Shadow Medicine John S. Haller, Jr.,2014-07-08 Can Evidence Based Medicine EBM and Complementary and Alternative Medicine CAM find common ground A distinguished historian of medicine John S Haller Jr explores the epistemological foundations of EBM and the challenges these conceptual tools present for both conventional and alternative therapies As he explores a possible reconciliation between their conflicting approaches Haller maintains a healthy scientific skepticism yet finds promise in select complementary and alternative CAM therapies Haller elucidates recent research on the placebo effect and shows how a new engagement between EBM and CAM might lead to a more productive medical practice that includes both the objectivity of evidence based medicine and the subjective truth of the physician patient relationship Haller s book tours key topics in the standoff between EBM and CAM how and why the double blinded randomized clinical trial RCT came to be considered the gold standard in modern medicine the challenge of postmodern medicine as it counters the positivism of evidence based medicine and the politics of modern CAM and the rise of the National Center for Complementary and Alternative Medicine He conducts an in depth case study of homeopathy explaining why it has emerged as a poster child for CAM and assesses CAM s popularity despite its poor performance in clinical trials Haller concludes with hope showing how new experimental protocols might tease out the evidentiary basis for the placebo effect and establish a

foundation for some reconciliation between EBM and CAM

Arzneifindung in der Homöopathie Christian Lucae, 2020-11-30. Kent Bönninghausen und Boger ziehen zu den Klassikern der Homöopathie. In seinem neuen Buch hat Christian Lucae die Theorien dieser drei Protagonisten als Grundlage für die Arzneifindung in der Homöopathie gewählt. Anhand ihrer Methoden zur Repertorisierung erklärt der Autor, wie sowohl noch ungeübte als auch bereits erfahrenere Homöopathen bei der Arzneimittelfindung vorgehen können. Eine Besonderheit der vorliegenden Einführung ist das Experiment originale Kasuistiken der drei historischen Personen heranzuziehen, um deren Vorgehensweise zu erläutern. Ergänzt wird die Darstellung durch zeitgenössische Kasuistiken aus der Praxis des Autors. Wer sich über die vorliegende Einführung den Werken von Kent Bönninghausen und Boger nähert und deren Anwendung verstanden hat, verfügt über eine gute Basis und wird im Alltag einer homöopathischen Arztpraxis gut zurechtkommen. Im Anhang des Buches findet sich die englische Originalfassung der letzten von Boger selbst redigierten Auflage des Minirepertoriums General Analysis, das seit den 1930er Jahren vergriffen war. *The Consumer's Guide to Homeopathy* Dana Ullman, 1995.
