Eternal Moment:

The Coming of God Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jurgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God's promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann's comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God

I Am a I Steven Joshua, 2010-04 I AM A I Unfolding the Flower As long as you walk this planet you are going to be working with or applying the laws truths of a physical science textbook You will work with or apply gravity and the laws of motion in order to walk You will work with or apply the laws truths of thermodynamics to keep warm You will work with or apply the laws of harmonics to speak And you may be totally unaware that you are applying these laws truths as you move through physical form even though they have the potential of being everywhere and are within you and without you Sound familiar What can be said for physical laws applies to the spiritual laws truths of Heaven as well I AM A I Unfolding the Flower provides you with a comprehensive model that synthesizes the physical sciences with the metaphysical sciences while incorporating the core concepts of most world religions In addition it provides you a set of very basic relatively generic tools that when applied can enhance your life experience spiritual and non spiritual Some of the tools presented in this book are O Truth perception and recognition exercises O A multitude of meditation forms are presented to you O Mechanics of your mind and exercises on how to use them O The mechanics of visualization exercises and exercises that extend your mind's eye through time and space O Some elementary ESP exercises O Numerous exercise modalities for you to use music as a mental tool It is the operator's intention that determines the use of a tool Just as it is the applications of the laws truths inside a physical science book that produces physical effects in your life It is the applications of the laws truths inside I AM A I that will produce spiritual or mystical effects in your life And a principle stated in this book the higher determines the lower maintains that the spiritual or mystical results can have physical side effects

Awareness Bound and Unbound David R. Loy, 2009-07-02 What do we need to do to become truly comfortable at one

with our lives here and now In these essays Buddhist social critic and philosopher David R Loy discusses liberation not from the world but into it Loy's lens is a wide one encompassing the classic and the contemporary the Asian the Western and the comparative Loy seeks to distinguish what is vital from what is culturally conditioned and perhaps outdated in Buddhism and also to bring fresh worldviews to a Western world in crisis Some basic Buddhist teachings are reconsidered and thinkers such as Nagarjuna Dogen Eckhart Swedenborg and Zhuangzi are discussed Particularly contemporary concerns include the effects of a computerized society the notion of karma and the position of women terrorism and the failure of secular modernity and a Buddhist response to the notion of a clash of civilizations With his unique mix of Buddhist philosophical insight and passion for social justice Loy asks us to consider when our awareness or attention is bound in delusion and when it is unbound and awakened

How to Get to Heaven (Without Really Dying) Robert Koepeck, 2018-03-08 A Near Death Survivor's Guide to Living a Joyful Reality in the Here and Now After living through three very different near death experiences Robert Koepeck discovered a remarkable fact about life and death You don't have to die to go to Heaven This book shows how to engage with a paradise that is always present in your life It's about learning how to make choices that lead you to a place of happiness and fulfillment finding the pathways and a few shortcuts that will bring you the spiritual awareness and joy that is your birthright By cultivating perspective presence and purpose you'll discover that going to Heaven is not about moving into a realm of eternal sleep but about being right where you are wherever that may be and waking up Praise Many people have had near death experiences and have returned with strong messages for the rest of us Robert Koepeck's reflections are unusually intelligent and presented in a lively mix of humor and seriousness I had fun

reading this book and appreciated Robert's fresh way of offering traditional wisdom. Thomas Moore, author of *Care of the Soul* and *Ageless Soul*, helping us to engage with life; these truths will lead us on a transformational journey in finding a life filled with joy while creating Heaven on Earth. Anita Moorjani, New York Times bestselling author of *What If This Is Heaven*, possibly the most insightful book on how to obtain the enlightenment experienced by those who have gone through a NDE. *How to Get to Heaven Without Really Dying* offers hope and encouragement to experience lasting change. Marianne Pestana, host of *Moments with Marianne*, Robert's compassion and selfless service of insight and reflections are a true gift to every reader of this guide to higher consciousness. Brother Edward Salisbury, DDiv FD hospice minister and multiple NDE survivor. Robert Kopecky clearly identifies techniques to help stop our de-evolution of society by remembering our true purpose to be of service to others. Linda P. Truax, Board Secretary of the International Association for Near Death Studies, I appreciate and endorse Robert's key themes which are presented with engaging and heartfelt first person examples. We if seek peace of mind in this life, we'll find it through acts of kindness, humility, honesty, forgiveness, compassion, and service. These practices are universal but often expressed in a dogmatic fashion rather than in the friendly manner found in this book. Perhaps his clarity boils down to the adage: Religion is for people who're afraid of going to hell. Spirituality is for those who've already been there. Josh Korda, author and guiding teacher of DharmaPunx NYC: A landscape of love is all around us and yet mysteriously hidden. Based on his own near-death experiences, Robert Kopecky gives us keys to this landscape. Practicing the simple qualities of kindness, compassion, humility, and service open us to the love, light, and magic of life. Heaven is not somewhere else but a state in which we are reconnected to the Divine Consciousness that is within and all around us. This beautiful book helps us to live in this miraculous realm awake in its wonder.

Llewellyn Vaughan Lee, PhD, author of *Sufism: The Transformation of the Heart*. **Understanding Life's Insanity** John Coffin, 2007-09-01. Understand the insanity of the life we have created for ourselves. As you read this book, you will start to unravel life's most complicated questions, revealing the beauty and underlining simplicity of life. This book will open your mind and speak directly to your heart. It will guide you through heartbreak and confusion, freeing you to live life.

A Path of Joy Paramananda Ishaya, 2014-01-31. The search for spiritual enlightenment becomes difficult when seriousness replaces simple commitment. You close the door on the joy of being by taking yourself seriously. When you discover a path of joy, however, freedom is no longer a difficult task but an effortless exploration. Approaching liberation with effort makes sense to the mind when the goal is as valuable as enlightenment and we're used to trying hard to achieve what we want. But understanding what you truly are works in unexpected ways, and in this lies the cosmic joke. *A Path of Joy: Popping into Freedom* takes a lighthearted look at overcoming the obstacles you encounter in your journey. Each topic is a kernel of truth that invites you to explore and pop into the aliveness of silence. And the path is more obvious than you'd expect.

The Gods of Entropy Deryck Hockley, 2020-12-09. The Gods of Entropy and the Fifth Yin follows Dyfed Lucifer, the only descendant of the multi-dimensional Hyperborean Masters of the Little Known Universe to be

born on an earth that has a history remarkably similar to ours His mission is to reduce the suffering of humans the hoi polloi the fuzz on the peach and the salt of the Earth and give them the tools to think independently Standing in the way of Dyfed's mission are the Haploids the world's executive power elite who captain almost every ship of state These Haploids are the acolytes of myth and responsible for cults political ideology fallacies and a corporate establishment that keeps the hoi polloi slaves to debt Thankfully as an immortal Dyfed has time on his hands for this epic quest that extends from early history to a gloomy future that despite the author's disclaimer bears a striking resemblance to the world at large today Witty sagacious and downright spicy The Gods of Entropy combines satire and surrealism to hold a mirror up to our own civilization that will make readers alternatively chortle and gasp and most importantly reflect

Cyclical Time & Ismaili Gnosis Henry Corbin, 2013-01-11 First published in 1983 The volume Cyclical Time and Ismaili Gnosis brings together in English translation three of Henry Corbin's richest and most complex studies originally presented at the Eranos conferences of 1951 and 1954 and another conference in 1956 Each of these three relatively early studies is built around a complex highly creative comparison of the phenomenological correspondences between texts often highly fragmentary from a vast range of spiritual traditions from late Antiquity including Manichaenism and the sects of Sassanid Iran all gnostic in the root Greek sense of that term favoured by Corbin though not in the narrower historical sense used by most contemporary scholars and comparable spiritual themes in an equally wide range of Islamic texts eventually preserved in the later Ismaili Shi'i tradition

God's Time For Us James J. Cassidy, 2016-09-28 The relationship between eternity and time is a common subject for theologians and philosophers What difference does it make for this discussion that God became man and inhabited time in Jesus Christ In God's Time for Us James J Cassidy examines the theology of Karl Barth to show that God is our Father who does not neglect us for lack of time he is the God who has time to be with us God also quite literally has time in his own being by virtue of the incarnation Cassidy shows that Barth seeks a rapprochement between eternity and time which is overcome by Jesus Christ There is today a resurgence in interest in the theology of Barth especially among evangelicals Yet Barth is often read without discernment and discussed in churches without full understanding Cassidy illuminates his thought so evangelicals can make a better more well informed appraisal of the man and his theology

Ecstatic Pessimist Peter Dale Scott,2023-02-28 Ecstatic Pessimist is a timely book about the Central and Eastern European experience of the mid 20th century as told through the poetry and experiences of Czeslaw Milosz Nobel Laureate for literature who wrote on the horrors of war and the human experience Written by a colleague and friend of the poet it is part literary criticism and part memoir This biography memoir of Czeslaw Milosz is a first hand account of the poet s life and his relationship to the author beginning in the 1960s Milosz was a Polish American poet prose writer translator and diplomat Regarded as one of the great poets of the 20th century he won the 1980 Nobel Prize in Literature In its citation the Swedish Academy called Milosz a writer who voices man s exposed condition in a world of severe conflicts Ecstatic Pessimist expands on Czeslaw Milosz s commitment to unpolitical politics working for a revolution in culture and above all poetry as a necessary preparation for a revolution in politics This is a familiar notion in Poland which for two centuries was politically divided but poets preserved and enhanced a lively Polish consciousness And as the book shows Milosz took steps over two decades to help reunite Poles in the successful Solidarity movement whose struggle eventually changed the regime and forced the Soviet armies to withdraw But the book is designed to encouraged a similar development in America Milosz s ambition for poetry may at first sound exotic but as the book says it is in the spirit of what John Adams wrote late in life to Thomas Jefferson The American revolution was in the mind of the people and in the union of the colonies both of which were accomplished before

the hostilities commenced Though the book is also designed for those who already know and love Milosz it is primarily written for those looking for someone whose genius could similarly inspire Americans of both left and right to unite in restoring the badly broken politics of this country The book argues that Czeslaw Milosz is that genius as perhaps the only person who has been praised by intellectual leaders like Chris Hedges on the left and has also spoken at Hillsdale College the intellectual citadel of the American right

Religion and the Specter of the West Arvind-Pal S. Mandair, 2009-10-23

Arguing that intellectual movements such as deconstruction postsecular theory and political theology have different implications for cultures and societies that live with the debilitating effects of past imperialisms Arvind Mandair unsettles the politics of knowledge construction in which the category of religion continues to be central Through a case study of Sikhism he launches an extended critique of religion as a cultural universal At the same time he presents a portrait of how certain aspects of Sikh tradition were reinvented as religion during the late nineteenth and early twentieth centuries India's imperial elite subtly recast Sikh tradition as a sui generis religion which robbed its teachings of their political force In turn Sikhs began to define themselves as a nation and a world religion that was separate from but parallel to the rise of the Indian state and global Hinduism Rather than investigate these processes in isolation from Europe Mandair shifts the focus closer to the political history of ideas thereby recovering part of Europe's repressed colonial memory Mandair rethinks the intersection of religion and the secular in discourses such as history of religions postcolonial theory and recent continental philosophy Though seemingly unconnected these discourses are shown to be linked to a philosophy of generalized translation that emerged as a key conceptual matrix in the colonial encounter between India and the West In this riveting study Mandair demonstrates how this philosophy of translation continues to influence the repetitions of religion and identity politics in the lives of South Asians and the way the academy state and media have analyzed such phenomena
