Whiteness The Culture of Segregation in America 1890 1940 With admirable courage Dora Apel and Shawn Michelle Smith examine lynching photographs that are horrifying shameful and elusive with admirable sensitivity they help us delve into the meaning and legacy of these difficult images They show us how the images change when viewed from different perspectives they reveal how the photographs have continued to affect popular culture and political debates and they delineate how the pictures produce a dialectic of shame and atonement Ashraf H A Rushdy author of Neo Slave Narratives and Remembering Generations This thoughtful and engaging book offers a highly accessible yet theoretically sophisticated discussion of a painful complicated and unavoidable subject Apel and Smith employing complementary and sometimes overlapping methodological approaches to reading these images impress upon us how inextricable photography and lynching are and how we cannot comprehend lynching without making sense of its photographic representations Leigh Raiford co editor of The Civil Rights Movement in American Memory Our newspapers have recently been filled with photographs of mutilated tortured bodies from both war fronts and domestic arenas How do we understand such photographs Why do people take them Why do we look at them The two essays by Apel and Smith address photographs of lynching but their analysis can be applied to a broader spectrum of images presenting ritual or spectacle killings Frances Pohl author of Framing America A Social History of American Art

Compassion and Moral Guidance Steve Bein, 2013-01-31 Compassion is a word we use frequently but rarely precisely One reason we lack a philosophically precise understanding of compassion is that moral philosophers today give it virtually no attention Indeed in the predominant ethical traditions of the West deontology consequentialism virtue ethics compassion tends to be either passed over without remark or explicitly dismissed as irrelevant And yet in the predominant ethical traditions of Asia compassion is centrally important All else revolves around it This is clearly the case in Buddhist ethics and compassion plays a similarly indispensable role in Confucian and Daoist ethics In Compassion and Moral Guidance Steve Bein seeks to explain why compassion plays such a substantial role in the moral philosophies of East Asia and an insignificant one in those of Europe and the West The book opens with detailed surveys of compassion's position in the philosophical works of both traditions The surveys culminate in an analysis of the conceptions of self and why the differences between these conceptions serve either to celebrate or marginalize the importance of compassion Bein moves on to develop a model for the ethics of compassion including a chapter on applied ethics seen from the perspective of the ethics of compassion The result is a new approach to ethics one that addresses the Rawlsian and Kantian concern for fairness the utilitarian concern for satisfactory consequences and the concern in care ethics for the proper treatment of marginalized groups Bein argues that compassion's capacity to address all of these makes it a primary tool for ethical decision making
