Keel Kissing Bottom:

Keel Kissing Bottom Elizabeth De Freitas, 1998 With a writing style reminiscent of Annie Proulx Susan Swan and Tom Robbins Elizabeth de Freitas is a truly beguiling writer with a sharp nose for the absurd and a gift for lush lyrical prose Darkly humorous Keel Kissing Bottom is a quirky and magical tale of the desperate ways in which we all attempt to subvert the laws of love

Deleuze and Guattari, Politics and Education Matthew Carlin, Jason Wallin, 2014-05-22 Deleuze Guattari Politics and Education mobilizes Deleuzian Guattarian philosophy as a revolutionary alternative to the lingering forms of transcendence identity politics and nihilism endemic to Western thought Operationalizing Deleuze and Guattari's challenge to contemporary philosophy this book presents their view as a revolutionary alternative to the lingering forms of transcendence identity politics and nihilism endemic to the current state of Western formal education This book offers an experimental approach to theorizing creating an entirely new way for educational theorists to approach their work as the task of revolutionizing life itself Examining new conceptual resources for grappling with and mapping a sustainable political alternative to the clichés that saturate contemporary educational theory this collection of essays works toward extracting a genuine image of education and learning that exists in sharp contrast to both the neo liberal educational project and the critical pedagogical tradition

Fiction as Research Practice Patricia Leavy, 2016-06-16 The turn to fiction as a social research practice is a natural extension of what many researchers and writers have long been doing Patricia Leavy a widely published qualitative researcher and a novelist explores the overlaps and intersections between these two ways of understanding and describing human experience She demonstrates the validity of literary experimentation to the qualitative researcher and how to incorporate these practices into research projects Five short stories and excerpts from novellas and novels show these methods in action This book is an essential methodological introduction for those interested in studying or practicing arts based research

Quill & Quire, 1998 *Cartographies of Becoming in Education* Diana Masny, 2013-04-20 Cartographies of becoming in education A Deleuze Guattari Perspective proposes a non hierarchical approach that maps teaching and learning with the power of affect and what a body can do become in different educational contexts Teaching and learning is an encounter with the unknown and happens as specific responses to particular problems encountered with in life In this edited volume international scholars map out potential ruptures in teaching and learning in order to conceptualize education differently One way is through the multidisciplinary lens of MLT Multiple Literacies Theory in which reading is intensive and immanent The authors deploy different aspects of MLT while creating and experimenting with ethnology teaching learning curriculum teacher education and technology in relation to visual arts music mathematics theatre workplace literacy second language education and architecture With the forces of globalization digital media and economic re structuring reconfiguring the social political and economic landscape societies require innovative ways of thinking about education Cartographies of becoming in education A Deleuze Guattari Perspective is a response to problems

posed by such forces The problematic surrounding Deleuze Guattari and education continues to grow Diana Masny s scholarship in this area is well known and appreciated through her many essays and books that develop MLT Multiple Literacies Theory Cartographies of Becoming in Education A Deleuze Guattari Perspective continues her effort to broaden the notion of education and show its intersections with MLT The series of essays do this by forming a number of entries five to be precise politicizing education affect and education literacies and becoming teacher becomings and deterritorializing boundaries Each entry explores the way an MLT inflected orientation enables us to further grasp the creative inventiveness of the Deleuze Guattarian tool kit that can be applied to areas of music education ethnography art drama literacy mathematics landscape ecology ethology and teacher education It is a vivid illustration of the cartography that maps the rhizomatic movements that are taking place by international scholars who are deterritorializing education as a discipline of modernity I highly recommend this collection of essays to those of us who are continually asking how might education be rethought through the unthought It opens up new territories Jan Jagodzinski University of Alberta Author of Psychoanalyzing Cinema
