## **Heidegger Thought And Historicity:**

*Heidegger* Christopher Fynsk, 2019-06-30 Christopher Fynsk here offers a sustained critical reading of texts written by Martin Heidegger in the period 1927-1947. His guiding concerns are Heidegger's notions of human finitude and difference which he first addresses through an analysis of the role played by *Mitsein* in *Being and Time*. This analysis in turn affords a critical perspective on Heidegger's own interpretive encounters with Nietzsche and Hölderlin. In a reading of Heidegger's Nietzsche Fynsk points to a far more ambivalent interpretation than the one commonly attributed to Heidegger. After further elaboration of the problematic of finitude in the context of Heidegger's writings of the 1930s on politics and art Fynsk looks closely at Heidegger's commentary on Hölderlin. He calls into question Heidegger's claims for the gathering and founding character of poetry and seeks to raise some basic questions in respect to the nature of the text and the act of interpretation. Presenting a critical confrontation with Heidegger that places itself within what Fynsk refers to as a contemporary thought of difference this book should be of interest not only to all students of Heidegger but also to anyone concerned with contemporary literary theory or modern Continental philosophy.

**Enigmatic Origins** Hans Ruin, 1994 The preoccupation with the historicity of thought and existence is central to the hermeneutic phenomenological branch of modern philosophy. Its foremost representative is Martin Heidegger who in his main work *Sein und Zeit* 1927 developed a theory of historicity according to which human beings not only exist in history but are themselves historical. In subsequent writings Heidegger argued that not only man but also truth and being must be understood historically in a particular sense. The meaning and the implications of Heidegger's historicization of philosophy are here analyzed along two parallel tracks as a theory of the conditions of philosophical understanding second as an incentive to new ways of responding philosophically to these conditions. The study focuses on the sense of belonging which Heidegger assigns to historicity as a dialogical relation to an enigmatic origin that cannot be exhaustively articulated but to which understanding must nevertheless respond in repetition and critique. The idea of the hermeneutic situation and what it means to occupy such a situation is shown to be central in this regard. Heidegger's historicization of the philosophical territory is interpreted as an exemplary attempt to preserve philosophy as a quest for origins in the explicit recognition of the interminable historical mediation of thinking. His approach leads to a critical questioning of fundamental philosophical distinctions such as the temporal and the eternal, the absolute and the relative, subject and object and of truth as correspondence. Eventually he is led to question the ability of language to express the historicity of thought and of being which can only be indicated by means of concepts such as *moment*, *Augenblick* and *event*, *Ereignis*. In seven chapters the theme of historicity is explored from different angles which together provide a guide to Heidegger's path from a philosophy of life to a thinking of being in the other beginning. The study covers the full range of his writings but it emphasizes the development from the earliest lectures over *Sein und Zeit* to the second major work *Beiträge zur Philosophie* 1938 published posthumously in 1989.

**The Philosophy of Gadamer** Jean Grondin, Kathryn Plant, 2014-12-18 The ideas of the German philosopher Hans Georg Gadamer have had considerable influence both in their own right as the leading modern exposition of philosophical hermeneutics and interpreting the works of Heidegger Plato and Hegel This work covers the trail of Gadamer's thought Taking Truth and Method 1960 translated 1975 as the axis of the interpretation of Gadamer's thought Jean Grondin lays out the key themes of the work method humanism aesthetic judgement truth the work of history with exemplary clarity Gadamer's concerns are situated in the context of traditional philosophical issues showing for example how Gadamer both continues and significantly modifies the philosophical problem as it begins with Descartes and advances rather than simply follows Heidegger's treatment of the relationship of thinking and language In this way Grondin shows how the issues of philosophical hermeneutics are relevant for contemporary concerns in science and history

**Heidegger's Silence** Berel Lang, 2018-09-05 In What Is Called Thinking Martin Heidegger wrote Man speaks by being silent Berel Lang demonstrates that Heidegger's own silence spoke consciously and deliberately in response to what has been called the Jewish Question Posed simply the Jewish Question as it gained currency in the nineteenth and the first half of the twentieth centuries asked how or if the Jews were to live among the nations The Holocaust radically altered the significance of the Jewish Question and still the great philosopher did not speak Lang interrogates Heidegger's silence for its possible meanings He asks What does it tell us about someone who prided himself on his ability to think that Heidegger never felt compelled to address the Jewish Question or to respond to the Nazi genocide Lang demonstrates that Heidegger's silence after the Holocaust had its foundation in his silence on the Jewish Question before its occurrence That earlier silence he suggests was based in the conceptual and historical role Heidegger ascribed to the Volk and in particular to the German Volk Heidegger's silence Lang concludes was thus not simply an expression of prejudice or of his public persona It derived from his philosophical thought and becomes therefore a necessary consideration in assessing Heidegger as a thinker In this context Lang suggests Heidegger's silence still speaks
