## **Ineffability And Philosophy:**

Ineffability Ben-Ami Scharfstein,1993-03-18 Scharfstein describes the extraordinary powers that have been attributed to language everywhere and then looks at ineffability as it has appeared in the thought of the great philosophical cultures India China Japan and the West He argues that there is something of our prosaic everyday difficulty with words in the ineffable reality of the philosophers and theologians just as there is something unformulable and finally mysterious in the prosaic everyday successes and failures of words *Ineffability and Philosophy* André Kukla,2004-08-02 This book asks whether the notion of there being a truth or a state of affairs or knowledge that can t be expressed linguistically is a coherent notion

*Ineffability and its Metaphysics* Silvia Jonas,2016-01-09 This book offers an analytically rigorous and systematic discussion of possible ways of making metaphysical sense of ineffability Silvia Jonas defends the idea that ineffable insights as found in aesthetic religious and philosophical contexts are best understood in terms of self acquaintance a particular kind of non propositional knowledge Mysticism, Ineffability and Silence in Philosophy of Religion Laura E. Weed,2023-01-13 The authors in this volume explore a wide variety of the contemporary approaches to mystical and religious experience to elucidate what religious experience is in its own terms and how its practitioners understand it This anthology features contributions that point out that contemporary studies of consciousness sociology hermeneutics neuroscience medicine and other fields are revealing that there is much more to be said for the inner life of a human s consciousness than reductionists and behaviorists will allow This book is one of very few that primarily takes the stance of academic practitioners explaining their own experience rather than that of academics trying to explain the phenomena away as really politics or sociology or delusion or psychological pathology or literary flights of fancy or an aberration of any of the other academic fields Most of the authors in this volume embrace the task of explaining and analyzing religious experience mysticism and the healing power of silence and presence using the resources of all of the academic disciplines as appropriate The essays contained analyze religious and non religious mystical and profoundly personal experiences across several world religions and in areas such as art and music as well as in solving personal crises such as family disruption and patriarchal oppression The authors address the subject matter through analyses of the frequent and destructive failures of language or just noise to capture or express the nuances of the inner life of a person It is this very ineffability of self that renders the spiritual emotional and interior life of individuals beyond cognition and perception of the straightforward sorts embraced by most cognitive disciplines The contributors come from a variety of cross disciplinary fields to bring forth the possibilities for an intuitive and creative rich and growing inner life for a human This text appeals to students researchers and practitioners Ineffability: An Exercise in Comparative Philosophy of Religion Timothy D. Knepper,Leah E. Kalmanson,2017-11-24 This collection of essays is an exercise in comparative philosophy of religion that explores the different ways in which humans express the inexpressible It brings together scholars of over a dozen religious literary and artistic traditions as part of The Comparison

Project's 2013-15 lecture and dialogue series on religion beyond words. Specialist scholars first detailed the grammars of ineffability in nine different religious traditions as well as the adjacent fields of literature, poetry, music, and art. The Comparison Project's directors then compared this diverse set of phenomena, offering explanations for their patterning and raising philosophical questions of truth and value about religious ineffability in comparative perspective. This book is the inaugural publication of The Comparison Project, an innovative new approach to the philosophy of religion housed at Drake University, Des Moines, Iowa, USA. The Comparison Project organizes a biennial series of scholar-lectures, practitioner dialogues, and comparative panels about core cross-cultural topics in the philosophy of religion. Specialist scholars of religion first explore this topic in their religions of expertise; comparativist philosophers of religion then raise questions of meaning, truth, and value about this topic in comparative perspective. The Comparison Project stands apart from traditional approaches to the philosophy of religion in its commitment to religious inclusivity. It is the future of the philosophy of religion in a diverse global world.

**Ineffability and its Metaphysics** Silvia Jonas, 2016-01-08. This book offers an analytically rigorous and systematic discussion of possible ways of making metaphysical sense of ineffability. Silvia Jonas defends the idea that ineffable insights as found in aesthetic, religious, and philosophical contexts are best understood in terms of self-acquaintance, a particular kind of non-propositional knowledge.

*Ineffability and Religious Experience* Guy Bennett-Hunter, 2015-10-06. Ineffability, that which cannot be explained in words, lies at the heart of the Christian mystical tradition. This is the first book to engage with the concept of ineffability within contemporary philosophy of religion and provides a starting point for further scholarly debate.

*Nothingness in Asian Philosophy* Jeeloo Liu, Douglas Berger, 2014-06-13. A variety of crucial and still most relevant ideas about nothingness or emptiness have gained profound philosophical prominence in the history and development of a number of South and East Asian traditions, including in Buddhism, Daoism, Neo-Confucianism, Hinduism, Korean philosophy, and the Japanese Kyoto School. These traditions share the insight that in order to explain both the great mysteries and mundane facts about our experience, ideas of nothingness must play a primary role. This collection of essays brings together the work of twenty of the world's prominent scholars of Hindu, Buddhist, Daoist, Neo-Confucian, Japanese, and Korean thought to illuminate fascinating philosophical conceptualizations of nothingness in both classical and modern Asian traditions. The unique collection offers new work from accomplished scholars and provides a coherent panoramic view of the most significant ways that nothingness plays crucial roles in Asian philosophy. It includes both traditional and contemporary formulations, sometimes putting Asian traditions into dialogue with one another and sometimes with classical and modern Western thought. The result is a book of immense value for students and researchers in Asian and comparative philosophy. Chapter 20 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license.

**The Question of Methodological Naturalism** Jason N. Blum, 2018-09-11. The

traditions and institutions that we call religions abound with references to the supernatural ancestral spirits karma the afterlife miracles revelation deities etc How are students of religion to approach the behaviors doctrines and beliefs that refer to such phenomena which by their very nature are supposed to defy the methods of empirical research and the theories of historical scholarship That is the question of methodological naturalism The Question of Methodological Naturalism offers ten thoughtful engagements with that perennial question for the academic study of religion Contributors include established senior scholars and newer voices propounding a range of perspectives resulting in both surprising points of convergence and irreconcilable differences in how our shared discipline should be conceptualized and practiced **The Duplicity of**

**Philosophy's Shadow** Elliot R. Wolfson, 2018-04-24 Martin Heidegger 1889 1976 is considered one of the most influential philosophers of the twentieth century in spite of his well known transgressions his complicity with National Socialism and his inability to show remorse or compassion for its victims In *The Duplicity of Philosophy's Shadow* Elliot R Wolfson intervenes in a debate that has seen much attention in scholarly and popular media from a unique perspective as a scholar of Jewish mysticism and philosophy who has been profoundly influenced by Heidegger's work Wolfson sets out to probe Heidegger's writings to expose what remains unthought In spite of Heidegger's explicit anti-Semitic statements Wolfson reveals some crucial aspects of his thinking including criticism of the biological racism and militant apocalypticism of Nazism that betray an affinity with dimensions of Jewish thought the triangulation of the concepts of homeland language and peoplehood Jewish messianism and the notion of historical time as the return of the same that is always different inclusion exclusion and the status of the other the problem of evil in kabbalistic symbolism Using Heidegger's own methods Wolfson reflects on the inextricable link of truth and untruth and investigates the matter of silence and the limits of speech He challenges the tendency to bifurcate the relationship of the political and the philosophical in Heidegger's thought but parts company with those who write off Heidegger as a Nazi ideologue Ultimately *The Duplicity of Philosophy's Shadow* argues the greatness and relevance of Heidegger's work is that he presents us with the opportunity to think the unthinkable as part of our communal destiny as historical beings *The Cloud of Nothingness* C. D. Sebastian, 2016-11-14 This book explores nothingness the

negative way found in Buddhist and Christian traditions with a focused and comparative approach It examines the works of Nagarjuna c 150 CE a Buddhist monk philosopher and one of the greatest thinkers of classical India and those of John of the Cross 1542 1591 a Carmelite monk outstanding Spanish poet and one of the greatest mystical theologians The conception of nothingness in both the thinkers points to a paradox of linguistic transcendence and provides a novel insight into *via negativa* This is the first full length work comparing nothingness emptiness in Nagarjuna Mahayana Buddhism and John of the Cross Christianity in any language It augments the comparative approach found in Buddhist Christian comparative philosophy and theology This book is of especial interest to academics of Buddhist and Christian studies searching for avenues for intellectual dialogue **Quining and Unquining Qualia** John Moses A. Chua, 2024-11-06 Quining and Unquining Qualia

critically examines Daniel Dennett's claim that qualia our subjective sensations are illusions that should be dismissed from consciousness studies. The book introduces the epistemic distance hypothesis proposing that qualia are essential aspects of consciousness but lie beyond the reach of current scientific methods. It further argues that qualia distinguish human experience from artificial intelligence, challenging their elimination. Aimed at philosophers of mind, cognitive scientists, psychologists, and AI researchers, this book is also a valuable resource for undergraduate, graduate, and postgraduate philosophy students. It offers fresh insights into the debate on consciousness, the limits of science, and the human-AI divide, making it a key text for those exploring these philosophical challenges. *Language and the Ineffable* Louis S.

Berger, 2011-01-01 The prevailing conception of language is often called the received view. Though ubiquitous, Louis S. Berger demonstrates its flaws and the difficulties it raises for other disciplines such as philosophy and physics. In *Language and the Ineffable*, Berger develops an unconventional model of human development/ontogenesis. A radical and generative feature of the model is the premise that the neonate's world is holistic, boundary-less, unimaginable, and impossible to describe in other words: ineffable. This study unsettles the foundations of sacrosanct beliefs about language and a host of other disciplines in the process.

**Beyond Babel: Religion and Linguistic Pluralism** Andrea Vestrucci, 2023-10-31 This volume is the first attempt to investigate explicitly how the multiplicity of religions and forms of spirituality interconnect with the pluralism of languages, including scientific codes, formal languages, and artistic expressions. In a journey beyond Babel, the volume explores how religious and linguistic pluralisms enter into polyphonic relations, how they co-evolve and grow together, and why they clash. This text provides the setting for a dialogue on a rich variety of religious languages and traditions, including Hinduism, Judaism, Islam, Jainism, and Christianity. The chapters explore how these traditions can venture into new interreligious paths, how sacred meanings translate into vernacular speeches, how religious identities and scientific notions interact, what role emotional expressions play in interfaith encounters, and the impact of Artificial Intelligence on beliefs. The book is authored by esteemed senior scholars, established researchers, and exceptional junior doctorate holders whose expertise spans across religious studies, the history of science, philosophy, fine arts, theology, linguistics, computer science, and legal studies. This volume contributes to interfaith studies and teaching in sociology and philosophy of religion, and to the history and anthropology of religion and the sacred arts. It is intended to reach students, researchers, instructors, and professionals alike.

*Music, Philosophy and Gender in Nancy, Lacoue-Labarthe, Badiou* Sarah Hickmott, 2020-07-06 What counts as music for contemporary thinkers? Why is music of use to philosophers, and how do they use it in their work? How do philosophers decide what music is, and what assumptions are uncritically inherited in this move? And what is the philosophical relationship between music and gender? To answer these questions, Sarah Hickmott looks at the way music is used, characterised, and understood in the work of Jean-Luc Nancy, Philippe Lacoue-Labarthe, and Alain Badiou. Despite the differences in their philosophical/theoretical positions, all of these writers invoke music both directly and indirectly to negotiate their relationship

to ontology politics ethics and aesthetics Given a longer philosophical history dating back at least to Plato of aligning music with the feminine she also focuses on the way gender is deployed understood and constructed within the philosophy of music

**Re-visioning Gender in Philosophy of Religion** Dr Pamela Sue Anderson, 2013-01-28 A passion for justice and truth motivates the bold challenge of Revisioning Gender in Philosophy of Religion Unearthing the ways in which the myths of Christian patriarchy have historically inhibited and prohibited women from thinking and writing their own ideas this book lays fresh ground for re visioning the epistemic practices of philosophers Pamela Sue Anderson seeks both to draw out the salient threads in the gendering of philosophy of religion as it has been practiced and to re vision gender for philosophy today The arguments put forth by contemporary philosophers of religion concerning human and divine attributes are epistemically located yet the motivation to recognize this locatedness has to come from a concern for justice This book presents invaluable new perspectives on the philosopher s ever increasing awareness of his or her own locatedness on the gender often unwittingly given to God the ineffability in both analytic and Continental philosophy the still critical role of reason in the field the aims of a feminist philosophy of religion the roles of beauty and justice the vision of love and reason and a gendering which opens philosophy of religion up to diversity

**Wittgenstein: Half-Truths and One-and-a-Half-Truths** Jaakko Hintikka, 2013-11-27 IF WITI GENSTEIN COULD TALK COULD WE UNDERSTAND HIM Perusing the secondary literature on Wittgenstein I have frequently experienced a perfect Brechtian Entfremdungseffekt This is interesting I have felt like saying when reading books and papers on Wittgenstein but who is the writer talking about Certainly not Ludwig Wittgenstein the actual person who wrote his books and notebooks and whom I happened to meet Why is there this strange gap between the ideas of the actual philosopher and the musings of his interpreters Wittgenstein is talking to us through the posthumous publication of his writings Why don t philosophers understand what he is saying A partial reason is outlined in the first essay of this volume Wittgenstein was far too impatient to explain in his books and book drafts what his problems were what it was that he was trying to get clear about He was even too impatient to explain in full his earlier solutions often merely referring to them casually as it were in shorthand notation For one important instance in The Brown Book Wittgenstein had explained in some detail what name object relationships amount to in his view There he offers both an explanation of what his problem is and an account of his own view illustrated by means of specific examples of language games But when he raises the same question again in Philosophical Investigations I sec

**Apologetics in the New Age** David K. Clark, Norman L. Geisler, 2004-06-21 Many books have successfully defended Christianity against Western rational skepticism Apologetics in the New Age represents the first serious attempt by evangelical philosophers to answer Eastern pantheism in general and the New Age movement in particular Teaming up with David Clark Norman Geisler one of evangelicalism s leading apologists probes the pantheistic worldview and its relationship to the New Age movement Pantheism the authors write constitutes the soil in which the movement grows The notion that

every person participates in the divine has found fertile expression in contemporary American culture The American consciousness of the Eastern alternative has risen rapidly in the last few decades the authors remind us Christian apologists have been caught unaware For this reason we believe that Christian apologists must turn their attention in a new direction by developing new arguments for this New Age
