also global with media dominated by Diana's death in scores of countries. The funeral itself had a record-breaking world television audience and messages of condolence floated around the globe in cyber space. How unique was all this? Does it mark a shift in the culture of mourning or the position of the monarchy or the role of emotion in British culture? How does it compare with the mourning for other super icons: JFK, Evita, Elvis, and Monroe? Was it media-induced hysteria? Or was it simply a magnification of normal mourning behaviour? Focusing on the extraordinary actions of millions of ordinary people, this book documents what happened and shows how a modern rational society coped with the unexpected in a proto-revolutionary week that left participants and objectors alike asking why did we behave like this.
