Influencing The European Community:

The Influence of International Institutions on the EU O. Costa, K. Jørgensen, 2012-04-05 An exploration of how the EU is influenced by multilateral institutions There has recently been a dramatic increase in interaction between the EU and multilateral institutions This book shows that international institutions shape EU policies as well as acting as a source of preferences and strategies for EU stances internationally *Influence and Interests in the European Union* Jenny Fairbrass, Alex Warleigh, 2003-09-02 Clearly discusses the impact and uses of interest representation in the development of the EU system Examines the complexities of representation at EU level a vital issue for potential lobbyists and interest groups Charts new trends and issues such as enlargement Europeanization and Central and Eastern Europe Contributions by acknowledged experts with a proven track record of research and publication in this field including seven current and past practitioners of EU politics with experience as lobbyists from either institutional NGO or corporate perspectives Places interest representation in its historical and theoretical context *The Influence of the European Union on Turkish Foreign Policy* Özlem Terzi, 2016-02-24 EU membership provides member states with a new perception of their place in the world their foreign policies very much influenced by their involvement in the politics of Brussels The candidate countries also go through the same experience The membership prospect however presented a serious challenge to Turkish foreign policy and it was obvious from the moment Turkey was declared as a candidate country in 1999 that its membership perspective was linked to the solution of problems in its domestic and foreign relations In this book zlem Terzi examines the influence of the European Union on the making of Turkish foreign policy since it was declared a candidate country By comparing an issue specific analysis alongside an actor based focus Terzi questions whether such a transformation in the self perceptions of Turkish policy makers is actually taking place and whether the policy making process with respect to foreign policy issues expands to include new actors like the civil society thus democratizing the way foreign policy is made Case study rich and packed with interviews with actors involved in policy making in Brussels and Ankara this book enables the reader to correctly discern the factors that make the Turkish case unique and to reveal whether certain aspects of Turkey s pre accession process are not as unique as we think *The Influence of the European Union on Turkish Foreign Policy* is a valuable and informative contribution for students researchers and scholars interested on the transformative power of the EU and the role of Turkey s relationship with its neighbours *The Political Influence of Business in the European Union* Andreas Dur, David Marshall, Patrick Bernhagen, 2019-02-28 Many citizens politicians and political activists voice concern about the political influence of business in the European Union But do business interests really pull the strings in Brussels Contrary to expectations this book shows that business interests are no more influential than other interests in shaping contemporary EU policies Andreas D r David Marshall and Patrick Bernhagen present an original argument that stresses the role of public actors in facilitating or impeding interest groups lobbying success Novel data on a large number of legislative proposals on

the EU's agenda and three case studies present strong support for this argument. The Political Influence of Business in the European Union offers new insights into how lobbying success depends on the demand and supply of information as well as new ideas on how to measure lobbying success. The book advances a fresh perspective on the question of business power and shows why business interests often lose in the policy struggle.

EU Influence Beyond Conditionality Mario Zucconi, 2019-09-03 This book presents an in-depth analysis of the role played by the EU accession process in Turkey's democratic evolution and in the empowerment of the Justice and Development Party (AKP) in the early 2000s. Often moving against the grain of consolidated analytical positions, the author finds that the accession process can have a critical impact on the political evolution and institutional setting of an aspiring member state that goes well beyond the simple Europeanization process or EU accession conditionality. In the case of Turkey, that process created the essential conditions and environment for the country's political modernization by helping the emergence of a periphery including Kurds, conservative Muslims, and non-Muslims that secularism had pushed into a marginal secondary status in Turkish society. Turkey's gradual evolution in an authoritarian direction following the stalling of the EU accession process offers further proof of the decisive role that the EU accession can play in a country's democratic advancement. The book additionally indicates how Turkey's EU-driven democratic evolution for a number of years had important implications in terms of regional and global order.

The Government and Politics of the European Union Neill Nugent, 2006 A clear and comprehensive explanation of the historical development and ongoing evolution of the European Union. EU revised and updated in this sixth edition.

The Politics of the European Union Herman Lelieveldt, Sebastiaan Princen, 2023-04-20 The European Union is a key player in determining policies and politics in Europe, and yet understanding how it works remains a challenge. The Politics of the European Union introduces students to its functioning by showing the similarities and differences between the EU and national political systems. Fully revised and updated in its third edition, this introductory textbook uses the tools of comparative politics to explore the history, theories, institutions, key actors, politics, and policy making of the EU. This comparative approach enables students to apply their knowledge of domestic politics and broader debates in political science to better understand the EU. Numerous real-world examples guide students through the textbook, and chapter briefings, fact files, and controversy boxes highlight the important and controversial issues in EU politics. A companion website features free Navigating the EU exercises to guide students in their analysis of EU policy making.

The European Union in the World Community Carolyn Rhodes, 1998 This volume analyzes the character of the EU as an actor in international affairs. The authors consider the questions such as: Does the EU have an identity of its own in global affairs, distinct from that of its member states? And what is its relationship with other major international actors?

The New Relationship between the United Kingdom and the European Union Emmanuel Guinchard, Carlo Panara, 2025-03-29 Brexit has reshuffled the cards of the relationship between the United Kingdom and the European Union. It is a one-in-a-lifetime event which ended nearly 50

years of EU Membership EU law as such no longer applies in the United Kingdom and British citizens and companies no longer benefit from its advantages Part of the previous regime has however been maintained at times with amendments through the series of treaties negotiated between the UK and the EU in 2019 and 2020 in particular the Trade and Cooperation Agreement of 2020 to which the 2023 Windsor Agreement can be added The end result is a legal regime which is perhaps even more complex than EU law itself This book aims to provide the reader with a clarification of this legal regime as well as provide context to it and suggestions to improve it All key topics are covered such as citizens of the EU in the UK and British citizens in the EU trade in goods and in services criminal justice public procurement Northern Ireland the UK overseas territories the dispute settlement security and defence international trade agreements of the UK post Brexit environmental protection European civil justice financial services education and research and the European offices of the UK local authorities and devolved administrations after Brexit All the chapters follow wherever possible the same triadic structure The first part looks at the regime prior to Brexit the second part analyses the current regime and the third part discusses ongoing and predictable trends The concluding chapter attempts to identify some themes likely to impact on the forthcoming preparation of the 2026 review

The Federal Republic of Germany and the European Community (RLE:

German Politics) Simon Bulmer, William Paterson, 2014-12-17 Originally published in 1987 this book examines German governmental policy from 1969 1986 and explains this in terms of the political economic and administrative dynamics of the then Federal Republic The study includes analysis of the attitudes and the role of West German interest groups political parties public opinion the legislature and the federal states regarding European policy The book is based on extensive interviews as well as the authors familiarity with the institutions and key players involved It will appeal to students of German politics the EU and international relations

Lobbying in the European Union Heike Klüver, 2013-02-28 Thousands of lobbyists lobby decision makers in Brussels every day but little is known about their impact on policy Lobbying in the European Union addresses this research gap and analyzes the conditions under which interest groups can successfully lobby the European institutions

Collective Action in the European Union Mark Aspinwall, Justin Greenwood, 2013-09-13 Collective Action in the European Union addresses fundamental questions surrounding the European political economy The impressive array of contributors ask how and why collective action is formed at the European level They also consider whether collective action at the transnational level is driven by rational utility maximising behaviour or whether explanations couched in social terms are more convincing Many of the chapters introduce fresh empirical studies in the domains of business the professions consumers and environmental interests

Consultative Committees in the European Union Diana Panke, Christoph Hönnige, Julia Gollub, 2014-12-01 How and under which conditions can consultative committees exert influence if they have access to legislators voice but no formal veto power vote In drawing on the Committee of the Regions and the European Economic and Social Committee of the European Union this book shows that consultative committees face

several challenges when it comes to influencing the content of policies but are nevertheless sometimes successful in getting their opinions heard. It develops a sender-receiver model and puts it to a comprehensive empirical test. A quantitative analysis and three in-depth case studies on the European citizens initiative, the European grouping of territorial cooperation and the liberalisation of Community Postal Services show how capacities, incentives and preferences of consultative committees and legislative decision makers need to be configured to allow for the influence of the CoR and the EESC.

Nursing in the European Union Sondra Z. Koff, 2016-06-30 Europeanization has generated a galaxy of regimes, laws, organizations, new actors and networks that have diluted institutional barriers to interaction across national borders. Many nation-based policy competencies have been transferred to the European level. The European Union (EU), the world's first regional regulator, bears consequences for the development of public policy and for policies affiliated with the nursing profession. With limited exception, the EU does not have formal powers in the health care arena. However, as a result of its efforts in other fields, it has been heavily involved with health care and its providers. *Nursing in the European Union* demonstrates how the organization has refashioned the nursing world throughout the member states via its power in many other policy domains. This volume focuses on the EU's impact on nursing education, regulation and research endeavors and suggests strategies to achieve desired objectives.

Volume 2 *Nursing in the European Union: The World of Work* to be published in Fall 2016 focuses on real-life situations and problems EU nurses face: wages, stress and dispute resolution. Sondra Z. Koff integrates the European experience with a discussion of nursing in the real world and presents the nursing profession in light of the European Union, its components, its mechanisms and its output and activities.

International Influence Beyond Conditionality Rachel A. Epstein, Ulrich Sedelmeier, 2013-09-13 The European Union's EU membership conditionality has been perceived as a highly effective means of influence on non-member states in the run-up to the 2004 and 2007 enlargements. According to the incentive-based explanation that dominates the literature, conditionality has been particularly effective when the EU offered a credible membership incentive and when governments did not consider the domestic costs of compliance threatening to their hold on power. This volume challenges much of the existing work on EU enlargement and postcommunist transition, however, by testing the conditionality thesis in the post-accession setting. Whereas a conditionality hypothesis would predict deteriorating compliance among the newest member states, several contributions here actually find the opposite: Enduring compliance among postcommunist states with the *acquis* as well as with less formally institutionalized EU preferences for economic liberalization and minority protection calls into question the role that conditionality plays in eliciting conformity. Simultaneously, support for the conditionality hypothesis in areas such as political party development and EU relations with Turkey and the western Balkans suggests conditionality's effects vary across countries and issues. As the first study to systematically examine the relationship between international institutions and postcommunist states after enlargement, this volume provides new insights into how external actors exercise their power in domestic politics. This book was published as a

special issue of the Journal of European Public Policy **European Union Law** Damian Chalmers, Gareth Davies, Giorgio Monti, 2019-09-12 The most current contextual and authoritative EU law text including Brexit the euro and the migration crisis

Small States in the European Union Diana Panke, 2010 The most recent EU enlargements have considerably increased the number of small member states In the EU 27 19 countries have fewer votes in the Council of Ministers than the EU average These small states face a series of size related disadvantages in day to day EU negotiations Against this backdrop the book asks are some small states better at coping with structural disadvantages than others How active are small states in participating in day to day EU negotiations and why do some states use negotiation strategies more frequently than others Under which conditions are the different negotiation strategies effective and when can small states punch above their weight Based on more than 100 interviews with policy makers and an analysis of a unique database on the negotiation activities of EU member states this book explains how active participation is essential for the shaping success of small states and shows that small states are more influential with persuasion based rather than bargaining based strategies Two case studies on the pesticides and the spirit drinks regulations further reveal that persuasion strategies are especially effective if the arguments match the nature of the issue at stake and resonate well with prior beliefs of addressees No other study comprehensively analyzes small states in a comparative perspective examines their activity levels in EU negotiations and outlines which conditions are needed for the effectiveness of a broad range of strategies This is an indispensable resource for students and researchers interested in how and under which conditions small states can influence policies in negotiations beyond the nation state

The European Union's Influence in Central Asia Olga Alinda Spaiser, 2018-03-12 Unknown yet highly strategic Central Asia attracts the interest of major global powers due to its vast energy resources and crucial geographic position Russia China and the European Union view this region as an indispensable springboard to enhance their political and economic influence on the Eurasian landmass Thus facing strong competition and working on low budget the EU is attempting to establish itself as a relevant and influential actor in an environment in which its leadership role is far from certain Unlike in other post communist regions the EU is not able to rely on the attractiveness of its political models and risks being marginalized by other global powers The crucial question then is How does the EU exert influence in such a challenging geopolitical context Which strategies does the EU apply to be an actor who counts Through an analysis of the EU's discourse instruments and the reception of its policies in Central Asia this study argues that the EU consciously takes the position of a second tier actor who acts as a consultant and projects a picture of itself as an honest broker with no geopolitical agenda The EU's influence is confined to niche domains in the security sphere that are nevertheless important for the regional security The EU is not a great power in the region nor is it willing to become one It does however have comparative advantages in being perceived as inoffensive and for occupying areas that are neglected by the other actors such as governance and water security

The European Union as an Integrative Power Joachim Alexander Koops, 2011

A comprehensive analysis of the European Union's foreign policy over 40 years this study describes how multilateralism has been used in the fields of peace security and military crisis management Relying on detailed case studies this new research looks at interventions in Macedonia the Balkans the Congo and Chad and assesses EU's cooperation with NATO and the United Nations during these emergencies *Political Parties and the European Union* John Gaffney, 2002-09-11 A major textbook for comparative courses on European politics and for courses on the European Union providing a panoramic survey of the political parties of Europe
