Kenyas Nomads:

Kenya Barbara Saffer,2006-08 An introduction to the geography history economy culture and people of Kenya The Oxford Handbook of Kenyan Politics Nic Cheeseman,Karuti Kanyinga,Gabrielle Lynch,2020-02-14 Kenya is one of the most politically dynamic and influential countries in sub Saharan Africa Today it is known in equal measure as a country that has experienced great highs and tragic lows In the 1960s and 1970s Kenya was seen as a success story of development in the periphery and also led the way in terms of democratic breakthroughs in 2010 when a new constitution devolved power and placed new constraints on the president However the country has also made international headlines for the kind of political instability that occurs when electoral violence is expressed along ethnic lines such as during the Kenya crisis of 2007 08 when over 1 000 people lost their lives and almost 700 000 were displaced The Oxford Handbook of Kenyan Politics explains these developments and many more drawing together 50 specially commissioned chapters by leading researchers The chapters they have contributed address a range of essential topics including the legacy of colonial rule ethnicity land politics devolution the constitution elections democracy foreign aid the informal economy civil society human rights the International Criminal Court the growing influence of China economic policy electoral violence and the impact of mobile phone technology In addition to covering some of the most important debates about Kenyan politics the volume provides an insightful overview of Kenyan history from 1930 to the present day and features a set of chapters that review the impact of devolution on regional politics in every part of the country **Population Health Science** Katherine M. Weitzberg examines the historical factors that led to this state of affairs In the process she challenges many of the most fundamental analytical categories such as tribe race and nation that have traditionally shaped African historiography Her interest in the ways in which Somali representations of the past and the present inform one another places her research at the intersection of the disciplines of history political science and anthropology Given tragic events in Kenya and the controversy surrounding al Shabaab *We Do Not Have Borders* has enormous historical and contemporary significance and provides unique inroads into debates over globalization African sovereignty the resurgence of religion and the multiple meanings of being African *Healthier Societies* Jody Heymann, Clyde Hertzman, Morris L.
