Narration and Hero Victor Millet, Heike Sahn, 2014-07-28 By the early middle ages vernacular aristocratic traditions of heroic narration were firmly established in Western and Northern Europe Although there are regional linguistic and formal differences one can observe a number of similarities Oral literature disseminates a range of themes that are shared by narratives in most parts of the continent In all the European regions this tradition of heroic narration came into contact with Christianity which led to modifications Similar processes of adaptation and transformation can be traced everywhere in this field of early European vernacular narrative But with the increasing specialization of academic fields over the last half century interdisciplinary dialogue has become increasingly difficult The volume is a contribution to renew the interdisciplinary dialogue about common themes topics and motifs in Nordic Roman Anglo Saxon and Germanic literature and about the different methodologies to explore them

The Art and Thought of the "Beowulf" Poet Leonard Neidorf, 2023-01-15 In The Art and Thought of the Beowulf Poet Leonard Neidorf explores the relationship between Beowulf and the legendary tradition that existed prior to its composition The Beowulf poet inherited an amoral heroic tradition which focused principally on heroes compelled by circumstances to commit horrendous deeds fathers kill sons brothers kill brothers and wives kill husbands Medieval Germanic poets relished the depiction of a hero's unyielding response to a cruel fate but

the Beowulf poet refused to construct an epic around this traditional plot Focusing instead on a courteous and pious protagonist's fight against monsters the poet creates a work that is deeply untraditional in both its plot and its values In Beowulf the kin slayers and oath breakers of antecedent tradition are confined to the background while the poet fills the foreground with unconventional characters who abstain from transgression display courtly etiquette and express monotheistic convictions Comparing Beowulf with its medieval German and Scandinavian analogues The Art and Thought of the Beowulf Poet argues that the poem's uniqueness reflects one poet's coherent plan for the moral renovation of an amoral heroic tradition In Beowulf Neidorf discerns the presence of a singular mind at work in the combination and modification of heroic folkloric hagiographical and historical materials Rather than perceive Beowulf as an impersonally generated object Neidorf argues that it should be read as the considered result of one poet's ambition to produce a morally edifying theologically palatable and historically plausible epic out of material that could not independently constitute such a poem
