Stepping Away Lisa Jasinski, 2023-07-14 In no other professional field do senior leaders habitually return to the rank and file workforce in the twilight of their careers Corporate CEOs rarely conclude their working lives by resuming the duties of a mid level account executive on the verge of retirement four star generals do not return to the infantry But in academia former senior leaders often conclude their careers by reprising the roles and responsibilities of a professor Until now leaders and institutions have been left to navigate these transitions on their own often learning hard lessons that might have been avoided *Stepping Away* moves beyond the well worn clichés of stepping down to examine how senior leadership role changes impact individuals and the institutions they serve Drawn from empirical research involving more than fifty college presidents provosts and deans this book delivers fresh understanding of the challenges and opportunities leaders face as they assume a new place in the social architecture of their campus Bridging the gap between theory and practice *Stepping Away* translates research into practical strategies that leaders can use to make this change successfully providing guidance about when to speak up and when to remain quiet how to develop new relationships where to office whether to apply for new jobs and how to use their knowledge and skills to add value to their campus communities on campus and off **A Larger Sense of**

Purpose Harold T. Shapiro, 2009-02-09 Universities were once largely insular institutions whose purview extended no further than the campus gates Not anymore Today's universities have evolved into multifaceted organizations with complex connections to government business and the community This thought provoking book by Harold Shapiro former president of

both Princeton University and the University of Michigan and Chairman of the National Bioethics Advisory Commission under President Bill Clinton explores the role the modern university should play as an ethical force and societal steward Based on the 2003 Clark Kerr lectures *A Larger Sense of Purpose* draws from Shapiro's twenty five years of experience leading major research universities and takes up key topics of debate in higher education What are the nature and objectives of a liberal education How should universities address the increasing commercialization not only of intercollegiate sports but of education and research What are the university's responsibilities for the moral education of students The book begins with an expanded history of the modern research institution followed by essays on ethics the academic curriculum the differences between private and public higher education the future of intellectual property rights and the changing relationship between the nation's universities and the for profit sector Shapiro calls for universities to be more accountable morally as well as academically He urges scientists not only to educate others about the potential and limitations of science but also to acknowledge the public's distress over the challenges presented by the very success of the scientific enterprise He advocates for a more intimate connection between professional training and the liberal arts in the hope that future doctors lawyers and business executives will be educated in ethics and the social sciences as well as they are in anatomy torts and leveraged buyouts Candid timely and provocative *A Larger Sense of Purpose* demands the attention of not only those in academics but of anyone who shares an interest in the soul of education *The Caring Heirs of Doctor Samuel Bard* Peter
