Inferno Max Hastings,2011-11-01 From one of our finest military historians a monumental work that shows us at once the truly global reach of World War II and its deeply personal consequences World War II involved tens of millions of soldiers and cost sixty million lives an average of twenty seven thousand a day For thirty five years Max Hastings has researched and written about different aspects of the war Now for the first time he gives us a magnificent single volume history of the entire war Through his strikingly detailed stories of everyday people of soldiers sailors and airmen British housewives and Indian peasants SS killers and the citizens of Leningrad some of whom resorted to cannibalism during the two year siege Japanese suicide pilots and American carrier crews Hastings provides a singularly intimate portrait of the world at war He simultaneously traces the major developments Hitler's refusal to retreat from the Soviet Union until it was too late Stalin's ruthlessness in using his greater population to wear down the German army Churchill's leadership in the dark days of 1940 and 1941 Roosevelt's steady hand before and after the United States entered the war and puts them in real human context Hastings also illuminates some of the darker and less explored regions under the war's penumbra including the conflict between the Soviet Union and Finland during which the Finns fiercely and surprisingly resisted Stalin's invading Red Army and the Bengal famine in 1943 and 1944 when at least one million people died in what turned out to be in Nehru's words the final epitaph of British rule in India Remarkably informed and wide ranging *Inferno* is both elegantly written and cogently argued Above all it is a new and essential understanding of one of the greatest and bloodiest events of the twentieth century
