El argot, entre España y Colombia. Estudios léxicos y pragmáticos Neus Vila Rubio, Luz Stella Castañeda Naranjo, 2012. En la actualidad, en el mundo hispanico los argots conviven con el lenguaje estándar; incluso se van incorporando cada vez con mayor fuerza en la letra impresa. En este volumen, en el que han colaborado investigadores de la Universidad de Lleida y de la Universidad de Antioquia, se desgranán estudios de carácter léxico y pragmático con el fin de caracterizar y explicar en clave contrastiva las dos variedades tanto en cuanto a su estructura como en lo que se refiere a su uso por parte de los hablantes.

Comparative Romance Linguistics Newsletter, 1994 **Introducción al léxico, componente transversal de la lengua** Paz Battaner Arias, Carmen López Ferrero, 2019-06-20. El presente manual ofrece una visión global del léxico como fenómeno lingüístico. Trata de integrar diversas facetas de la lengua a través de su observación desde el léxico para acercarse a la lengua por el léxico sin tener que recorrer los planteamientos generales que se logran ascendiendo desde la observación fonológica como manifestación primera del fenómeno lingüístico hasta los niveles discursivos. La teoría del léxico que aquí se propone busca ofrecer una interpretación unitaria de toda lengua natural y se fundamenta en las aportaciones recientes de los estudios que vinculan el léxico con la gramática con la pragmática y con los avances de la lingüística cognitiva además de las descripciones semánticas y fonológicas de las unidades léxicas sin desconocer su peso en el procesamiento informático de hoy. Al ser el léxico un concepto que se materializa en vocabulario de las lenguas, las descripciones y los ejemplos que se proporcionan se presentan desde el vocabulario de la lengua española.
