Kazak Social Structure:

Kazak Social Structure Alfred Emmons Hudson, 1938 **Russian Colonization and the Genesis of Kazak National Consciousness** S. Sabol, 2003-03-13 This study concentrates upon the socio political and nationalist views of three influential representatives of the early twentieth century Kazak intelligentsia Alikhan Bokeilhanov Akhmet Baitursynov and Mukhamedzhan Seralin The resulting discourse on literature education and politics shaped the Kazak nationalist movement before 1920 This study draws on the published works of the Kazak intelligentsia the periodicals *Ai qap* 1911 1915 and *Kazak* 1913 1918 and archival records from the Central State Archives of the Republic of Kazakhstan The Kazakhs Chokan Laumulin, Murat Laumulin, 2009-08-01 Here is a well informed concise introduction to the culture and history of the vast territory of Kazakhstan equivalent to the size of Western Europe located at the centre of geographical Eurasia Written by two brothers one a distinguished scholar and the other well known in Kazakhstan's media the book focuses on the Kazakh people who today make up over half the population of some 15 million Topics covered include Kazakhstan's historical heritage including the Soviet legacy its geography and the national psychology religion and culture and how to do business Kazakhstan first appeared on the world stage in 2001 with the opening of its oil pipeline linking its vast Tengiz oil field with the Russian Black Sea port of Novorossiysk *The Elementary Structures of Kinship* Claude Levi-Strauss, 2016-05-10 Professor L vi Strauss's first major work *Les Structures mentales de la Parente* has acquired a classic reputation since its original publication in 1949 and it has become the constant focus of academic debate about central theoretical concerns in social anthropology It is however a long and difficult book for many students to read in French and its arguments have consequently become known even among professional anthropologists largely through critical analysis It was republished in a revised French edition in 1967 with a new foreword by the author and it is this text with his further emendations that has been used in this translation L vi Strauss applies his intellectual powers to the perennial problem of incest which he elucidates by means of the concept of exchange as formulated by Marcel Mauss in his famous analysis of the gift *Essai sur le don* 1925 He distinguishes two elementary modes of exchange which govern not only the conventional variety of goods and services but also the transfer of women in marriage these are restricted and generalized exchange With a mass of ethnographic evidence he demonstrates how the formidable intricacy of marriage customs comprising moral and juristic ideas and institutions which appear to be essentially arbitrary can be seen as local and historical rules of exchange Charles L vi Strauss traces these rules throughout a vast range of simple societies chiefly in Australia and mainland Southeast Asia but also in the Americas in Oceania and in other parts of the world To this survey he adds two extended sections on the great civilizations of China and India He continues with a briefer consideration of the passage from elementary to complex structures with particular reference to African societies and concludes with a stimulating chapter on the principles of kinship exchange as the universal basis for marriage prohibitions and the formal relations between the sexes as part of a universe of

communication Although much of the work is technical consisting of detailed analyses of types of social organization with which social anthropologists will be most familiar it also contains much that will be of interest to psychologists linguists and philosophers and to all who are interested in the possibility and the technique of the structural analysis of human activity After the successes moreover of L vi Strauss s subsequent books notably Structural Anthropology Tristes Tropiques Totemism and The Savage Mind this new edition of the work which founded his present outstanding reputation will have additional value as a further means of contact with one of the original minds of this century The translation has been made by James Harle Bell and John Richard von Sturmer of the University of New England Australia and by Rodney Needham of the University of Oxford Dr Needham also acted as general editor and supplied the work with a new general index He is the translator of L vi Strauss s Le Totemisme aujourd hui and author of Structure and Sentiment 1962 and numerous papers which have contributed to the recognition of Professor L vi Strauss s work in the English speaking world *Extension in*

The Hungry Steppe Sarah Cameron,2018-11-15 The Hungry Steppe examines one of the most heinous crimes of the Stalinist regime the Kazakh famine of 1930-33 More than 1.5 million people perished in this famine a quarter of Kazakhstan s population and the crisis transformed a territory the size of continental Europe Yet the story of this famine has remained mostly hidden from view Drawing upon state and Communist party documents as well as oral history and memoir accounts in Russian and in Kazakh Sarah Cameron reveals this brutal story and its devastating consequences for Kazakh society Through

the most violent of means the Kazakh famine created Soviet Kazakhstan a stable territory with clearly delineated boundaries that was an integral part of the Soviet economic system and it forged a new Kazakh national identity But this state driven modernization project was uneven Ultimately Cameron finds neither Kazakhstan nor Kazakhs themselves were integrated into the Soviet system in precisely the ways that Moscow had originally hoped The experience of the famine scarred the republic for the remainder of the Soviet era and shaped its transformation into an independent nation in 1991 Cameron uses her history of the Kazakh famine to overturn several assumptions about violence modernization and nation making under Stalin highlighting in particular the creation of a new Kazakh national identity and how environmental factors shaped Soviet development Ultimately *The Hungry Steppe* depicts the Soviet regime and its disastrous policies in a new and unusual light

Who Owns the Stock? Anatoly M. Khazanov, Günther Schlee, 2012-08-01 The issue of collective and multiple property rights in animals such as cattle camels or reindeers among pastoralists has never been a subject of special cross cultural and comparative study Focusing on pastoralist societies in East and West Africa the Far North and Siberia and the Eurasian steppes this volume addresses the issue of property rights and the changes these societies have undergone due to the direct or indirect influence of modernization and globalization processes The contributors also investigate the interplay of older sets of rights and modern marketing policies political ecological and economic effects of collectivization and de collectivization the existence of collective and private property in the Soviet Union and its successor states state taxation and destocking measures in African dry lands and the effects of quarantine as well as import and export regulations The rich and well researched ethnographic historical and economic data in these chapters provides new theoretical insights into the matter of property rights in animals

Curative Powers Paula A. Michaels, 2012-03-19 Finalist PEN Center USA Literary Awards Research Nonfiction Rich in oil and strategically located between Russia and China Kazakhstan is one of the most economically and geopolitically important of the so called Newly Independent States that emerged after the USSR's collapse Yet little is known in the West about the region's turbulent history under Soviet rule particularly how the regime asserted colonial dominion over the Kazakhs and other ethnic minorities Grappling directly with the issue of Soviet colonialism *Curative Powers* offers an in depth exploration of this dramatic bloody and transformative era in Kazakhstan's history Paula Michaels reconstructs the Soviet government's use of medical and public health policies to change the society politics and culture of its outlying regions At first glance the Soviets drive to modernize medicine in Kazakhstan seems an altruistic effort to improve quality of life Yet as Michaels reveals beneath the surface lies a story of power legitimacy and control The Communist regime used biomedicine to reshape the function self perception and practices of both doctors and patients just as it did through education the arts the military the family and other institutions Paying particular attention to the Kazakhs ethnomedical customs Soviet authorities designed public health initiatives to teach the local populace that their traditional medical practices were backward even dangerous and that they themselves were dirty and diseased Through poster art

newsreels public speeches and other forms of propaganda Communist authorities used the power of language to demonstrate Soviet might and undermine the power of local ethnomedical practitioners while moving the region toward what the Soviet state defined as civilization and political enlightenment As Michaels demonstrates Kazakhs responded in unexpected ways to the institutionalization of this new pan Soviet culture Ethnomedical customs surreptitiously lived on despite direct sometimes violent attacks by state authorities While Communist officials hoped to exterminate all remnants of traditional healing practices Michaels points to evidence that suggests the Kazakhs continued to rely on ethnomedicine even as they were utilizing the services of biomedical doctors nurses and midwives The picture that ultimately emerges is much different from what the Soviets must have imagined The disparate medical systems were not in open conflict but instead both indigenous and alien practices worked side by side becoming integrated into daily life Combining colonial and postcolonial theory with intensive archival and ethnographic research Curative Powers offers a detailed view of Soviet medical initiatives and their underlying political and social implications and impact on Kazakh society Michaels also endeavors to link biomedical policies and practices to broader questions of pan Soviet identity formation and colonial control in the non Russian periphery
