Kayaks Down The Nile:

Kayaks Down the Nile John Goddard, 1979 **Down the Nile** Rosemary Mahoney, 2007-07-11 Rosemary Mahoney was determined to take a solo trip down the Egyptian Nile in a small boat even though civil unrest and vexing local traditions conspired to create obstacles every step of the way Starting off in the south she gained the unlikely sympathy and respect of a Muslim sailor who provided her with both a seven foot skiff and a window into the culturally and materially impoverished lives of rural Egyptians Egyptian women don't row on the Nile and tourists aren't allowed to for safety's sake Mahoney endures extreme heat during the day and a terror of crocodiles while alone in her boat at night Whether she's confronting deeply held beliefs about non-Muslim women finding connections to past chroniclers of the Nile or coming to the dramatic realization that fear can engender unwarranted violence Rosemary Mahoney's informed curiosity about the world her glorious prose and her wit never fail to captivate The Programmer Michael Di Loreto, 2025-01-06 This is the true story of an ordinary Programmer who did extraordinary things His career as a professional Computer Programmer began in 1968 and ended in 2017 Without any formal education he was self-taught and very successful That is he had good jobs and made good money not that he got rich or famous A hard-core Programmer for 49 years he never went into management or did anything else Having had every title from Systems Analyst to Software Engineer he still insists on the old-fashioned Programmer to describe his work In addition to recounting his job experiences he gives lessons in programming These lessons are not so much about technology as about the attitudes and behaviors that make a successful problem solver He addresses himself to other Programmers but it's not too technical for general readers He also talks about his long-time hobby of studying foreign languages and linguistics There's a little but not much about his personal life but his life corresponds with the modern history of computers and programming He was born in 1950 about the same time as the introduction of the first commercially available digital computer UNIVAC I He got his first job as a Programmer in 1968 programming a third generation computer the UNIVAC 9300 TalentEd Jerry D.
