## **Influences On Computer Use In General Practice:**

**Use and Impact of Computers in Clinical Medicine** James G. Anderson, Stephen J. Jay, 2012-12-06 Computer technology has impacted the practice of medicine in dramatic ways Imaging techniques provide noninvasive tools which alter the diagnostic process Sophisticated monitoring equipment presents new levels of detail for both patient management and research In most of these high technology applications the computer is embedded in the device its presence is transparent to the user There is also a growing number of applications in which the health care provider directly interacts with a computer In many cases these applications are limited to administrative functions e g office practice management location of hospital patients appointments and scheduling Nevertheless there also are instances of patient care functions such as results reporting decision support surveillance and reminders This series **Computers and Medicine** focuses upon the direct use of information systems as it relates to the medical community After twenty five years of experimentation and experience there are many tested applications which can be implemented economically using the current generation of computers Moreover the falling cost of computers suggests that there will be even more extensive use in the near future Yet there is a gap between current practice and the state of the art

## **Social Influences on Information and Communication**

**Technology Innovations** Tatnall, Arthur, 2012-05-31 It has been over twenty years since developments in actor network theory were first written on paper Since then the Information and Communication Technologies ICT community has begun to discover the power of using actor network theory as an explanatory framework for much of its research This research community has come to an understanding that information systems are of necessity socio technical in nature and require a socio technical approach to their investigation Thanks to developments in actor network theory researchers can now approach people and technology as one single entity that gives support to social influences on technological innovations **Social Influences on Information and Communication Technology Innovations** discusses in great detail the use of actor network theory in offering explanations for socio technical phenomena focusing greatly on information communication technologies Implementation and use of information and communication technologies inevitably involves the interactions of both technology and people This publication facilitates international growth in the body of research investigating the value of using actor network theory as a means of understanding socio technical phenomena and technological innovation
