,1910 *The Railway Preservation Revolution* Jonathan Brown,2017-06-30 A ride on a steam train is a popular family outing More than 100 heritage railways cater for that demand capturing the spirit of nostalgia while preserving the engines and equipment of past days of rail travel Their interests even extend to the modern era of 1960 s 70 s diesels Those heritage railways themselves have a long pedigree back to 1951 when a group of enthusiasts saved the Talyllyn Railway in mid Wales from closure They ran this railway as volunteers out of their love of the little trains and a desire to keep it going Their example was followed by many more preservation societies who preserved and restored branch lines country lines and industrial lines for our enjoyment now Six decades have passed and we are now beginning to realize what an impressive history the heritage railway movement has This book traces that history from the humble beginnings the hopes and ambitions of the pioneers on the different railway projects There were times of failure and frustration as some fell by the wayside but others have made it through times of adversity to become the major heritage businesses of today **Narrow Gauge in the Arras Sector** Joan S. Farebrother,Martin J. B. Farebrother,2015-11-30 The Arras sector of the Western Front in World War I WW1 was held partly by the British and Dominions 1st Army from September 1915 and almost wholly by the 1st and 3rd Armies from March 1916 No less than in the Ypres sector to the north and the Somme sector to the south the struggles of the French and then British troops in this sector were pivotal to the outcome of the War The sector included countryside in the south but in the north a major part of the industrial and coal mining area of northern France around Lens and Bthune In this book the contribution of metre and 60 cm gauge railways to the Allied war effort in this sector is examined in the context of the history of the metre gauge lines already established The build up of light 60 cm gauge lines from 1916 is examined in detail area by area and the contribution of the related metre gauge lines is reassessed from British and French sources After the War the role of these railways in the reconstruction and recovery of this devastated region of France is described Later the surviving part of the 60 cm gauge network served the sugar beet industry east of Arras The history is followed through another World War to the closure of the last of these railways in 1957 The book refers to previous works on British War Department light railways in WW1 but contains sufficient general information for readers new to the subject It also describes how to find key locations now and how and where rolling stock can be seen Six walks and an urban tour are included for those who wish to explore the territory in greater depth **Images of Industrial and Narrow Gauge Railways - Devon** Maurice Dart,2010-02-02 *Railway Journal ...* ,1908 **Lost Railways of the World** Nigel Welbourn,2023-02-16 Many readers will be familiar with Nigel Welbourn s long running series of books covering lost railways in Britain and Ireland This new book *Lost Railways of the World* is the latest by this author on the subject of disused railways The material for this volume has been collected and researched over a period of almost fifty years of world travel by the author Informative text records the fortunes of the world s lost railways and every country with significant disused railways is included Lost railways are a unifying theme being found throughout the world from the hottest African desert to the coldest steppes of Russia The

book has a surprisingly British flavor as historically many railways throughout the world used British equipment and operating practices On his first trip in the 1970s the author discovered British signaling equipment in Europe In 2020 he discovered the same firms equipment in South America The world s top ten lost lines are listed from the seven mile long sea bridge on a line that ran through the Florida Keys to the rugged mountain splendor of the Khyber Pass Railway Some of the oldest largest longest most northerly southerly expensive crookedest steepest highest lowest and most notorious lost railways are included Quirky and other unique tales from lost railways are included such as the disappearing phantom bridge a line destroyed by molten lava to one that sank under the sea another that conveyed giant turtles to a memorial to a brave railway elephant The author also visited remote areas of Argentina and provides more information on the mysterious disappearance of the ex Lynton Barnstaple Railway locomotive Lew A large number of the 300 color illustrations have not been published before maps and stories from around the world will delight not only the railway enthusiast but appeal to a wider cadre of readers with an interest in nostalgia history geography and travel To some the book will be an informative source of information to others it is written in a way that highlights the most amazing lost railways in the world but either way it is a fascinating and unique book

British Industrial Steam Locomotives David Mather,2020-09-30 A pictorial history of the many producers of industrial steam locomotives in Great Britain from the early nineteenth century to the mid twentieth century The first steam locomotives used on any British railway worked in industry The use of new and second hand former main line locomotives was once a widespread aspect of the railways of Britain This volume covers many of the once numerous manufacturers who constructed steam locomotives for industry and contractors from the nineteenth to the mid twentieth centuries David Mather has spent many years researching and collecting photographs across Britain of most of the different locomotive types that once worked in industry This book is designed to be both a record of these various manufacturers and a useful guide to those researching and modelling industrial steam Praise for *British Industrial Steam Locomotives* A good introduction hopefully it will encourage some of those who have only been involved during the preservation period to take a wider interest in the historical aspects of the subject Industrial Locomotive Society **Railway Journal** E. C. Cook,1910
