Green ICT Ramjee Prasad, Shingo Ohmori, Dina Simunic, 2022-09-01 ICT is playing an increasingly important role in both business and individual's private life. It has increased international interconnectedness and speed up the process of globalization. But on the other side the total energy consumption by the communication and networking devices and the relevant global CO emission is increasing exponentially. ICT has in many ways a vital role to play. It accounts for about two percent of global CO emissions. Telecommunications applications can have a direct tangible impact on lowering greenhouse gas emissions, power consumption and achieve efficient recycling of equipment waste. This book is the outcome of the special session on Green Communications at The 12th International Symposium on Wireless Personal Multimedia Communications WPMC held in September 09 in Sendai Japan. To the best of the editors' knowledge this is the first book on the Green Information and Communication Technologies (ICT) and can be considered a milestone and a key tool aimed at driving the industrial, scientific and academic efforts of the international community to guarantee a greener future to the whole planet.

Handbook of Information and Communication Technologies Robin Mansell, 2007 The production and consumption of Information and Communication Technologies or ICTs have become embedded within our societies. The influence and implications of this have an impact at a macro level in the way our governments, economies and businesses operate and in our everyday lives. This handbook is about the many challenges presented by ICTs. It sets out an intellectual agenda that examines the implications of ICTs for individuals, organizations, democracy and the economy. Explicitly interdisciplinary and combining empirical research with theoretical work, it is organised around four themes covering the knowledge economy, organizational dynamics, strategy and design, governance and democracy, and culture, community and new media literacies. It provides a comprehensive resource for those working in the social sciences and in the physical sciences and engineering fields with leading contemporary research informed principally by the disciplines of anthropology, economics, philosophy, politics and sociology. **Handbook of Research on Business Model Innovation Through Disruption and Digitalization**
