Hegel Contemporary Continental Philosophy:

Hegel and Contemporary Continental Philosophy Dennis King Keenan, 2004-06-10 Twenty three of the most important writings by contemporary continental thinkers on the work of Hegel **Hegel and Contemporary Continental Philosophy**, *The Crisis in Continental Philosophy* Robert Piercey, 2009-05-01 Continental philosophy has traditionally seen philosophy as historical claiming that there are no new beginnings in the discipline and that we must revisit the work of earlier thinkers again and again Yet continental philosophers rarely argue explicitly for their view of philosophy's past and the discussions of the topic that exist tend to be riddled with confusion Here Robert Piercey asks why and explores what the continental tradition must do to come to terms with this crisis Piercey traces the confusion about history back to Hegel who he argues sends a mixed message about historical thinking one that is later adopted by Heidegger and then passed on to his successors In addition to telling the story of this crisis Piercey offers an account of historical thinking that does not lead to the difficulties that currently plague the continental tradition The result is a highly original look at the development of continental thought and the nature of philosophy's historical turn *The Future of Hegel* Catherine Malabou, 2004-08-26 Published in English for the first time this is one of the most important recent books on Hegel Seeking to restore Hegel's concepts of time and temporality it is essential reading for those interested in contemporary continental philosophy

Kierkegaard and Modern Continental Philosophy Michael Weston, 2003-05-20 In *Kierkegaard and Modern European Philosophy An Introduction* Michael Weston argues that despite being acknowledged as a precursor to Nietzsche and post Nietzschean thinkers such as Heidegger and Derrida the radical nature of Kierkegaard's critique of philosophy has been missed Weston examines and explains the metaphysical tradition as exemplified by Plato and Hegel and the post metaphysical critiques of Nietzsche Heidegger and Derrida He shows how Kierkegaard's ethical critique of philosophy undermines the former and escapes the latter He considers another ethical critique of philosophy that of Levinas before identifying ethics as the non philosophical site where philosophy can be criticised *Kierkegaard and Modern European Philosophy An Introduction* argues that by refusing to allow philosophy jurisdiction over ethics and religion Kierkegaard's critique applies as much to modern continental thought as to the metaphysical thought it seeks to undermine

Contemporary Continental Philosophy Stuart Sim, 2017-08-03 This title was first published in 2000 Contemporary continental philosophy is a widely used but in many ways a highly problematic term and its exact frame of reference is not always clear In its more recent French manifestations in particular it continues to arouse considerable controversy and create bitter divisions with particularly hostile reactions to the work of Derrida and others Much work in the recent continental tradition can be fitted into a longer running philosophical tradition of scepticism and scepticism has always had the power to provoke and unsettle the philosophical establishment Presenting an overview of the philosophical landscape of the continental tradition since the 1940s this book traces the establishment of the new super scepticism as an intellectual

paradigm with the power to threaten and disorientate existing world views and more traditional styles of philosophical discourse marking the continental divide Exploring how contemporary continental philosophy from existentialism to postmodernism can be characterised as this new more resistant form of scepticism Sim identifies a clutch of key themes including difference the subject antifoundationalism dialectics which have been obsessively worked over by key thinkers in the Existentialist Postmodernist period and demonstrates how these have contributed to the development of a super sceptical outlook Presenting a new theme led approach to provide an entry into current debates in continental philosophy Stuart Sim reintegrates the work of Sartre into the more recent continental tradition and suggests that something qualitatively different is now occurring in French philosophy

Hegel and Resistance Bart Zantvoort, Rebecca Comay, 2017-12-28 The concept of resistance has always been central to the reception of Hegel's philosophy The prevalent image of Hegel's system which continues to influence the scholarship to this day is that of an absolutist monist metaphysics which overcomes all resistance subsuming or assimilating all differences into a single organic Whole For that reason the reception of Hegel has always been marked by the question of how to resist Hegel how to think that which remains outside of or other to the totalizing system of dialectics In recent years the work of scholars such as Catherine Malabou Slavoj Žižek Rebecca Comay and Frank Ruda has brought considerable nuance to this debate A new reading of Hegel has emerged which challenges the idea that there is no place for difference otherness or resistance in Hegel both by refusing to reduce Hegel's complex philosophy to a straightforward systematic narrative and by highlighting particular moments within Hegel's philosophy which seem to counteract the traditional understanding of dialectics This book brings together established and new voices in this field in order to show that the notion of resistance is central to this revaluation of Hegel

An Atheism that Is Not Humanist Emerges in French Thought Stefanos Geroulanos, 2010-03-08 French philosophy changed dramatically in the second quarter of the twentieth century In the wake of World War I and later the Nazi and Soviet disasters major philosophers such as Kojève Levinas Heidegger Koyré Sartre Merleau-Ponty and Hyppolite argued that man could no longer fill the void left by the death of God without also calling up the worst in human history and denigrating the dignity of the human subject In response they contributed to a new belief that man should no longer be viewed as the basis for existence thought and ethics rather human nature became dependent on other concepts and structures including Being language thought and culture This argument which was to be paramount for existentialism and structuralism came to dominate postwar thought This intellectual history of these developments argues that at their heart lay a new atheism that rejected humanism as insufficient and ultimately violent

Complicated Presence Jussi Backman, 2015-03-16 From its Presocratic beginnings Western philosophy concerned itself with a quest for unity both in terms of the systematization of knowledge and as a metaphysical search for a unity of being two trends that can be regarded as converging and culminating in Hegel's system of absolute idealism Since Hegel however the philosophical quest for unity has become increasingly problematic Jussi Backman returns

to that question in this book examining the place of the unity of being in the work of Heidegger Backman sketches a consistent picture of Heidegger as a thinker of unity who throughout his career in different ways attempted to come to terms with both Parmenides's and Aristotle's fundamental questions concerning the singularity or multiplicity of being attempting to do so however in a postmetaphysical manner rooted in rather than above and beyond particular situated beings Through his analysis Backman offers a new way of understanding the basic continuity of Heidegger's philosophical project and the interconnectedness of such key Heideggerian concepts as ecstatic temporality the ontological difference the turn Kehre the event Ereignis the fourfold Geviert and the analysis of modern technology

Thinking About Love Diane Enns, Antonio Calcagno, 2015-11-10 Does love command an ineffability that remains inaccessible to the philosopher Thinking About Love considers the nature and experience of love through the writing of well known Continental philosophers such as Hannah Arendt Simone de Beauvoir Jacques Derrida and Maurice Merleau Ponty Evolving forms of social organization rapid developments in the field of psychology and novel variations on relationships demand new approaches to and ways of talking about love Rather than offering prescriptive claims this volume explores how one might think about the concept philosophically without attempting to resolve or alleviate its ambiguities paradoxes and limitations The essays focus on the contradictions and limits of love manifested in such phenomena as trust abuse grief death violence politics and desire An erudite examination of the many facets of love this book fills a lacuna in the philosophy of this richly complicated topic Along with the editors the contributors are Sophie Bourgault John Caruana Christina M Gschwandtner Marguerite La Caze Alphonso Lingis Christian Lotz Todd May Dawne McCance Dorothea Olkowski Felix Murchadha Fiona Utley and M lanie Walton

Understanding Hegelianism Robert Sinnerbrink, 2014-12-05 Understanding Hegelianism explores the ways in which Hegelian and anti Hegelian currents of thought have shaped some of the most significant movements in twentieth century European philosophy particularly the traditions of critical theory existentialism Marxism and poststructuralism The first part of the book examines Kierkegaard's existentialism and Marx's materialism which present two defining poles of subsequent Hegelian and anti Hegelian movements The second part looks at the contrasting critiques of Hegel by Lukacs and Heidegger which set the stage for the appropriation of Hegelian themes in German critical theory and the anti Hegelian turn in French poststructuralism The role of Hegelian themes in the work of Adorno Habermas and Honneth are explored In the third part the rich tradition of Hegelianism in modern French philosophy is considered the work of Wahl Kojève Hyppolite Lefebvre Sartre de Beauvoir as well as the radical critique of Hegelianism articulated by Derrida and Deleuze Although the focus is primarily on German and French appropriations of Hegelian thought the author also explores some of the recent developments in Anglophone Hegelianism
