anyone wanting to know more about Sufism      Gender and Medieval Mysticism from India to Europe Alexandra Verini, Abir Bazaz, 2023-09-29 This book opens up a dialogue between pre modern women identified as mystics in diverse locations from South Asia to Europe It considers how women from the disparate religious traditions of Hinduism Islam and Christianity expressed devotion in parallel ways The argument is that women s mysticism demands to be compared not because of any essential female experience of the divine but because the parallel positions of marginalization that pre modern women experienced led them to deploy intimate encounters with the divine to speak publicly and claim authority The topics covered range from the Sufi devotional tradition of Sidis Indians of African ancestry to the Bhakti poet M r ba and the nuns of Barking Abbey Collectively the chapters show how mysticism allowed premodern women to speak and act by unsettling traditional gender roles and expectations for religious behavior At the same time as uncovering connections the juxtaposition of women from different traditions serves to highlight distinctive features The book draws on a range of disciplinary expertise and will be of particular interest to scholars of medieval religion and theology as well as history and literary studies      *The Safavid World* Rudi Matthee, 2021-07-21 The Safavid World brings together thirty chapters on many aspects of the complex Safavid state 1501 1722 With the latest insights and arguments some offer overviews of the period or topic at hand and others present new interpretations of old questions based on newly found sources In addition to political history and religious life the chapters in this volume cover economic conditions commercial links and activities social relations and artistic expressions They do so in ways that stretch both the temporal and geographical perimeters of the subject and contributors also examine Safavid Iran with an eye to both its Mongol and Timurid antecedents and its long afterlife following the fall of the dynasty Unlike traditional scholarship which tended to view the country as unique sui generis and barely affected by the outside world The Safavid World situates Iran in a wider regional or global context Examining the Safavids from their foundations in the fourteenth century to their relations with the rest of the world in the eighteenth century this study is essential reading for undergraduates postgraduates and scholars of the Safavid world and the history and culture of Iran and the Middle East
