuttle,1885

Keewatin Campbell Nelson Nutbrown,2004-10 The pilot's name is David Hawkins and fate places him in the hands of Dr Lyle Woods after being seriously wounded while on a bombing mission over Germany during the latter part of WWII During his lengthy convalescence the two men forge a deep powerful relationship which draws the two together five years later in the wilds of northern Saskatchewan after the doctor experiences a crushing family tragedy Armed with his indomitable good nature and laconic wit Hawk takes the dispirited doctor literally under his wing and the two embark on an extended journey into the north away from the dark world of human suffering and into the realm of spiritual and physical healing Fate intervenes and the two men are thrust into a life and death struggle for survival in the depths of the boreal forests of northern Saskatchewan It is an entertaining and mesmerising adventure for the spirit told in the grandest tradition **Days**

Before the Fall of Imperial Rome priests cast the internal organs of sacrificial animals on temple floors claiming to be able to divine the future from these entrails By probing the remains of Alberta s past sacrifices reading her entrails Norman Conrad believes that we might dimly see at apparition of Alberta s future This controversial book vividly portrays the history of land and life in Alberta from the Ice Ages to the present Making no apology for his criticism of government regulators and large corporations Norman Conrad makes a strident plea for Alberta s dangerously imperiled environment and presents a model that can be applied anywhere *The Canadian Surveyor* ,1962 *Arctic and Alpine Environments* Jack D. Ives,Roger G. Barry,2019-10-08 Originally published in 1974 *Arctic and Alpine Environments* examines the relatively simple ecosystems of arctic and alpine lands that still occupy extensive areas little disturbed by modern technology The book argues that there is a necessity for carefully controlled development of the resources of these regions and suggests that there is a risk of irreversible disturbance without full understanding of these regions This book provides a detailed documentation of cold stressed arctic and alpine terrestrial environments and systematically deals with the present and past physical environment climate hydrology and glaciology biota treeline vegetation vertebrate zoology and historical biogeography abiotic processes geomorphological and pedological and the role of man bioclimatology archaeology and technological impact including radioecology The book will appeal to academics and students of environmental and biological science as well as providing a significant source for conservationists government agencies and industrial organizations **Thelon** David F.
