Duncan, 2015-11-03 This study questions the widely held perception that books as an artistic medium are superior to and more respectable than film or television sometimes considered frivolous and pernicious Criticism of both the big and small screens often obscures their signal accomplishments and the entertainment and insight they provide The author analyzes our distaste for these media and the romanticizing of the printed word that accompanies it and argues that books and films are in fact quite complementary A broad survey of film and TV offerings explores what enacted narratives have taught us about the nature of childhood *The Role of Translators in Children's Literature* Gillian Lathey, 2010-09-13 This book offers a historical analysis of key classical translated works for children such as writings by Hans Christian Andersen and Grimms tales Translations dominate the earliest history of texts written for children in English and stories translated from other languages have continued to shape its course to the present day Lathey traces the role of the translator and the impact of translations on the history of English language children's literature from the ninth century onwards Discussions of popular texts in each era reveal fluctuations in the reception of translated children's texts as well as instances of cultural mediation by translators and editors Abridgement adaptation and alteration by translators have often been viewed in a negative light yet a closer examination of historical translators' prefaces reveals a far more varied picture than that of faceless conduits or wilful censors From William Caxton's dedication of his translated History of Jason to young Prince Edward in 1477 to the intent he may begin to learn to read English to Edgar Taylor's justification of the first translation into English of Grimms tales as a means of promoting children's imaginations in an age of reason translators have recorded in prefaces and other writings their didactic religious aesthetic financial and even political purposes for translating children's texts **The Mayor's Tongue** Nathaniel Rich, 2008-04-17 One of the most original dazzling and critically acclaimed debut novels this year

In this debut novel hailed by Stephen King as terrifying touching and wildly funny the stories of two strangers Eugene Brentani and Mr Schmitz interweave What unfolds is a bold reinvention of storytelling in which Eugene a devotee of the reclusive and monstrous author Constance Eakins and Mr Schmitz who has been receiving ominous letters from an old friend embark from New York for Italy where the line between imagination and reality begins to blur and stories take on a life of their own
