Hebrew Exercises Robert I. Vasholz,1986      Hebrew Exercises ,180?      Hebrew studies ,1981      Academic Approaches to Teaching Jewish Studies Zev Garber,2000 Fourteen scholars and master teachers explore the challenges of teaching Jewish studies at American schools of higher education      *Book List* Society for Old Testament Study,1981

**Advances in the Study of Biblical Hebrew and Aramaic** Benjamin J. Noonan,2020-02-18 Advances in the Study of Biblical Hebrew and Aramaic by Benjamin J Noonan examines issues of interest in the current world of Biblical Hebrew and Aramaic scholarship and their impact on understanding the Old Testament it provides an accessible introduction for students pastors professors and commentators to understand these important issues      International Handbook of Jewish Education Helena Miller,Lisa D. Grant,Alex Pomson,2011-04-02 The International Handbook of Jewish Education a two volume publication brings together scholars and practitioners engaged in the field of Jewish Education and its cognate fields world wide Their submissions make a significant contribution to our knowledge of the field of Jewish Education as we start the second decade of the 21st century The Handbook is divided broadly into four main sections Vision and Practice focusing on issues of philosophy identity and planning the big issues of Jewish Education Teaching and Learning focusing on areas of curriculum and engagement Applications focusing on the ways that Jewish Education is transmitted in particular contexts both formal and informal for children and adults Geographical focusing on historical demographic social and other issues that are specific to a region or where an issue or range of issues can be compared and contrasted between two or more locations This comprehensive collection of articles providing high quality content constitutes a definitive statement on the state of Jewish Education world wide as well as through a wide variety of lenses and contexts It is written in a style that is accessible to a global community of academics and professionals      **Our Jewish Neighbors** ,1921      **Language Program Vitality in the United States** Emily Heidrich Uebel,Felix A. Kronenberg,Scott Sterling,2023-11-09 The perception of a permanent enrollment crisis in US postsecondary foreign language education has shaped our profession s image for an entire generation of educators Over the past 30 years this crisis rarely invited self examination or inspired creativity Instead it was routinely attributed to external factors shrinking budgets unsympathetic administrators disengaged students This volume is refreshingly optimistic After providing a nuanced picture of the complex enrollment situation and focusing on perceptions of language education among undergraduate students the volume features an inspiring panorama of successful models that revitalized language programs at a wide range of institutions The diversity of approaches to post secondary language education in the United States featured in this volume highlights that there are no simple one size fits all solutions To be transformational initiatives need to be intimately calibrated to the evolving needs and desires of our institutions most important stakeholder the student Per Urlaub Massachusetts Institute of Technology MA USA      Jewish Community Center Program Aids ,1972      The Lay Leader in the Lead Program (laymens' Enrichment and Devotional Program). ,1969      The

Jewish Educational Leader's Handbook Robert E. Tornberg, 1998 Classroom teaching it addresses supplementary school settings and features a Noticeably larger section devoted to the growing day school sector      **Lived Wisdom in Jewish Antiquity** Elisa Uusimäki, 2021-06-03 Moving away from focusing on wisdom as a literary genre this book delves into the lived embodied and formative dimensions of wisdom as they are delineated in Jewish sources from the Persian Hellenistic and early Roman eras Considering a diverse body of texts beyond later canonical boundaries the book demonstrates that wisdom features not as an abstract quality but as something to be performed and exercised at both the individual and community level The analysis specifically concentrates on notions of a wise person including the rise of the sage as an exemplary figure It also looks at how ancestral figures and contemporary teachers are imagined to manifest and practice wisdom and considers communal portraits of a wise and virtuous life In so doing the author demonstrates that the previous focus on wisdom as a category of literature has overshadowed significant questions related to wisdom behaviour and social life Jewish wisdom is also contextualized in relation to its wider ancient Mediterranean milieu making the book valuable for biblical scholars classicists scholars of religion and the ancient Near East and theologians      **What We Now Know about Jewish Education** Roberta Louis Goodman, Paul A. Flexner, Linda Dale Bloomberg, 2008 When What We Know about Jewish Education was first published in 1992 Stuart Kelman recognized that knowledge and understanding would greatly enhance the ability of professionals and lay leaders to address the many challenges facing Jewish education With increased innovation the entry of new funders and the connection between Jewish education and the quality of Jewish life research and evaluation have become over the last two decades an integral part of decision making planning programming and funding      **The Adult Jewish Education Handbook** Roberta Louis Goodman, 2004 This comprehensive guide presents theory from the field of secular adult education in light of the questions and concerns of all aspects of adult Jewish education including learning theory curriculum programming planning budgeting and educational philosophy      Religion Index One , 1985

**Self-Study Approaches and the Teacher-Inquirer** Hanna Ezer, 2019-02-11 This book examines self study methodologies and their relevance to professional growth among teachers The book puts forward the following arguments Self study as a research approach involves basic research skills therefore constituting an important step for non professional inquirers aspiring to more complex research Self study is a powerful tool in support of professional growth among teachers Self study comprises a set of approaches among them instructional situations case analysis critical autobiography and action research The book offers some interesting perspectives on the following issues The book focuses on the writer's experience as a teacher educator who has elicited and motivated self studies among student teachers and teachers The book brings together three related self study methodologies instructional situations case analysis critical autobiography and action research The book offers a new perspective on implementing and analyzing instructional situation cases through the authentic case of teaching and the expected case of teaching a perspective developed by the writer and implemented in her

classes The book provides a fresh view of critical autobiography as a powerful tool teachers can use to examine their own practice and professional development The book introduces critical discourse analysis as a useful tool for researchers This tool enables teacher inquirers to reveal their sense of professional self and their professional identity as it emerges in teaching cases they provide Teachers and researchers can easily apply the methodologies described in this book to their own teaching and research arenas

*Portraits of Jewish Learning* Diane Tickton Schuster, 2019-01-11 Portraits of Jewish Learning brings together colorful accounts of the ways that Jewish students today are having meaningful learning experiences in day school classrooms Hebrew programs synagogue based schools and high school and college courses that push students out of their comfort zone Whether the students are second graders engaged in text analysis sixth graders solving complex mystery puzzles about Jewish values or teens encountering counter narratives about Israel's history these stories informed by careful and disciplined inquiry prompt readers to reflect on questions of what Jewish learning is what we can discover by studying experiences of learning at close range and over time and how Jewish education can respond to the needs and interests of Jewish learners who seek a Judaism that is relevant in today's world The work of researchers and practitioners who are changing the landscape of contemporary Jewish education these portraits are designed to encourage critical discussion among educational leaders clergy policymakers philanthropists and parents as well as teachers and those aspiring to work in Jewish education They invite us to think about the many ways that today's Jewish education can be enriched by experimentation and innovation
