China-Swiss Relations during the Cold War, 1949-1989 Cyril Cordoba, 2022-07-01 During the Cold War Switzerland functioned as a hub for Chinese propaganda networks Despite its fierce anti communism the Swiss Confederation was one of the first capitalist countries to recognise the People's Republic of China PRC As a neutral country and as the home base for many international organisations Switzerland represented a strategic centre for the spread of Maoism throughout the world Focusing on cultural diplomacy and questioning the notion of soft power this book explores how the PRC developed its influence and its prestige abroad through its Embassy in Bern the most important in Western Europe The book also discusses how China's approach in Switzerland bypassing traditional diplomatic structures and relying on contacts with individual people foreign friends was then used and continues to be used in many other countries including the United States France and Japan *Heidi Bucher* Jana Baumann, Luisa Seipp, 2022 **Architecture in Abjection** Zuzana Kovar, 2017-11-30 This book marks a turning point in architectural theory by using philosophy to examine the field anew Breaking from the traditional dualism within architecture which presents the body as subject and space as object it examines how such rigid boundaries can be softened Zuzana Kovar thus engages with complementary and complex ideas from architecture philosophy feminist theory and other subjects demonstrating how both bodies and bodily functions relate deeply to architecture Extending philosopher Julia Kristeva's notion of abjection the confrontation of one's own corporeality as something is excreted Kovar finds parallels in the concept of the scaffold Much like living bodies and their products can impact on the buildings that house them old skin cells create dust menstrual blood stains our breath heats and cools surfaces scaffolding is similarly ephemeral and yet not entirely separable from the architecture it supports Kovar shifts the conversation about abjection towards a more nuanced idea of architecture where living organisms building matter space decay and waste are all
