Information Quality

Khosrow-Pour, Mehdi

Information Quality:

   Information Quality Richard Wang,Elizabeth M. Pierce,Stuart Madnick,Craig Fisher,2014-12-18 Organizations today have access to vast stores of data that come in a wide variety of forms and may be stored in places ranging from file cabinets to databases and from library shelves to the Internet The enormous growth in the quantity of data however has brought with it growing problems with the quality of information further complicated by the struggles many organizations are experiencing as they try to improve their systems for knowledge management and organizational memory Failure to manage information properly or inaccurate data costs businesses billions of dollars each year This volume presents cutting edge research on information quality Part I seeks to understand how data can be measured and evaluated for quality Part II deals with the problem of ensuring quality while processing data into information a company can use Part III presents case studies while Part IV explores organizational issues related to information quality Part V addresses issues in information quality education   The Philosophy of Information Quality Luciano Floridi,Phyllis Illari,2014-08-01 This work fulfills the need for a conceptual and technical framework to improve understanding of Information Quality IQ and Information Quality standards The meaning and practical implementation of IQ are addressed as it is relevant to any field where there is a need to handle data and issues such as accessibility accuracy completeness currency integrity reliability timeliness usability the role of metrics and so forth are all a part of Information Quality In order to support the cross fertilization of theory and practice the latest research is presented in this book The perspectives of experts from beyond the origins of IQ in computer science are included library and information science practitioners and academics philosophers of information of engineering and technology and of science are all contributors to this volume The chapters in this volume are based on the work of a collaborative research project involving the Arts and Humanities Research Council and Google and led by Professor Luciano Floridi University of Oxford This work will be of interest to anyone handling data including those from commercial public governmental and academic organizations The expert editors contributions introduce issues of interest to scientists database curators and philosophers even though the issues may be disguised in the language and examples common to a different discipline   Information Quality Management: Theory and Applications Al-Hakim, Latif,2006-09-30 The Internet and mobile commerce bring with them ubiquitous connectivity real time access and overwhelming volumes of data and information The growth of data warehouses and communication and information technologies has increased the need for high information quality management in organizations Information Quality Management Theory and Applications provides solutions to information quality problems that are becoming increasingly prevalent Information Quality Management Theory and Applications provides insight and support for professionals and researchers working in the field of information and knowledge management information quality practitioners and managers of manufacturing and service industries concerned with the management of information   *Design Characteristics of Virtual Learning Environments* Daniel Müller,2012-10-11

The first objective of this study is to derive a multidimensional research framework simultaneously outlining and concretising particular aspects being relevant to and surrounding the elicitation and evaluation of VLE design characteristics Based on this the second objective of this study is to elicit for the first time a holistic set of well defined simultaneously detailed and operative VLE design characteristics systematically In reply to a recently articulated call for research Venkatesh Bala 2008 the third objective of this study is to evaluate for the first time the impact of the desired set of VLE design characteristics to be elicited on crucial behavioural determinants of users behavioural intention to use and actual use of a VLE in terms of the VLE success measures of this study Such an investigation may reveal further more detailed and operative knowledge about design related and behavioural drivers of users current VLE use refusal **Leveraging Generative Intelligence in Digital Libraries: Towards Human-Machine Collaboration** Dion H. Goh,Shu-Jiun Chen,Suppawong Tuarob,2023-11-29 This two volume set LNCS 14457 and LNCS 14458 constitutes the refereed proceedings of the 25th International Conference on Asia Pacific Digital Libraries ICADL 2023 held in Taipei Taiwan during December 4 7 2023 The 15 full 17 short 2 practice papers and 12 poster papers presented in this volume were carefully reviewed and selected from 85 submissions Based on significant contributions the full and short papers have been classified into the following topics include information retrieval knowledge extraction and discovery cultural and scholarly data information seeking and use digital archives and data management design and evaluation of information environments and applications of GAI in digital libraries **Cases on Performance Measurement and Productivity Improvement: Technology Integration and Maturity** Khosrow-Pour, Mehdi,2012-08-31 One of the main aspects of an organization is the efficiency of managerial concerns daily interactions and the design and implementation of its business system Therefore integrating the latest technology is vital in assisting in the performance and productivity improvement of an organization Cases on Performance Measurement and Productivity Improvement Technology Integration and Maturity highlights the successes and failures which have shaped the modern business as well as the technological solutions taken to improve the organizational system Providing essential research on these applied innovations this collection of case studies appeals to both academics and practitioners in the business and IT management fields **Clinical Research Informatics** Rachel Richesson,James Andrews,2012-02-15 The purpose of the book is to provide an overview of clinical research types activities and areas where informatics and IT could fit into various activities and business practices This book will introduce and apply informatics concepts only as they have particular relevance to clinical research settings *Software Development Measurement Programs* Miroslaw Staron,Wilhelm Meding,2018-07-13 This book seeks to promote the structured standardized and accurate use of software measurement at all levels of modern software development companies To do so it focuses on seven main aspects sound scientific foundations cost efficiency standardization value maximization flexibility combining organizational and technical aspects and seamless technology integration Further it supports companies in their journey from manual reporting to automated decision support

by combining academic research and industrial practice When scientists and engineers measure something they tend to focus on two different things Scientists focus on the ability of the measurement to quantify whatever is being measured engineers however focus on finding the right qualities of measurement given the designed system e g correctness the system s quality of use e g ease of use and the efficiency of the measurement process In this book the authors argue that both focuses are necessary and that the two are complementary Thus the book is organized as a gradual progression from theories of measurement yes you need theories to be successful to practical organizational aspects of maintaining measurement systems yes you need the practical side to understand how to be successful The authors of this book come from academia and industry where they worked together for the past twelve years They have worked with both small and large software development organizations as researchers and as measurement engineers measurement program leaders and even teachers They wrote this book to help readers define implement deploy and maintain company wide measurement programs which consist of a set of measures indicators and roles that are built around the concept of measurement systems Based on their experiences introducing over 40 000 measurement systems at over a dozen companies they share essential tips and tricks on how to do it right and how to avoid common pitfalls   Proceedings of the 3rd Lawang Sewu International Symposium on Humanities and Social Sciences 2024 (LEWIS HUSO 2024) Nurcahyono Nurcahyono,Abdul Aziz,Budi Tri Santosa,2025-07-01 This is an open access book The Third Lawang Sewu International Symposium on Humanities and Social Sciences 3rd LEWIS HUSO is an annual international symposium held by Universitas Muhammadiyah Semarang This year the symposium will take place online via Zoom on November 28 2024 in Semarang Central Java Indonesia The 3rd LEWIS HUSO is intended to provide a forum for lecturers professionals researchers and students to collaborate explore opportunities and exchange valuable insights to shape a sustainable future through cutting edge innovations and dynamic discourses in technology Studies focused on humanities and social sciences are welcome   Continuous Software Engineering Jan Bosch,2014-11-11 This book provides essential insights on the adoption of modern software engineering practices at large companies producing software intensive systems where hundreds or even thousands of engineers collaborate to deliver on new systems and new versions of already deployed ones It is based on the findings collected and lessons learned at the Software Center SC a unique collaboration between research and industry with Chalmers University of Technology Gothenburg University and Malm University as academic partners and Ericsson AB Volvo Volvo Car Corporation Saab Electronic Defense Systems Grundfos Axis Communications Jeppesen Boeing and Sony Mobile as industrial partners The 17 chapters present the Stairway to Heaven model which represents the typical evolution path companies move through as they develop and mature their software engineering capabilities The chapters describe theoretical frameworks conceptual models and most importantly the industrial experiences gained by the partner companies in applying novel software engineering techniques The book s structure consists of six parts Part I describes the model in detail and presents an overview of lessons learned in

the collaboration between industry and academia Part II deals with the first step of the Stairway to Heaven in which R D adopts agile work practices Part III of the book combines the next two phases i e continuous integration CI and continuous delivery CD as they are closely intertwined Part IV is concerned with the highest level referred to as R D as an innovation system while Part V addresses a topic that is separate from the Stairway to Heaven and yet critically important in large organizations organizational performance metrics that capture data and visualizations of the status of software assets defects and teams Lastly Part VI presents the perspectives of two of the SC partner companies The book is intended for practitioners and professionals in the software intensive systems industry providing concrete models frameworks and case studies that show the specific challenges that the partner companies encountered their approaches to overcoming them and the results Researchers will gain valuable insights on the problems faced by large software companies and on how to effectively tackle them in the context of successful cooperation projects *Handbook of Research on Education Institutions, Skills, and Jobs in the Digital Era* Ordóñez de Pablos, Patricia,Zhang, Xi,Almunawar, Mohammad Nabil,2022-09-30 The evolution of information technologies mobile devices social media and the needs of students workers and academics has experienced rapid changes in the past several years This complex and dynamic reality requires new forms of education delivery and teaching methodologies for academics Old teaching practices must be refreshed to provide customized and context adapted learning opportunities Additionally there are drivers barriers and success factors within distance and mobile learning devices and systems that need to be explored and tested The Handbook of Research on Education Institutions Skills and Jobs in the Digital Era aims to foster an international dialogue of approaches methodologies and tools for the transformation of education in the digital era and broaden the visibility of new technologies for education establish an international scientific platform for collaboration on digital education and accelerate innovation in education technology Covering critical topics such as faculty training online teaching and talent management this major reference work is ideal for government officials industry professionals policymakers researchers scholars academicians practitioners instructors and students Relational Calculus for Actionable Knowledge Michel Barès,Éloi Bossé,2022-01-21 This book focuses on one of the major challenges of the newly created scientific domain known as data science turning data into actionable knowledge in order to exploit increasing data volumes and deal with their inherent complexity Actionable knowledge has been qualitatively and intensively studied in management business and the social sciences but in computer science and engineering its connection has only recently been established to data mining and its evolution Knowledge Discovery and Data Mining KDD Data mining seeks to extract interesting patterns from data but until now the patterns discovered from data have not always been actionable for decision makers in Socio Technical Organizations STO With the evolution of the Internet and connectivity STOs have evolved into Cyber Physical and Social Systems CPSS that are known to describe our world today In such complex and dynamic environments the conventional KDD process is insufficient and additional processes are required to transform complex data

into actionable knowledge Readers are presented with advanced knowledge concepts and the analytics and information fusion AIF processes aimed at delivering actionable knowledge The authors provide an understanding of the concept of relation and its exploitation relational calculus as well as the formalization of specific dimensions of knowledge that achieve a semantic growth along the AIF processes This book serves as an important technical presentation of relational calculus and its application to processing chains in order to generate actionable knowledge It is ideal for graduate students researchers or industry professionals interested in decision science and knowledge engineering   ¡Vino! Karl J. Trybus,2023-10 Vino explores the history and identity of Spanish wine production from the mid nineteenth century to today Nineteenth century infestations of oidium fungus and phylloxera aphids devastated French and Italian vineyards but didn t extend to the Iberian Peninsula at first giving Spanish vintners the opportunity to increase their international sales Once French and Italian wineries rebounded however Spanish wine producers had to up their game Spain could not produce only table wine it needed a quality product to compete with the supposedly superior French wines After the Spanish Civil War the totalitarian Franco regime turned its attention to Spain s devastated agricultural sector but the country s wine industry did not rebound until well after World War II In the postwar years it rebranded itself to compete in a more integrated European and international marketplace with the creation of a new wine identity As European integration continued Spanish wine producers and the tourism industry worked together to promote the uniqueness of Spain and the quality of its wines Karl J Trybus explores the development of Spanish wine in the context of national and global events tracing how the wine industry has fared and ultimately prospered despite civil war regional concerns foreign problems and changing tastes   Computer and Computing Technologies in Agriculture, Volume I Daoliang Li,2008-02-26 The papers in this volume comprise the refereed proceedings of the the First International Conference on Computer and Computing Technologies in Ag culture CCTA 2007 in Wuyishan China 2007 This conference is organized by China Agricultural University Chinese Society of Agricultural Engineering and the Beijing Society for Information Technology in Agriculture The purpose of this conference is to facilitate the communication and cooperation between institutions and researchers on theories methods and implementation of computer science and information technology By researching information technology development and the sources integration in rural areas in China an innovative and effective approach is expected to be explored to promote the technology application to the development of modern agriculture and contribute to the construction of new countryside The rapid development of information technology has induced substantial changes and impact on the development of China s rural areas Western thoughts have exerted great impact on studies of Chinese information technology devel ment and it helps more Chinese and western scholars to expand their studies in this academic and application area Thus this conference with works by many prominent scholars has covered computer science and technology and information development in China s rural areas and probed into all the important issues and the newest research topics such as Agricultural Decision Support System and Expert

System GIS GPS RS and Precision Farming CT applications in Rural Area Agricultural System Simulation Evolutionary Computing etc **Spatial Accuracy Assessment in Natural Resources and Environmental Sciences** ,1996 This international symposium on theory and techniques for assessing the accuracy of spatial data and spatial analyses included more than ninety presentations by representatives from government academic and private institutions in over twenty countries throughout the world To encourage interactions across disciplines presentations in the general subject areas of spatial statistics geographic information systems remote sensing and multidisciplinary approaches were intermixed throughout the three days of sessions **Handbook of Research on Managing and Influencing Consumer Behavior** Kaufmann, Hans-Ruediger,2014-10-31 In recent years all types of businesses have increasingly focused on the importance of the relationship with the customer Customer knowledge management has become a well known term used in the business and academic worlds for understanding how to control consumer behavior The Handbook of Research on Managing and Influencing Consumer Behavior discusses the importance of understanding and implementing customer knowledge management and customer relationship management into everyday business workflows This comprehensive reference work highlights the changes that the Internet and social media have brought to consumer behavior and is of great use to marketers businesses academics students researchers and professionals Human Systems Integration to Enhance Maritime Domain Awareness for Port/harbour Security Elisa Shahbazian,Galina Rogova,2010 Proceedings of the NATO Advanced Research on Human Systems Integration to Enhance Maritime Domain Awareness for Port Harbour Security Systems Opatija Croatia 8 12 December 2008 T p verso *Intelligent Decision Technologies* Rui Neves-Silva,Lakhmi C. Jain,Robert J. Howlett,2015-06-09 This book presents the 57 papers accepted for presentation at the Seventh KES International Conference on Intelligent Decision Technologies KES IDT 2015 held in Sorrento Italy in June 2015 The conference consists of keynote talks oral and poster presentations invited sessions and workshops on the applications and theory of intelligent decision systems and related areas The conference provides an opportunity for the presentation and discussion of interesting new research results promoting knowledge transfer and the generation of new ideas The book will be of interest to all those whose work involves the development and application of intelligent decision systems *Innovative Law and Business in the Digital Era* Hashem Alshurafat,2025-07-22 This book offers a comprehensive exploration of the intersection of such critical areas of knowledge as law business and technological innovation As the digital revolution transforms industries this book provides scholars professionals and students with critical insights into how legal frameworks and business strategies can adapt to foster sustainable growth With a focus on improving financial technological and legal literacy the book explores the challenges and opportunities in the business environment that can lead to a sustainable education for future generations The book covers a wide range of topics essential to navigating the complexities of today s digital landscape from regulatory compliance in emerging technologies to sustainable business models and innovation driven

markets Written by leading experts this book offers theoretical and practical perspectives on integrating sustainability innovation and legal expertise into business practices This book is essential for readers who want to understand how law and business can work together to shape a future driven by innovation and ethical principles   *Handbook of Research on Knowledge Management for Contemporary Business Environments* Malheiro, Armando,Ribeiro, Fernanda,Leal Jamil, George,Rascao, Jose Pocas,Mealha, Oscar,2018-05-25 Information is considered essential in every business model which is why staying abreast of the latest resources can help combat many challenges and aid businesses in creating a synthesis between people and information keeping up with evolving technologies and keeping data accurate and secure The Handbook of Research on Knowledge Management for Contemporary Business Environments is a critical scholarly publication that examines the management of knowledge resources in modern business contexts Including a wide range of topics such as information systems sustainable competitive advantage and knowledge sharing this publication is a vital reference source for managers academicians researchers and students seeking current research on strategies that are able to manage the information in more than one context for present and future generations
