Friedmann, 2025 Only a few Westerns contain explicitly Jewish stories or themes and very rarely do Old West tales involve identifiably Jewish characters Yet Jewish contributors have shaped the Western once Hollywood s most popular genre ever since the silent era both onscreen and offscreen and some filmmakers have sought to infuse the genre with a distinctly Jewish sensibility In Chai Noon Jonathan L. Friedmann applies some of the central questions of Jewish film studies to the Western What makes a movie Jewish What counts as a Jewish image on screen What types of Jewish representation are appropriate How much of a film s Jewishness owes to the filmmakers and how much to the viewer s interpretation This volume joins other reconsiderations of outsider and minority representations in Westerns to offer a more nuanced view of the genre Friedmann engages with larger themes of Jewish identity in popular film including depictions of race ethnicity and foreignness He also identifies similar concerns within the invention and creation of the imaginary West writ large in American culture The juxtapositions prove to be both unexpected and intuitively understandable *Hoo-Doo Cowboys and Bronze Buckaroos* Michael K. Johnson, 2014 Hoo Doo Cowboys and Bronze Buckaroos undertakes an interdisciplinary exploration of the African American West through close readings of texts from a variety of media This approach allows for both an in depth analysis of individual texts and a discussion of material often left out or underrepresented in studies focused only on traditional literary material The book

engages heretofore unexamined writing by Rose Gordon who wrote for local Montana newspapers rather than for a national audience memoirs and letters of musicians performers and singers such as W C Handy and Taylor Gordon who lived in or wrote about touring the American West the novels and films of Oscar Micheaux black cast westerns starring Herb Jeffries largely unappreciated and unexamined episodes from the golden age of western television that feature African American actors film and television westerns that use science fiction settings to imagine a postracial or postsoul frontier Percival Everett s fiction addressing contemporary black western experience and movies as recent as Quentin Tarantino s Django Unchained Despite recent interest in the history of the African American West we know very little about how the African American past in the West has been depicted in a full range of imaginative forms Hoo Doo Cowboys and Bronze Buckaroos advances our discovery of how the African American West has been experienced imagined portrayed and performed
