**Kenneth Burke on Myth** Lawrence Coupe, 2013-10-18 Kenneth Burke rhetorician philosopher linguist sociologist literary and music critic crank was one of the foremost theorists of literary form He did not fit tidily into any philosophical school nor was he reducible to any simple set of principles or ideas He published widely and is probably best

known for two of his classic works *A Rhetoric of Motive* and *Philosophy of Literary Form*. His observations on myth however were never systematic and much of his writing on literary theory and other topics cannot be fully understood without fleshing out his thoughts on myth and mythmaking.

***Contemporary Perspectives on Rhetoric*** Sonja K. Foss, Karen A. Foss, Robert Trapp, 2014-04-04 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory. I. A. Richards, Ernesto Grassi, Chaim Perelman and Lucie Olbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard and Michel Foucault. The brief biographical sketches locate the theorists in time and place showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context. Each chapter ends with a complete bibliography of works by the theorists.

***International Law and Ethics after the Critical Challenge*** Euan MacDonald, 2011-03-05 Around twenty years ago a challenge was laid down to international law by those writing at the critical periphery of the discipline: a challenge that has yet to find a satisfactory response. Although often mistakenly characterised as nihilist, this book seeks to recast it in positive terms to pose the question of what if anything is left of international law and ethics if we accept both that apolitical rules are impossible and that the values that must inevitably be used to justify them are irreducibly radically subjective. After detailed analyses of different political and international legal philosophers who have confronted this issue, the answer is located in a turn to literature and a rehabilitation of the ancient notion of rhetoric.

***Rhetoric in the Twenty-First Century*** Nicholas J. Crowe, David A. Frank, 2016-04-26 This book arises from a symposium held in Oxford to consider the most fruitful trajectories of rhetoric in the 21st century. The gathering comprised an international delegation of leading scholars convened to assess from an array of perspectives the various possible futures of the ancient discipline of rhetoric as it responds vitally to the evolving contexts of the new millennium. This collection commemorates that event by extending its scrutiny into a number of specific fields of inquiry. It includes a foreword by Prof. James J. Murphy, an introductory article by the editors and six further articles commissioned from among the participants. The introduction provides a detailed account of the symposium and foregrounds the delegates' articles with a résumé of their arguments and consequent relevance to the overarching theme. Each contribution is a freshly minted and original piece of scholarship true to the generative and interactive spirit of the enterprise and speaking pertinently to the field of international rhetoric studies at the present time. *Rhetoric in the Twenty-First Century* addresses a spectrum of concerns. Scholars and students of rhetoric and language use will naturally find much of interest here and the inclusive ambit of the work will also appeal to students of ethics, religion, comparative literature, intercultural studies and the growing field of communication studies.

***After the Fall*** Noemi Marin, 2007 Noemi Marin analyzes famous writers from the area as critical

intellectuals and exiles in order to explore the role of rhetoric and identity in writers own experiences during the long history of communism Along with examinations of discursive relationships among power culture and resistance in works by George Konrad Andrei Codrescu and Siavenka Drakulic before and after the fall of communism Marin proposes specific dimensions for a rhetoric of exile pertinent to communist Eastern and Central Europe After the Fall shows how critical works on identity culture and communist history by the writers studied aid in reconstituting a rhetoric of dissidence identity and legitimation in the public discourse of a changing Europe The book offers a unique perspective on the complex contexts of political transition in which competing public discourse on freedom and democracy intersect with totalitarian regimes unsettled societies and issues of resistance

**Rhetorical Theory** Timothy Borchers,Heather Hundley,2018-03-30 From the moment we begin to understand the meanings of words and symbols we have used rhetoric It is how we determine perceptions of who we are those around us and the social structure in which we operate Rhetorical Theory Second Edition introduces a broad selection of classical and contemporary theoretical approaches to understanding and using rhetoric Historical context reveals why rhetorical theories were created while present day examples demonstrate how they relate to the world in which we live Borchers and Hundley present conceptual topics in a succinct and approachable manner The text is organized topically rather than chronologically so similarities and differences are easily detected in central ideas Each chapter is enhanced by the inclusion of theorist biographies applications of theory to practice and Internet exercises The Second Edition expands coverage on mediated rhetoric feminist rhetoric alternative rhetorical theories including Afrocentricity and intersectionality cultural and critical rhetoric and postmodern implications of rhetoric

**The Cambridge Companion to Foucault** Gary Gutting,2005-07-18 For Michel Foucault philosophy was a way of questioning the allegedly necessary truths that underpin the practices and institutions of modern society He carried this out in a series of deeply original and strikingly controversial studies on the origins of modern medical and social scientific disciplines These studies have raised fundamental questions about the nature of human knowledge and its relation to power structures and have become major topics of discussion throughout the humanities and social sciences The essays in this volume provide a comprehensive overview of Foucault s major themes and texts from his early work on madness through his

history of sexuality Special attention is also paid to thinkers and movements from Kant through current feminist theory that are particularly important for understanding his work and its impact This revised edition contains five new essays and revisions of many others and the extensive bibliography has been updated

**The Future of Invention** John Muckelbauer,2009-01-01 The Future of Invention links classical rhetorical practices of invention with the philosophical work of Gilles Deleuze and Jacques Derrida and proposes that some of the most crucial implications of postmodern theory have gone largely unattended Drawing on such classical rhetorical concepts as doxa imitation kairos and topos and engaging key works by Aristotle Plato the Sophists and others John Muckelbauer demonstrates how rhetorical invention can offer a nondialectical affirmative sense of change that invites us to rethink the ways in which we read write and respond to others

**Kenneth Burke and the 21st Century** Bernard L. Brock,1998-11-05 This book contributes to the ongoing debate over the future of rhetorical theory and criticism by presenting the stands taken by a variety of prominent Burkean scholars on the following issues the nature of the Burkean system Burke and feminism Burke and postmodernism and multiculturalism and the nature of symbolic action It demonstrates that Kenneth Burke anticipated many of the issues rhetorical theorists and critics face as they enter the 21st century

Opening Up James Farrer,2002-05-29 More and more men and women in China are having sex before marriage creating a new youth sex culture based on romance leisure and free choice Farrer explores

this change by tracing the basic elements in talk about sex and sexuality in Shanghai      *Theories of Human Communication*  
Stephen W. Littlejohn, Karen A. Foss, 2010-11-04 For almost four decades *Theories of Human Communication* has offered readers an engaging and informative guide to the rich array of theories that influence our understanding of communication. The first edition broke new ground with its comprehensive discussion of theorizing by communication scholars. Since that time the field has expanded tremendously from a small cluster of explanations and relatively unconnected theories to a huge body of work from numerous traditions or communities of scholarship. The tenth edition covers both classic and recent theories created by communication scholars and informed by scholars in other fields. Littlejohn and Foss organize communication theory around two intersecting elements: contexts and theoretical traditions, and emphasize the connections, trajectories, and relationships among the theories. They provide clear, accessible explanations that synthesize without oversimplifying. Their extensive use of examples presents theorizing as a natural process and invites readers to reflect on their own experiences and to become active participants in continuing the conversation. In addition to the authors' lucid explanations of theories, the text includes "From the Source" boxes in which the theorists share their perspectives on communication. The extensive bibliography (almost 1,200 entries) and chapter citations are invaluable resources for more in-depth study.
