*The Routledge Companion to Ethics and Research in Ethnomusicology* Jonathan P. J. Stock, Beverley Diamond, 2022-11-30 The Routledge Companion to Ethics and Research in Ethnomusicology is an in depth

survey of the moral challenges and imperatives of conducting research on people making music. It focuses on fundamental and compelling ethical questions that have challenged and shaped both the history of this discipline and its current practices. In 26 representative cases from across a broad spectrum of geographical, societal and musical environments, authors collectively reflect on the impacts of ethnomusicological research, exploring the ways our work may instantiate privilege or risk, bringing harm as well as the means that are available to provide recognition, benefit and reciprocity to the musicians and others who contribute to our studies. In a world where differing ethical values are often in conflict and where music itself is meanwhile a powerful tool in projecting moral claims, we aim to uncover the conditions and consequences of the ethical choices we face as ethnomusicologists, thereby contributing to building a more engaged, restructured discipline and a more globally responsible music studies. The volume comprises four parts: 1. sound practices and philosophies of ethics; 2. fieldwork encounters; 3. environment, trauma, collaboration; and 4. research in public domains.

*Art and Aesthetics of Modern Mythopoeia V2* Ritushree Sengupta & Ashish Kumar Gupta, 2021-05-15. Human culture has always weaved myths around its pattern of existence for multiple purposes. The interplay of religion and social practices have found their own space within the sphere of mythology. It is possible to read mythical texts to probe into the greater picture of human civilization. The contribution of myths towards the shaping of human beliefs, behavioural patterns are evident and assessing them often reveals a plethora of cultural histories, unexplored and therefore unacknowledged before. The contribution of mythopoeia towards the construct of human socio-cultural identity has been largely accepted. Modern academia has thus taken a strong interest in revisionist literature to understand the hitherto unknown nuances of human civilization. In the edited anthology *Art and Aesthetics of Modern Mythopoeia: Literatures, Myths and Revisionism Vol II*, like the first volume, an attempt has been made to anthologize the works of a large number of authors who have talked about pertinent issues in the context of myth-making, the latent politics of mythopoeia and has taken into account several under-explored texts that are rich in mythical content. This volume offers a wide range of critical studies involving classical as well as modern myths around the globe.
