**Kingdom, Civitas, and County** Stephen Rippon, 2018-04-19 This book explores the development of territorial identity in the late prehistoric Roman and early medieval periods Over the course of the Iron Age a series of marked regional variations in material culture and landscape character emerged across eastern England that reflect the development of discrete zones of social and economic interaction The boundaries between these zones appear to have run through sparsely settled areas of the landscape on high ground and corresponded to a series of kingdoms that emerged during the Late Iron Age In eastern England at least these pre Roman socio economic territories appear to have survived throughout the Roman period despite a trend towards cultural homogenization brought about by Romanization Although there is no direct evidence for the relationship between these socio economic zones and the Roman administrative territories known as civitates they probably corresponded very closely The fifth century saw some Anglo Saxon immigration but whereas in East Anglia these communities spread out across much of the landscape in the Northern Thames Basin they appear to have been restricted to certain coastal and estuarine districts The remaining areas continued to be occupied by a substantial native British population including much of the East Saxon kingdom very little of which appears to have been Saxon By the sixth century a series of regionally distinct identities that can be regarded as separate ethnic groups had developed which corresponded very closely to those that had emerged during the late prehistoric and Roman periods These ancient regional identities survived through to the Viking incursions whereafter they were swept away following the English reconquest and replaced with the counties with which we are familiar today *An Essex Tribute* Kenneth James Neale, 1987 [The Hudson Triangle](#)

, 1917 **Prostitution in Victorian Colchester** Jane Pearson, Maria Rayner, 2018-03-01 The decision to build a new army camp in the small market town of Colchester in 1856 was well received and helped to stimulate the local economy after a prolonged period of economic stagnation Before long the Colchester garrison was one of the largest in the country and the town experienced an economic upturn as well as benefiting from the many social events organized by officers But there was a downside some of the soldiers behavior was highly disruptive and since very few private soldiers were allowed to marry prostitution flourished Having compiled a database of nearly 350 of Colchester's nineteenth century prostitutes the authors examine how they lived and operated and who their customers were **Beyond the Medieval Village** Stephen

Rippon, 2008-11-27 The varied character of Britain's countryside provides communities with a strong sense of local identity One of the most significant features of the landscape in Southern Britain is the way that its character differs from region to region with compact villages in the Midlands contrasting with the sprawling hamlets of East Anglia and isolated farmsteads of Devon Even more remarkable is the very English feel of the landscape in southern Pembrokeshire in the far south west of Wales Hoskins described the English landscape as the richest historical record we possess and in this volume Stephen Rippon explores the origins of regional variations in landscape character arguing that while some landscapes date back to

the centuries either side of the Norman Conquest other areas across southern Britain underwent a profound change around the 8th century AD

**Byrhtferth of Ramsey** Byrhtferth, 2009 Byrhtferth of Ramsey was one of the most learned scholars of late Anglo Saxon England and his two saints Lives of Oswald a powerful bishop of Worcester and York in the tenth century d 992 and Ecgwine the seventh century founder of Evesham are among the most important historical sources for our understanding of late Anglo Saxon England The Life of St Oswald is the longest surviving work of Anglo Saxon hagiography and it is the principal source for much of our knowledge of tenth century England especially the monastic reform movement the role of King Edgar the murder of Edward king and Martyr and the so called anti monastic reaction of which he is the unique witness Much less is known about St Ecgwine both by us and by Byrhtferth but Byrhtferth s writing has exceptional value once again for the light it throws on tenth century monasticism and the role of King Edgar in this process Both Lives have been printed only once before in the nineteenth century in editions which are riddled with errors and which have misled scholarship for over a century Neither work has ever been translated into English The present edition includes facing page translations which will make these works accessible to a scholarly audience for the first time Byrhtferth s Latin is unusually idiosyncratic and difficult and was frequently misunderstood by the scribe who copied the unique manuscript in which the Lives are preserved The texts are also accompanied by extensive notes which explain the historical implications and the often impenetrable Latin One of the principal features of the new edition is that corruption in the transmitted text has been emended where necessary based on knowledge of Byrhtferth s Latin style analysed for example in the EETS edition of Byrhtferth s Enchiridion ed Lapidge and Baker in 1994 A new edition of Byrhtferth s two saints Lives has been long awaited and will be indispensable to the study of Anglo Saxon history and literature the texts also throw considerable new light on the archaeology of Anglo Saxon ecclesiastical sites such as York Worcester Ramsey and Evesham

**Gender and Material Culture** Roberta Gilchrist, 2013-05-13 Gender and Material Culture is the first complete study in the archaeology of gender exploring the differences between the religious life of men and women Gender in medieval monasticism influenced landscape contexts and strategies of economic management

the form and development of buildings and their symbolic and iconographic content Women's religious experience was often poorly documented but their archaeology indicates a shared tradition which was closely linked with and valued by local communities The distinctive patterns observed suggest that gender is essential to archaeological analysis      **Byrhtferth of Ramsey** Michael Lapidge, 2008-11-28 Byrhtferth of Ramsey was one of the most learned scholars of late Anglo Saxon England and his two saints Lives of Oswald a powerful bishop of Worcester and York in the tenth century d 992 and Ecgbwine the seventh century founder of Evesham are among the most important historical sources for our understanding of late Anglo Saxon England The Life of St Oswald is the longest surviving work of Anglo Saxon hagiography and it is the principal source for much of our knowledge of tenth century England especially the monastic reform movement the role of King Edgar the murder of Edward king and Martyr and the so called anti monastic reaction of which he is the unique witness Much less is known about St Ecgbwine both by us and by Byrhtferth but Byrhtferth's writing has exceptional value once again for the light it throws on tenth century monasticism and the role of King Edgar in this process Both Lives have been printed only once before in the nineteenth century in editions which are riddled with errors and which have misled scholarship for over a century Neither work has ever been translated into English The present edition includes facing page translations which will make these works accessible to a scholarly audience for the first time Byrhtferth's Latin is unusually idiosyncratic and difficult and was frequently misunderstood by the scribe who copied the unique manuscript in which the Lives are preserved The texts are also accompanied by extensive notes which explain the historical implications and the often impenetrable Latin One of the principal features of the new edition is that corruption in the transmitted text has been emended where necessary based on knowledge of Byrhtferth's Latin style analysed for example in the EETS edition of Byrhtferth's Enchiridion ed Lapidge and Baker in 1994 A new edition of Byrhtferth's two saints Lives has been long awaited and will be indispensable to the study of Anglo Saxon history and literature the texts also throw considerable new light on the archaeology of Anglo Saxon ecclesiastical sites such as York Worcester Ramsey and Evesham      **Kings and Lords in Conquest England** Robin Fleming, 1991 One of the most stimulating and original contributions to Conquest studies covering the period 950-1086

**Veiled Women** Sarah Foot, 2023-01-09 There is no published account of the history of religious women in England before the Norman Conquest Yet female saints and abbesses such as Hild of Whitby or Edith of Wilton are among the most celebrated women recorded in Anglo Saxon sources and their stories are of popular interest This book offers the first general and critical assessment of female religious communities in early medieval England It transforms our understanding of the different modes of religious vocation and institutional provision and thereby gives early medieval women's history a new foundation      **The Anglo-Saxon Chronicle** Michael J. Swanton, 1998-08-18 The first continuous national history of any western people in their own language The Anglo Saxon Chronicle traces the history of early England from the migration of the Saxon war lords through Roman Britain the onslaught of the Vikings the Norman Conquest and on through the reign of

**Kings, Currency, and Alliances** Mark A. S. Blackburn, D. N. Dumville, 1998. Historians, numismatists and philologists consider fundamental aspects of 9c political and economic history. The ninth century was a period of upheaval in England as the kingdoms of Mercia and Wessex vied for supremacy and East Anglia and Kent sought to regain their independence with the arrival of the Vikings introducing a further element of unrest. This interdisciplinary collection of papers by historians, numismatists and philologists considers fundamental aspects of the period's political and economic history. Alliances and treaties are a central theme; political and monetary. A radical reassessment of events in London in the later ninth century is presented, prompted by a detailed examination of the numismatic evidence marshalled here along with the written sources; it is argued that the Vikings were not in control of the city prior to Alfred's reoccupation in AD 886. The volume includes an illustrated corpus of the coinage of Berhtwulf and another for the middle years of Alfred's reign; moneyers are identified as witnesses to charters and the forms of their names are analysed according to the Old English dialects they represent. A listing of some 500 single coin finds forms the basis for a discussion of the nature and extent of monetary use in ninth-century England. The late MARK BLACKBURN was Keeper of Coins and Medals at the Fitzwilliam Museum, Cambridge. DAVID DUMVILLE is Emeritus Professor at the University of Aberdeen. Contributors: SIMON KEYNES, THOMAS CHARLES EDWARDS, JAMES BOOTH, MARK BLACKBURN, LORD STEWART, BY PAUL BIBIRE, D. M. METCALF, MICHAEL BONSER.
