*Hong Kong* Michael Ingham, 2007-06-18 Hong Kong has always been something of an anomaly and an outpost of empire whether British or Chinese Once described as a barren island the former fishing community has been transformed by its own economic miracle into one of Asia's World Cities taking in its stride the territory's 1997 return to Chinese sovereignty Beneath the surface of Hong Kong's clichéd self image as Pearl of the Orient and Shopping Paradise Michael Ingham reveals a city rich in history myth and cultural diversity Hong Kong Michael Anthony Ingham, 2007 Explores the culture and history of Hong Kong Visualising China, 1845-1965, 2012-11-09 How does China project its image in the world Why and how has the world come to form certain impressions of the Chinese and their way of life These are issues that preoccupy Chinese citizens in the globalizing 21st century as they travel overseas riding on the capacity of the country's newly acquired economic power In *Visualizing China* the authors join forces to launch a broader inquiry aimed at a synergistic understanding of the larger story of visibility in modern China The essays cluster around several nodal points including photographs advertising posters and movies spanning from the 1840s to the 1960s and devote special attention to modern Chinese practices in the visualization of things Chinese **Australian Women's Historical Photography** Anne Maxwell, Lucy Van, 2024-07-02 *Australian Women's Historical Photography* Other Times Other Views examines the photographs produced by six talented women photographers against the historical backdrop of settler violence towards Indigenous Australians the First Women's Movement the Great War of 1914-1918 Australia's imperial occupation of New Guinea the final years of Chinese Nationalist Party rule in China and debates about photography's status as an art form Women's works from the nineteenth and early twentieth centuries have been downplayed or even ignored in existing accounts of Australia's cultural history and this study is aimed at rectifying this situation At the same time the book demonstrates why amateur works are just as important as commercial works to our understanding of the past Methodologically the book draws on scholarship from history art history anthropology sociology gender studies and cultural studies to create an interdisciplinary critical framework that will be of interest to a broad range of academic and archival researchers It is also a framework that is critically sensible of its own groundings in the postcolonial and feminist present thereby reflecting what is meaningful at any given historical moment Finally this book responds to the pronounced lack of visibility of Australian realist documentary and commercial women's works The few histories of Australian women's photography that exist pay more attention to modernist and contemporary works and when they do mention earlier women photographer's works they seldom go into much detail They also ignore the works of the earliest Indigenous women photographers women who traveled and made photographs abroad By presenting a carefully contextualized and detailed study of works by six Australian women photographers who worked in the late colonial era and whose works in all sorts of small and surprising ways chronicled the impacts of some of the periods more disturbing as well as enlightened events we will not only add to knowledge of Australian women's

photography we will also broaden and enrich the frames of women s photography and Australian history more generally
