Edelman David Clark Cabeen,1947 *The Evolution of the French Novel, 1641-1782* Elaine Showalter,2016-04-19 In France between 1641 and 1782 the romance developed into the novel Mr Showalter s intensive study of the novel particularly during the critical period 1700 1720 shows that an important movement toward nineteenth century realism was taking place To trace this development the author has selected five phenomena time space names money and the narrator and follows their treatment throughout the period to show why romance tended toward the novel To show the working out of these ideas there is a detailed analysis of one novel Robert Challe s Les Illustres Francoises which can be precisely located in the chain of literary

influence Its central theme of the individual in conflict with society was well suited to the forms available to the eighteenth century novelist Consequently it appears repeatedly in important novels of the period showing that the evolutionary process worked to some degree even on subject matter Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Disenchantment, Skepticism, and the Early Modern Novel in Spain and France Ann T. Delehanty, 2022-12-16 This volume examines five early modern novels from the seventeenth century in Spain and France as examples of literature as a form of skeptical inquiry Cervantes's *Don Quijote*, Zayas's *Desengaños amorosos*, Scarron's *Roman comique*, Cyrano de Bergerac's *L'Autre Monde*, and Mme de Lafayette's *Zayde* These early modern novels encourage readers to take a critical stance toward accepted beliefs through content that stages multiple encounters with the shockingly unfamiliar as well as through experiments in literary form especially the interpolated story At its broadest reach this study asserts the fundamental value of literature as a means of encouraging discernment recognizing the illusory and honing critical acuity In terms of the particularity of the historical moment the volume also identifies the early modern novel as uniquely able to represent the conflicting value spheres of early modernity because of its ability to present multiple voices and its fascination with conflicting vantage points Due to its interdisciplinary nature *Disenchantment Skepticism and the Early Modern Novel in Spain and France* appeals to literary scholars and intellectual historians of the early modern period in Europe as well as to advanced undergraduates and postgraduates studying the early novel intellectual history and philosophy of literature
