The Katurran Odyssey David Michael Wieger, 2019-07-19 An epic tale of faith, hope, and selfless heroism of a courageous young lemur named Katook is illuminated by the stunning illustrations of Whitlatch, one of the world's most celebrated creature designers and brought to dynamic life by the storytelling of Wieger. George Lucas calls the book remarkably beautiful and adds anyone who is lucky enough to spend time with *The Katurran Odyssey* will be richer for the experience.

Mesozoic Art, 2022-10-27 Showcases the work of twenty leading paleoartists who expertly bring these extinct animals to life in exquisite detail. Dinosaurs are endlessly fascinating to people of every age, from the youngest child who enjoys learning the tongue-twisting names to adults who grew up with *Jurassic Park* and *Walking with Dinosaurs*. As our knowledge of the prehistoric world continues to evolve and grow, so has the discipline of bringing these ancient worlds to life artistically. Paleoart puts flesh on the bones of long extinct organisms and illustrates the world they lived in. *Mesozoic Art* presents twenty of the best artists working in this field, representing a broad spectrum of disciplines from traditional painting to cutting-edge digital technology. Some provide the artwork for new scientific papers that demand high-end paleoart as part of their presentation to the world at large; they also work for the likes of National Geographic and provide art to museums around the world to illustrate their displays. Other artists are the new rising stars of paleoart in an ever-growing, ever-diversifying field. Arranged by portfolio, this book brings this dramatic art to a wide contemporary audience. The art is accompanied by text on the animals and their lives, written by palaeontologist Darren Naish. Paleoart is dynamic, fluid, and colourful, as were the beasts it portrays, which are displayed in this magnificent book.

Aliens in Popular Culture Michael M. Levy, Farah Mendlesohn, 2019-03-22 An indispensable resource, this book provides wide coverage on aliens in fiction and popular culture. The wide impact that the imagined alien has had upon Western culture has not been surveyed before; in many cases, the essays in *Aliens in Popular Culture* are the first written on the topic. The book is a compendium of short entries on notable uses of aliens in popular culture across different media and platforms by almost 90 researchers in the field. It covers science fiction from the late nineteenth century into the twenty-first century, including books, films, television, comics, games, and even advertisements. Individual essays point to the ways in which the imagined alien can be seen as a reflection of different fears and tensions within society, above all in the Anglo-American world. The book additionally provides an overview for context and suggestions for further reading. All varieties of readers will find it to be a comprehensive reference about the extra-terrestrial in popular culture.
