TEXTS AND COMMENTARY

EDITED BY JOHN O'NEILL

Thomas Klikauer

Hegel's Dialectic of Desire and Recognition John O'Neill, 1996-02-01 This book presents three generations of German French and Anglo American thinking on the Hegelian narrative of desire recognition and alienation in life labor and language a narrative that has been subject to extensive commentary in philosophy literature psychoanalysis and feminist thought The texts focus on a central topos in Western thought the story of self consciousness awakened in nature and in history John O Neill argues that current postmodern rejections of the Hegelian Marxist narrative demand an understanding of the texts included here Without Hegel and Marx in our toolbox he argues we will flounder in a world marked by the split between postmodern indifference and premodern passion The book makes a strong selection from the history of Hegelian Marxist debate hermeneutical and critical theory and Freudian Lacanian and feminist commentary on the dialectic of desire and recognition on the levels of social psychology and political economy Included are articles by Karl Marx G W F Hegel Alexandre Koj ve Jean Hyppolite Jean Paul Sarte Georg Luk cs J rgen Habermas Hans Georg Gadamer Howard Adelman Shlomo Avineri Jessica Benjamin Edward S Casey and J Melvin Woody Henry S Harris George Armstrong Kelly Ludwig Siep Judith N Shklar and Henry Sussman The texts and commentaries show how the Hegelian Maxist narrative of desire recognition and alienation is a contested story one in which class race and gender issues are drawn into a historical romance **Hegel's Philosophy of Language** Jim Vernon, 2007-05-15 In that is being rewritten in contemporary cultural politics this bold new book Jim Vernon develops the general theory of language implicitly contained in the writings of G W F Hegel Vernon offers novel readings of Hegel's central works in order to explain his views on some long neglected topics and as such demonstrates that his accounts of representation the concept and the speculative sentence can be used to create sophisticated theories of language acquisition universal grammar and linguistic practice Hegel's defence of a scientific philosophy that is necessary and universal seems to eliminate the need for a philosophical linguistics Since thought is demonstrably objective in itself questions about the language through which it is expressed appear to be external to philosophy This has caused many commentators to neglect the real problems that the historical and cultural associations of language pose for the adequate expression of universal thought Others exploiting this apparent inadequacy have argued that the lack of rigorous linguistic analysis in Hegel's philosophy is its greatest and perhaps fatal flaw Although the very idea of a Hegelian linguistics is controversial this book argues that there are resources within the texts of Hegel for developing a general theory of language as the reciprocal grounding of a universal grammatical form and a particular lexical content Moreover it uses this theory to resolve the apparent tension between the necessity of Hegelian philosophy and the contingency of its linguistic expression In the light of Hegel's critical relation to contemporary debates in Continental and Anglo American philosophy coupled with the central role that philosophy of language plays in both streams this important new study offers the first comprehensive integrated and fully developed analysis of Hegel's theory of language The

Oxford Handbook of Hegel Dean Moyar, 2017-05-15 The Oxford Handbook of Hegel is a comprehensive guide to Hegel s philosophy from his first published writings to his final lectures There are six chapters each on the Phenomenology of Spirit and The Science of Logic in depth analyses of the Encyclopedia and essays on the major parts of the Philosophy of Right Several chapters cover the many newly edited lecture series from the 1820s bringing new clarity to Hegel's conception of aesthetics the philosophy of religion and the history of philosophy The concluding part focuses on Hegel's legacy from his role in the formation of Marx s philosophy to his importance for contemporary liberal political philosophy The Handbook includes many essays from younger scholars who have brought new perspectives and rigor to the study of Hegel's thought The essays are marked by close engagement with Hegel's difficult texts and by a concern to highlight the ongoing systematic importance of Hegel's philosophy Hegel's Moral Corporation Thomas Klikauer, 2016-01-26 Hegel's Moral Corporation is about two versions of a corporation one business oriented and dedicated to shareholder value and profit maximisation and one dedicated to moral life Sittlichkeit in Hegelian terms **Hegel's 'Phenomenology of Spirit'** Stephen Houlgate, 2013-01-10 First published in 1801 Hegel's Phenomenology of Spirit has exercised considerable influence on subsequent thinkers from Marx and Kierkegaard to Heidegger Koj ve Adorno and Derrida The Pleasure of Punishment Magnus Hörnqvist, 2021-03-18 Based on a reading of contemporary philosophical arguments this book accounts for how punishment has provided audiences with pleasure in different historical contexts Watching tragedies contemplating hell attending executions or imagining prisons have generated pleasure according to contemporary observers in ancient Greece in medieval Catholic Europe in the early modern absolutist states and in the post 1968 Western world The pleasure was often judged morally problematic and raised questions about which desires were satisfied and what the enjoyment was like This book offers a research synthesis that ties together existing work on the pleasure of punishment It considers how the shared joys of punishment gradually disappeared from the public view at a precise historic conjuncture and explores whether arguments about the carnivalesque character of cruelty can provide support for the continued existence of penal pleasure Towards the end of this book the reader will discover if willing to go along and follow desire to places which are full of pain and suffering that deeply entwined with the desire for punishment there is also the desire for social justice An accessible and compelling read this book will appeal to students and scholars of criminology sociology philosophy and all those interested in the pleasures of punishment Hegel and the Foundations of Literary Theory Rafey Habib, 2019 Habib argues that the basic principles and assumptions of modern literary theory derive from the thought of German philosopher Hegel A Political Economy of the Senses Anita Chari, 2015-10-13 Anita Chari revives the concept of reification from Marx and the Frankfurt School to spotlight the resistance to neoliberal capitalism now forming at the level of political economy and at the more sensate experiential level of subjective transformation Reading art by Oliver Ressler Zanny Begg Claire Fontaine Jason Lazarus and Mika Rottenberg as well as the politics of Occupy Wall Street Chari identifies practices through which artists

and activists have challenged neoliberalism's social and political logics exposing its inherent tensions and contradictions The Decolonial Abyss An Yountae, 2016-10-03 The Decolonial Abyss probes the ethico political possibility harbored in Western philosophical and theological thought for addressing the collective experience of suffering socio political trauma and colonial violence In order to do so it builds a constructive and coherent thematization of the somewhat obscurely defined and underexplored mystical figure of the abyss as it occurs in Neoplatonic mysticism German Idealism and Afro Caribbean philosophy The central question An Yountae raises is How do we mediate the mystical abyss of theology philosophy and the abyss of socio political trauma engulfing the colonial subject What would theopoetics look like in the context where poetics is the means of resistance and survival This book seeks to answer these questions by examining the abyss as the dialectical process in which the self's dispossession before the encounter with its own finitude is followed by the rediscovery or reconstruction of the self The Blackwell Guide to Continental Philosophy Robert Solomon, David Sherman, 2008-04-15 The Blackwell Guide to Continental Philosophy is an accessible but sophisticated introduction to the most important figures in Continental philosophy in the last 200 years Presents a definitive introduction to the core figures and topics of continental philosophy Contains newly commissioned essays all of which are written by internationally distinguished scholars Provides a solid foundation for further study Subjects include Hegel Schopenhauer Kierkegaard Marx and Marxism Nietzsche Husserl and Phenomenology Heidegger Sartre critical theory Habermas Gadamer Foucault Derrida postmodernism and French Encountering Cruelty: The Fracture of the Human Heart Michael Trice, 2011-04-21 Drawing on Nietzsche s feminism challenge to the western tradition this book is a theological exploration of cruelty in its personal communal and institutional encounters in human life Cruelty undermines care trust respect and justice and its study opens a window into the theological possibility of reconciliation today The Deconstructive Owl of Minerva Lillian Francis Burke, 2013-10-03 The Deconstructive Owl of Minerva An Examination of Schizophrenia through Philosophy Psychoanalysis and Postmodernism takes as its project the articulation of the language of schizophrenia as it inscribes itself between the self and other It takes into account Georg W F Hegel s account of self consciousness as a master slave relation A reading of Jacques Lacan provides access to the narrative self in terms of the mirror stage as the recognition of the self as other By a further reading of postmodern theorists this book shows that what has been named schizophrenia calls for a deconstructive strategy that operates with the divergence between pharmacological treatment and the understanding of the language of the schizophrenic condition This difference will emphasize language as plural plurivalent polyphonic and polylogical This book essentially seeks to circumvent the label of schizophrenia and to provide alternative ways to understand schizophrenic language in order to culturally rearticulate its effects in society Postmodern and deconstructive modes of access to the languages of desire dispersal and plurivalence that are associated with schizophrenic conditions can help to open up spaces of understanding that are rendered impossible through symptomatic treatment models Michael Oakeshott and Leo

Strauss David McIlwain,2019-03-14 This book compares the thought of Michael Oakeshott and Leo Strauss bringing Oakeshott's desire for a renaissance of poetic individuality into dialogue with Strauss's recovery of the universality of philosophical enlightenment Starting from the conventional understanding of these thinkers as important voices of twentieth century conservatism McIlwain traces their deeper and more radical commitments to the highpoints of human achievement and their shared concerns with the fate of traditional inheritances in modernity the role and meaning of history the intention and meaning of political philosophy and the problem of politics and religion The book culminates in an articulation of the positions of Oakeshott and Strauss as part of the quarrel of poetry and philosophy revealing the ongoing implications of their thinking in terms of the profound spiritual and political questions raised by modern thinkers such as Hobbes Hegel Nietzsche and Heidegger and leading back to foundational figures of Western civilization including St Augustine and Socrates

Postcolonial Agency Simone Bignall, 2011-06-06 Newly available in paperback this book complements and balances the attention given by postcolonial theory to the revitalisation and recognition of the agency of colonised peoples Theory Ethics for Business and Public Administration David M. Boje, 2008-09-01 The purpose of this book is to develop those ethical traditions For example Horkheimer's books Eclipse of Reason and Critique of Instrumental Reason and his early and now classic essay Materialism and Morality ask for a reformation of Kantian ethics The reform sought is that categorical imperative in an individualism capitalism serves to worsen the difference between business ethics and moral philosophy That is it is not enough to try to be good or ethical as individuals when it is the systemic processes that must be dealt with Therefore Horkheimer asks that the maxim that would be made universal be done at the level of people organizing with others to change the social system that is producing the unethical behaviors The book is organized into several sections The first section sets the stages beginning with a challenge to the field of social responsibility in business and public administration Iones Ten bos Parker have a new book out that is smashing Then we turn to Carr and to Zanettic who each have done critical theory work in public administration This is followed by Heather Hopfl who edited an issue on ethics of goodness and does the kind of writing that makes deep connections. The next set of chapters make topic connections rhizomatics dialogics of co experience story narrative and postmodern The third set of topics focus on application technofuturist international business economics university environment accounting spirituality strategy and ending with Mills work on silence of race ethnicity in business and public administration ethics writing A Genealogy of Social **Violence** Clint Jones, 2016-03-03 Examining the mimetic theory of Ren Girard this book investigates the development of society as a result of an original crime a murder that shaped the way the earliest humans organized the social structures we live with today an analysis that reveals the dangerous structure of the most basic social relationships With attention to family relationships A Genealogy of Social Violence sheds light on the processes by which the traditional nuclear family through the mimetic behaviour of children embeds violence into human desires and hence society as whole Challenging the thought of

Girard and of Rawls in order to offer a new understanding of justice this book suggests that in order to achieve a more peaceful society what is required is not the self defeating narrative of equality developed in order to manage the violence engendered by our social institutions but a reconceptualisation of the nuclear family structure A striking critique of modern society which draws on religion mythology literature history philosophy and political theory A Genealogy of Social Violence will be of interest to social and political theorists as well as philosophers working in the area of contemporary social and The Critical Theory of Axel Honneth Danielle Petherbridge, 2013-09-05 The Critical Theory of Axel Honneth provides a comprehensive study of the work of Axel Honneth tracing the theoretical trajectory from his earliest writings on philosophical anthropology to the development of a theory of recognition The book argues that Honneth's early work provides important insights for the reconstruction of the normative project of critical theory and the articulation of a conceptual framework for analyzing social relations of power and domination Danielle Petherbridge contends however that these aims are not fully realized in Honneth's more mature project and that central insights recede as his project develops Petherbridge seeks to demonstrate that the basis for an alternative theory of intersubjectivity that can account for both an adequate theory of power and normative forms of subject formation can be immanently reconstructed from within Honneth s own work By contextualizing Honneth's project in relation to its theoretical influences The Critical Theory of Axel Honneth provides a critical study and excellent entry point that will be essential reading for both students and scholars who work in the areas of European philosophy critical theory social and political philosophy or social and political theory in the Condition of Modernism Ana Falcato, Antonio Cardiello, 2018-05-03 Produced on the fringes of philosophy and literary criticism this book is a pioneering study which aims to explicitly address and thematize what may be called a critical philosophy in the condition of modernism Its most important and original contribution to both disciplines is a self conscious reflection on possible modes of writing philosophy today and a systematic comparison with what happened in literary modernism at the beginning of the twentieth century The volume is divided into six sections where internationally renowned scholars discuss such pressing topics as the role of an unreliable narrator in a major philosophical treatise the different mediums of art production and how these impact on our perception of the Work itself the role of narrative in animal ethics and the filmic adaption of a Modernist classic **Management Education** Thomas Klikauer, 2016-10-25 Written in the tradition of the Frankfurt School of critical theory this book develops a practical theory designed to humanise management education Inevitably encountering deeply authoritarian business schools the author sets the rigidity of curriculum against a student centred approach found in Honneth's concept of recognition and the Habermasian concept of communicative action Management Education outlines measures for preventing Managerialism from colonising learning spaces that would prevent the practice of emancipatory learning from flourishing The aim of the book is to allow students and teachers of business schools to create learning inside an education system based on humanity Special Issue: Human Rights Austin

Sarat,2011-08-03 Presents advanced scholarship on human rights This work examines both the theoretical dimensions and dilemmas of human rights in the modern world and particular cases in which the problems and possibilities of human rights are examined
