related genres in Early Modern English providing ideas of what spoken interaction in earlier times might have been like

Researching Specialized Languages Vijay Bhatia, Purificación Sánchez Hernández, Pascual Pérez-Paredes, 2011-09-28 The present collection of articles represents research efforts in the field of specialised languages including the analysis of research articles in disciplines as diverse as Biomedicine and Computing on the one hand and overlapping disciplines such as in Social Sciences on the other all with high relevance to English for Academic Purposes and English for specific Purposes The volume offers empirical evidence obtained from corpus based analyses of language both from diachronic as well as synchronic perspectives on topics such as the role of mother tongue in professional writing the analysis of conference abstracts as a genre or the analysis of visual data transfer This collection addresses issues such as the implementation of lexicons for specialised language learning and the development of ontologies to research language patterns The volume thus provides a rich repertoire of research methodologies in depth analyses of specialised discourses and the identification and discussion of relevant pedagogic issues **Corpus-Informed Research and Learning in ESP** Alex Boulton, Shirley

Carter-Thomas, Elizabeth Rowley-Jolivet, 2012-05-15 These specially commissioned studies cover corpus informed approaches to researching teaching and learning English for Specific Purposes ESP. The corpora used range from very large published corpora to small tailor made collections of written and spoken text as well as parallel and contrastive corpora in both the hard and softer sciences. Designed to tackle the problems faced by a variety of first and second language ESP users, specialised translators, undergraduates, junior and experienced researchers and language trainers, the breadth of approaches enables treatment of issues central to ESP and corpus research from corpus compilation and analysis to new applications and data driven learning. The first full length book on applied corpus use in France, *Corpus Informed Research and Learning in ESP* will be of interest not only to those working in the French context but to a wide variety of language professionals, teachers, researchers or course designers in many countries looking at ESP from different linguistic, cultural and educational perspectives.

Spoken Corpora and Linguistic Studies Tommaso Raso, Heliana Mello, 2014-11-14 The authors of this book share a common interest in the following topics: the importance of corpora compilation for the empirical study of human language; the importance of pragmatic categories such as emotion, attitude, illocution and information structure in linguistic theory; and a passionate belief in the central role of prosody for the analysis of speech. Four distinct sections: spoken corpora compilation, spoken corpora annotation, prosody and syntax and information structure give the book the structure in which the authors present innovative methodologies that focus on the compilation of third generation spoken corpora, multilevel spoken corpora annotation and its functions, and additionally a debate is initiated about the reference unit in the study of spoken language via information structure. The book is accompanied by a web site with a rich array of audio video files. The web site can be found at the following address: DOI 10.1075/scl.61.media. Viviana Cortes, Eniko Csomay, 2015-01-14 This volume comprises nine contributions that were written by up and coming corpus based researchers with varied areas of expertise who were all disciples of Douglas Biber sometime in the past two decades. These papers cover a wide variety of linguistic analyses and describe the principles of the Flagstaff school: a careful procedure for language corpora collection with special consideration for corpus size, representativeness, sampling and systematic analysis; the use of computer programming abilities that allow the posing of corpus based research questions never asked before; and a strong emphasis on the combination of quantitative methods based on sound and innovative statistical procedures complemented with comprehensive qualitative functional analyses of the language. This volume has been edited in honor of Douglas Biber, a pioneer of the American school of corpus based research.

Corpus-based Research on Variation in English Legal Discourse Teresa Fanego, Paula Rodríguez-Puente, 2019-02-15 This volume provides a comprehensive overview of the research carried out over the past thirty years in the vast field of legal discourse. The focus is on how such research has been influenced and shaped by developments in corpus linguistics and register analysis and by the emergence from the mid 1990s of historical pragmatics as a branch of pragmatics concerned with the

scrutiny of historical texts in their context of writing The five chapters in Part I together with the introductory chapter offer a wide spectrum of the latest approaches to the synchronic analysis of cross genre and cross linguistic variation in legal discourse Part II addresses diachronic variation illustrating how a diversity of methods such as multi dimensional analysis move analysis collocation analysis and Darwinian models of language evolution can uncover new understandings of diachronic linguistic phenomena

The forms and functions of modal verbs in sections of the English tourism research articles Domínguez Morales, María Elena, 2023-03-15 The tourism research article RA has not been the focus of many studies This volume offers a description of the genre in terms of section besides an analysis of the most used language features in each section of the RA Among these are the presence of modal verbs Precisely the goal of this work is to describe their use meaning and functions in a corpus of the introduction and conclusion sections of the RA in tourist studies The compilations included texts from leading journals in the area The method of inquiry includes corpus linguistics tools to analyze texts as well as specific examples to show how these forms behave in the RAs The analysis of context is also essential in order to identify the exact meanings of modal verbs and for that reason visual inspection of each sample is mandatory The discussion of the evidence obtained is accounted for by studies in the domain of functional linguistics The conclusions show that formal variation exists in the introduction and the conclusion sections This also applies to their meanings Dynamic modality is attested to be more recurrent in the introductions and epistemic modality is preferred in the concluding sections The functions performed by these modals are varied to feature interpersonal and textual cues in the elaboration of meaning in the RA Esta obra no tiene formato impreso y su descarga es libre sin DRM

Medical Writing: Modality in Focus Minna Vihla, 2023-11-27 This book examines the role of modal expressions in various medical genres as well as pointing out other markers of speaker attitude Based on new computer readable data and combining quantitative and qualitative methods the book argues that the use of modal expressions reflects the institutional context of medical discourse Modal expressions are analysed with reference to hedging reliability and argumentation and it is shown that their use in different genres reflects a model of medicine leading from bio medical hypotheses through assessment to clinical applications The book also analyses new genres of medical writing that have developed as a response to the increasing amount of medical information Advertisements are analysed as an example of medicalization showing how evaluation in the texts is based on medical values

Negation and Speculation Detection Noa P. Cruz Díaz, Manuel J. Maña López, 2019-02-15 Negation and speculation detection is an emerging topic that has attracted the attention of many researchers and there is clearly a lack of relevant textbooks and survey texts This book aims to define negation and speculation from a natural language processing perspective to explain the need for processing these phenomena to summarise existing research on processing negation and speculation to provide a list of resources and tools and to speculate about future developments in this research area An advantage of this book is that it will not only provide an overview of the state of the art in negation and speculation detection but will also

introduce newly developed data sets and scripts It will be useful for students of natural language processing subjects who are interested in understanding this task in more depth and for researchers with an interest in these phenomena in order to improve performance in other natural language processing tasks
