PRIZE AND NEW YORK TIMES BESTSELLER *The 20th Century Go-N* Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography Eagles of the Third Reich Samuel W. Mitcham, 2007 Originally published under the title *Men of the Luftwaffe* this insightful well researched book traces the rise and fall of Hitler's air force from the perspective of its top leaders concentrating on problems of organization policy and aircraft production rather than battles and campaigns Publishers Weekly **The Most Dangerous Enemy** Stephen Bungay, 2010-09-25 Stephen Bungay's magisterial history is acclaimed as the account of the Battle of Britain Unrivalled for its synthesis of all previous historical accounts for the quality of its strategic analysis and its truly compulsive narrative this is a book ultimately distinguished by its conclusions that it was the British in the Battle who displayed all the virtues of efficiency organisation and even ruthlessness we habitually attribute to the Germans and they who fell short in their amateurism ill preparedness poor engineering and even in their old fashioned notions of gallantry An engrossing read for the military scholar and the general reader alike this is a classic of military history that looks beyond the mythology to explore all the tragedy and comedy the brutality and compassion of war Men of the Luftwaffe Samuel W. Mitcham, 1988 Infantry, 1979 *The Day of Battle* Rick Atkinson, 2007-10-02 NEW YORK TIMES BESTSELLER In the second volume of his epic trilogy about the liberation of Europe in World War II Pulitzer Prize winner Rick Atkinson tells the harrowing story of the campaigns in Sicily and Italy In *An Army at Dawn* winner of the Pulitzer Prize Rick Atkinson provided a dramatic and authoritative history of the Allied triumph in North Africa Now in *The Day of Battle* he follows the strengthening American and British armies as they invade Sicily in July 1943 and then mile by bloody mile fight their way north toward Rome The Italian campaign's outcome was never certain in fact Roosevelt Churchill and their military advisers engaged in heated debate about whether an invasion of the so called soft underbelly of Europe was even a good idea But once under way the commitment to liberate Italy from the Nazis never wavered despite the agonizingly high price The battles at Salerno Anzio and Monte Cassino were particularly difficult and lethal yet as the months passed the Allied forces continued to drive the Germans up the Italian peninsula Led by Lieutenant General Mark Clark one of the war's most complex and controversial commanders American officers and soldiers became increasingly determined and proficient And with the liberation of Rome in June 1944 ultimate victory at last began to seem inevitable Drawing on a wide array of primary source material written with great drama and flair this is narrative history of the first rank With *The Day of Battle* Atkinson has once again given us the definitive account of one of history's most compelling military campaigns **The**

German Aces Speak Colin D. Heaton, Anne-Marie Lewis, Brig. Gen. Robin Olds, USAF (Ret.), Oberleutnant Kurt Schulze, 2011-11-15
 DIVDIV For the first time four German WWII pilots share their side of the story divDIV divDIV Few perspectives epitomize the sheer drama and sacrifice of combat more perfectly than those of the fighter pilots of World War II As romanticized as any soldier in history the WWII fighter pilot was viewed as larger than life a dashing soul waging war amongst the clouds In the sixty five plus years since the Allied victory stories of these pilots heroics have never been in short supply But what about their adversaries the highly skilled German aviators who pushed the Allies to the very brink of defeat divDIV divDIV Of all of the Luftwaffe s fighter aces the stories of Walter Krupinski Adolf Galland Eduard Neumann and Wolfgang Falck shine particularly bright In **The German Aces Speak** for the first time in any book these four prominent and influential Luftwaffe fighter pilots reminisce candidly about their service in World War II Personally interviewed by author and military historian Colin Heaton they bring the past to life as they tell their stories about the war their battles their lives and perhaps most importantly how they felt about serving under the Nazi leadership of Hermann G ring and Adolf Hitler From thrilling air battles to conflicts on the ground with their own commanders the aces memories disclose a side of World War II that has gone largely unseen by the American public the experience of the German pilot div div **An Army at Dawn** Rick Atkinson, 2007-05-15
 WINNER OF THE PULITZER PRIZE AND NEW YORK TIMES BESTSELLER In the first volume of his monumental trilogy about the liberation of Europe in World War II Pulitzer Prize winner Rick Atkinson tells the riveting story of the war in North Africa The liberation of Europe and the destruction of the Third Reich is a story of courage and enduring triumph of calamity and miscalculation In this first volume of the Liberation Trilogy Rick Atkinson shows why no modern reader can understand the ultimate victory of the Allied powers without a grasp of the great drama that unfolded in North Africa in 1942 and 1943 That first year of the Allied war was a pivotal point in American history the moment when the United States began to act like a great power Beginning with the daring amphibious invasion in November 1942 **An Army at Dawn** follows the American and British armies as they fight the French in Morocco and Algeria and then take on the Germans and Italians in Tunisia Battle by battle an inexperienced and sometimes poorly led army gradually becomes a superb fighting force Central to the tale are the extraordinary but fallible commanders who come to dominate the battlefield Eisenhower Patton Bradley Montgomery and Rommel Brilliantly researched rich with new material and vivid insights Atkinson s narrative provides the definitive history of the war in North Africa Monte Cassino Peter Caddick-Adams, 2013
 Waged deep in the Italian mountains beneath a mediaeval monastery the battle of Monte Cassino was an astonishingly brutal encounter grinding up ten armies in conditions as bad as the Eastern Front at its worst This book provides a vivid account of how an array of men from across the globe fought the most lengthy and devastating engagement of the Italian campaign in an ancient monastery town *Goering* Richard Overy, 2020-10-01
 Published in the Bloomsbury Revelations series and featuring a new preface by the author this classic biography by acclaimed historian Richard Overy takes the reader on a chilling journey into

the heart of Hitler's inner circle Hermann Goering was Hitler's most loyal supporter his designated successor and the second most powerful man in the Third Reich One of the main architects of the Nazi regime he was also instrumental in the creation of the Gestapo and directly ordered the Final Solution But who was the man behind the carefully constructed mask Self indulgent and ruthless sybaritic and brutal egotistical yet capable of self effacement weak willed yet fiercely calculating Goering was a contradictory complex and often bufoonish character He styled himself as the Iron Man but was known to wear togas fur coats and faux medieval hunting outfits A brilliant World War I fighter pilot military leader and mercurial Luftwaffe commander he also loved the opera and took a perverse pride in his ill gotten infamous art collection Richard Overy illuminates the many facets of Goering's personality and charts his story from his golden days as Hitler's most trusted commander to his failures and loss of power after the Battle of Britain his sensational trial at Nuremberg and his ignominious death by suicide on the eve of his execution

The Sources of Military Doctrine Barry R. Posen, 2014-09-10 Barry R Posen explores how military doctrine takes shape and the role it plays in grand strategy that collection of military economic and political means and ends with which a state attempts to achieve security Posen isolates three crucial elements of a given strategic doctrine its offensive defensive or deterrent characteristics its integration of military resources with political aims and the degree of military or operational innovation it contains He then examines these components of doctrine from the perspectives of organization theory and balance of power theory taking into account the influence of technology and geography Looking at interwar France Britain and Germany Posen challenges each theory to explain the German Blitzkrieg the British air defense system and the French Army's defensive doctrine often associated with the Maginot Line This rigorous comparative study in which the balance of power theory emerges as the more useful not only allows us to discover important implications for the study of national strategy today but also serves to sharpen our understanding of the origins of World War II

The War in North Africa, 1940-1943 Colin F. Baxter, 1996-03-30 Few of the major campaigns of World War II aroused as much controversy as the War in North Africa 1940-1943 Figures such as Rommel Montgomery and Eisenhower would become world famous because of the fighting in North Africa This book opens with seven historiographical essays that evaluate and critically assess the major contributions to the literature on the War in North Africa It then includes an alphabetically arranged bibliography of the 504 entries cited in the essays The material is easily accessible with cross references between the text and the bibliography and a full index The volume includes chapters on the Desert War 1940-42 the Axis Powers in North Africa Montgomery Alam Halfa and El Alamein TORCH the Landings in French North Africa and the Tunisian Campaign Full attention is given to questions and issues historians have raised on such controversies as the Auchinleck Montgomery dispute the debate over Operation TORCH and the Darlan affair Emphasis is on English language works but the most significant Italian German and French works are cited and assessed The book has been written for use in public college university and institutional libraries and to serve general readers and military historians

To Destroy A City

Herman Knell,2003-03-20 A German survivor of the Allied air campaign in World War II provides a unique and thought provoking perspective on strategic wide area bombing **Air University Review** ,1982 **Goering** R. J. Overy,2003

The Me 262 Stormbird Colin Heaton,Anne-Marie Lewis,2012-05-15 The Me 262 was the first of its kind the first jet powered aircraft Although conceived before the war with the initial plans being drawn in April 1939 the Stormbird was beset with technological particularly the revolutionary engines and political difficulties resulting in it not entering combat until August 1944 with claims of nineteen downed Allied aircraft The performance of the Me 262 so far exceeded that of Allied aircraft that on 1 September 1944 USAAF General Carl Spaatz remarked that if greater numbers of German jets appeared they could inflict losses heavy enough to force cancellation of the Allied daylight bombing offensive The story of how the Stormbird came to be is fascinating history and it comes to life in the hands of noted historian Colin Heaton Told largely in the words of the German aces who flew it The Me 262 Stormbird provides the complete history of this remarkable airplane from the drawing boards to combat in the skies over the Third Reich Features two forewords one by Jorg Czypionka Me 262 night fighter pilot and another by historian and author Barrett Tillman
