Information Specialist As Team Player In The Research Process New Directions In Information Management:

Local Area Networks in Information Management Harry Kibirige, 1989-04-26 Local Area Networks LANs have a high potential for alleviating many of the problems associated with stand alone microcomputers Kibirige's issue oriented study explores microcomputer networking systems with particular emphasis on LANs Although his analysis emphasizes issues from an information scientist's perspective readers who want to gain an understanding of LAN technology and its applications should find it useful Kibirige adds a unique flavor to his book by discussing the LAN as an information processing structure putting more emphasis on the utility of LANs than on the technology Kibirige argues that the LAN is an information optimization structure that allows the individual and the organization to get maximum utility from the information services and products available such as the large external databases e.g CompuServe many of the applications he discusses should be of interest to upper division library science students Choice Copyright Libri GmbH All rights reserved **The Role of the Academic Reference Librarian** Jo Bell Whitlatch, 1990-04-09 This volume examining key factors related to successful reference service practices provides librarians with an important and significantly different perspective on the reference process Author Jo Bell Whitlatch describes the major factors that need to be considered to obtain a comprehensive view of the reference process in academic libraries arguing that the understanding of the reference process can be enhanced by borrowing from current research in other disciplines that place an increasing emphasis on service organizations rather than on manufacturing organizations The book identifies major studies and theories related to how people who are served participate in organizations Further Whitlatch discusses how such studies can contribute to an understanding of the academic reference librarian's role In addition the study that constitutes a central part of **The Role of the Academic Reference Librarian** reports on the results of testing parts of a model of the reference process The material presented here is drawn from four principal sources the literature on reference service broader literature on service organizations from the disciplines of business psychology and sociology the author's professional experience and a detailed study of reference encounters in five academic libraries that assesses reference service effectiveness by focusing on the librarian's perception of the quality of service the library users perception of the quality of service and whether or not the information sought was located Included are tables and figures that graphically enhance the text For academic librarians and library researchers the volume will serve as a guide to designing studies of reference services that will add to the present understanding of the subject Graduate students in library and information science will find this handbook indispensable for the successful practice of reference services **The Alienated Librarian** Marcia J. Nauratil, 1989-07-21 **The Alienated Librarian** is a thoughtful thorough analysis of the proletarianization of professional work throughout history What this book does is to present a penetrating investigation of the problem draw thoughtful conclusions and suggest coping strategies Collection Management This excellent book should attract a wide audience including professional librarians library school faculty and students

library administrators and the consulting community It is highly recommended Information Processing Management Nauratil s analysis does help us gain an understanding of the issue just as her concluding chapter on coping and beyond may help us address the issue when we are confronted with it Wilson Library Bulletin Perhaps because of the popular stereotype of librarianship as a low pressure nonstressful profession librarians have been largely overlooked in current research on occupational burnout Yet like other human service personnel who are in continual contact with the public more and more librarians are experiencing burnout and consequent alienation in the workplace This study is the first to provide a comprehensive analysis of the problem as it exists among today s librarians Nauratil begins with an examination of the burnout phenomenon and the factors that contribute to stress and alienation in the human service professions She discusses the additional pressures resulting from the dilemmas faced by libraries including dwindling budgets theft of library materials understaffing and the demand for broader or improved services The costs associated with burnout such as reduced productivity rapid employee turnover and deterioration of services are also considered The author asks whether alienation and burnout are the inevitable consequences of the librarian s job under contemporary conditions and assesses the possible long term effects of current developments both within library systems and in the communities and institutions they serve Finally she explores various strategies for coping with this type of occupational hazard and for strengthening the library system as a whole This carefully researched and clearly written work will be a valuable resource for courses or research in librarianship occupational sociology personnel management and related subjects

Future Competencies of the Information Professional, 1991 **The Politics of Public Librarianship** David Shavit, 1986-10-16 Public librarians do not usually see themselves as politicians However as decision makers in an institutional setting affected by a variety of pressures and conflicting interests they are involved in politics in both the broad and narrow sense Moreover recent developments in the public library system have brought the librarian directly into the political sphere Professor Shavit s study the first major work on the subject in over 35 years fills a major gap in scholarship on the public library in the political process and provides a detailed survey of the political context in which the modern library functions Unions for Academic Library Support Staff James Kusack, 1986-10-21 In this first book length study of collective bargaining by library support staff employees Professor Kusack addresses issues that will help to determine the future of the nation s academic libraries He begins by discussing current trends and the history of collective bargaining in university libraries The collective bargaining literature dealing with white collar and clerical employees is reviewed and implications for libraries especially possible changes in compensation levels and shifts in productivity are considered The results of a comparative study of more than 200 university libraries with and without staff unions are presented in detail The analysis provides information on how unionization affects compensation patterns selected employment policies and practices and personnel and budget characteristics and it examines the relationships between environment variables including the type of institutional control and the level of unionization in the

state and region Finally the author summarizes the results and possible implications of this and other research and suggests techniques and areas for study that might prove productive **Bulletin of the Medical Library Association** Medical Library Association,1986 Management Theory and Library Education. Sajjad ur Rehman,1987-05-14 From the expanding classical horizons of Mahler Satie and Debussy to the revolutions in electronic music inaugurated by Stockhausen and Cage from the Indian influenced minimalism of Phillip Glass and Terry Riley to the unlocking sound worlds of Brian Eno and Arvo Part through the epoch defining music of rock maestros The Beatles and Jimi Hendrix to the pure electronic creations of Kraftwerk Goldie and Trance this drift through technology Minimalism the rock era and Techno is earthed by the development in Ambient Sound to the author the most important breakthrough in music of the past one hundred years

Viden i spil Helene Høytrup,2012 **Reference Quarterly** ,1985 **New Directions in management on the Bighorn, Shoshone & Bridger-Teton National Forests** ,1983 **Bibliographic Index** ,1987 **Libraries in Prisons** William Coyle,1987-03-23 This is the first book length study of prison libraries to provide a comprehensive overview of their history and to analyze their development in terms of the goals of correctional agencies and the values and traditions of librarianship The author s introduction points out that in recent years new considerations have made it more difficult to clearly determine the value and purpose of prison libraries with respect to both the inmates who use them and the institutions of which they are a part A heightened sense of professional consciousness in the library profession expanded awareness of the uses of libraries and changes in the laws and politics of criminal justice have all contributed to new ways of thinking about prison libraries and have made a seemingly once simple matter complex *A New Path* Roland Person,1988-04-27 Roland Person s *A New Path* is a fine comprehensive study of such libraries based on an examination of the perceptions of those involved in their operation management and administration Person does an outstanding job summarizing the history and the literature of undergraduate libraries and of blending all of that material into a skillfully synthesized examination of the undergraduate library in the United States and Canada from 1949 through 1987 *Wilson Library Bulletin* Because of the work s broad scope all individuals involved in higher education will find much of value in this new volume Richard Johnson SUNY Oneonta This is the first full length study of university undergraduate libraries to appear since the late 1960s It is a comprehensive description and evaluation of both the contextual role of present undergraduate libraries and the goals upon which they were founded and continue to operate Person has provided an exhaustive analysis of the subject by clearly defining undergraduate libraries identifying the reasons for which they were established evaluating the assumptions that precipitated their inception and describing the development of those that failed and those that succeeded

Circulation Policy in Academic, Public, and School Libraries Sheila S. Intner,1987-03-23 Intner conducted a survey of academic public and school libraries in order to study circulation policies and practices prevalent in the U S From the data she gathered it is evident that much in the circulation process is not patron oriented and that there are still institutions that

make access to information difficult She intimates that if library patrons were aware of the power they have they could effect drastic changes in circulation practices The book is of interest to all who use libraries but it is particularly pertinent reading for administrators Booklist This informative study is based on the responses of a sampling of academic public and school libraries to a survey conducted in 1983 The selection was made with a deliberate effort to include libraries of varying size focus and geographic area around the country and three vitally important policy issues were emphasized Who may borrow materials from the library What may they borrow How are materials borrowed and what process is followed when they are returned The answers provided by the sample group to these and other questions are described and analyzed and comparisons are made of the ways in each library formulates reviews and amends its policies and which plans are being made for the future

Subject Access to Visual Resources Collections Karen Markey, 1986-10-21 Searching through a resource collection for a particular type of visual image yields little more than frustration if the user lacks the knowledge of the specialized concepts that are the key to the collection's system of classification With Karen Markey's innovative approach to subject searching however users will be able to translate an inquiry for a particular type of visual image into the appropriate symbolic theme or concept and will easily access any type of visual resource collection Based on Erwin Panofsky's work on meaning in the visual arts and the author's study of users of iconographical research collections this volume offers a step by step method of describing subject content in visual images Markey's model will enable museums libraries and art galleries to upgrade their services significantly
