Information Modelling and Knowledge Bases: Principles and formal techniques, 1990 **Intelligent Information Processing and Web Mining** Mięczysław A. Kłopotek, Sławomir T. Wierzchoń, Krzysztof Trojanowski, 2013-06-05 This volume contains articles accepted for presentation during The Intelligent Information Processing and Web Mining Conference IIS IIPWM 03 which was held in Zakopane Poland on June 2 5 2003 This conference extends a series of 12 successful symposia on Intelligent Information Systems organized by the Institute of Computer Science of Polish Academy of Sciences devoted to new trends in broadly understood Artificial Intelligence The idea of organizing such meetings dates back to 1992 Our main intention guided the first rather small audience workshop in the series was to resume the results gained in Polish scientific centers as well as contrast them with the research performed by Polish scientists working at the universities in Europe and USA and their foreign collaborators This idea proved to be attractive enough that we decided to continue such meetings As the years went by the workshops have transformed into regular symposia devoted to such fields like Machine Learning Knowledge Discovery Natural Language Processing Knowledge Based Systems and Reasoning and Soft Computing i e Fuzzy and Rough Sets Bayesian Networks Neural Networks and Evolutionary Algorithms At present about 50 papers prepared by researchers from Poland and other countries are usually presented This year conference is an attempt to draw a much broader international audience on the one hand and to devote much more attention to the newest developments in the area of Artificial Intelligence Therefore special calls for contributions on artificial immune systems and search engines

Information Modelling and Knowledge Bases XVII J. Henno, 2006-02-06 The number of abstraction levels of information the size of databases and knowledge bases and the amount and complexity of information stored in WWW are continuously growing The aim of this series of Information Modelling and Knowledge Bases is to bring together experts from different areas who have a common interest in understanding and solving problems of information modelling and knowledge bases as well as applying the results of research into practice We aim at recognizing and pursuing research on new topics in the area of information modelling and
