Telling Our Stories Donna Y. Ford,2017-04-01 Five decades ago I was challenged to read the Moynihan Report 1965 Then and now I take issue with much of the content which smacks of deficit thinking blaming the victim and a blindness or almost total disregard for how systemic racism and social injustices contribute to family structures I recall being professionally and personally offended by interpretations of single parent families which were often negative and hopeless Moral development criminal activity poor educational outcomes poverty and apathy of many kinds were placed squarely on the shoulders of these families especially if the families were are headed by Black mothers Eurocentric and middle class notions of real families like those depicted on TV shows and movies dominate then and now what is deemed healthy in terms of family structures with the polemic conclusion that nuclear families are the best and sometimes only structure in which children must be raised These colorblind economic blind and racist blind studies reports theories and folktales have failed to do justice to the families in which there is one caregiver Their stories of woe and mayhem make the news and guide policies and procedures The stories of children who have been resilient have been unheard and silenced they have been under reported and relegated to the status of exception to the rule Perhaps they are exceptions but there are more exceptions than we may know This book is designed with those stories of resilience and success in mind The book is not an attempt to glorify single parent families but such families are prevalent and increasing High divorce rates are impactful And some parents have chosen to not marry which is their right While not glorifying single parent families we are also not demonizing them or telling their stories void of context Yes income will often be low er time will be compromised when divided between offspring work and other obligations Likewise we are not glorifying two parent families as being ideal their context matters too How healthy are married couples who don t really love or even like each other How healthy are those parents who have separate sleeping arrangements bedrooms How healthy are those families who have oppositional parenting styles and goals for their children This is the 50th anniversary of the Moynihan Report and I am concerned that another 50 years will pass that fails to balance out the stories of single parent

families mainly those whose children succeed and defy the odds so often unexpected of them I agree with Cohen co author of the updated report The preoccupation with strengthening marriage as the best route to reducing poverty and inequality has been a policymaking folly Further 50 years after Moynihan released the controversial report The Negro Family The Case for National Action a new brief by the Institute for Women s Policy Research IWPR and the Council on Contemporary Families CCF titled Moynihan s Half Century Have We Gone to Hell in a Hand Basket finds that the changes in family structure that concerned him have indeed continued becoming widespread among Whites as well but that they do not explain recent trends in poverty and inequality In fact a number of the social ills Moynihan assumed would accompany these changes in family structure such as rising rates of poverty school failure crime and violence have instead decreased see this *Mother's Hands* Elizabeth Flaherty,2025-05-27 This book is about a Maine mother who overcame the many struggles and hurdles to raise her ten children while living in adverse conditions that caused her to become bedridden and neglected at times for twenty eight years til her passing in 1980 The author of this book Elizabeth Flaherty Marjorie s third child assisted her mother and experienced firsthand the many trials and tragedies that seemed drawn to this family This book is a true life story

Caregiving: a Daughter's Story Janice Baldon Gutter,2010-04-08 Caregiving A Daughter s Story tells the story of a Daughter who experienced the surprise joys and pain of watching loved ones become ill and eventually die Suddenly she became the decision maker for those who once made decisions for her When did the roles change from carefree child to adult caregiver for the loving parents who raised her How did she cope and survive the process Learn how an average person like you learned to make healthcare and other professionals LISTEN and work with her and not dictate to her to make decisions on behalf of loved ones Read the story of an ordinary person coping with the stresses and joys of caregiving for loved ones how to survive through the caregiving process and how to say NO to others when caregiving is over North Carolina

Raising Your Kids Right Michelle Ann Abate,2010-07-14 Dr Seuss s classic character the Lorax has delighted children for decades while passing along a powerful message about environmental responsibility The book s young readers and their parents would likely be surprised by the emergence of a new character Truax a kindly logger created by a longtime employee of the wood products industry who not surprisingly has a far different viewpoint to share Yet the Truax character and the book of the same name is just one example of a growing genre of conservative themed narratives for young readers spawned by the continuing strength of the American political right Highlighting the works of William Bennett Lynne Cheney Bill O Reilly and others Michelle Ann Abate brings together such diverse fields as cultural studies literary criticism political science childhood studies brand marketing and the cult of celebrity Raising Your Kids Right dispels lingering societal attitudes that narratives for young readers are unworthy of serious political study by examining a variety of texts that offer information ideology and even instructions on how to raise kids right not just figuratively but politically Advanced Nutrition Carolyn D. Berdanier,Lynnette A. Berdanier,2021-07-06 Like its predecessors the new and updated edition of Advanced Nutrition Macronutrients Micronutrients and Metabolism is an essential textbook for advanced undergraduate and first year graduate students studying human nutrition This book draws on inter related sciences including biochemistry genetics and physiology to provide a full understanding of nutrition science This third edition describes the chemistry absorption use and excretion of each of the essential nutrients There is comprehensive coverage of nutrient nutrient interactions and both macro and micronutrients The book places strong emphasis on how nutrient genetic interactions function with respect to disease development The new edition includes some of the most recent descriptions of the roles nutrients play in the expression of genetic traits for a variety of degenerative diseases It includes a new chapter explains the function of microorganisms in the maintenance and development of chronic degenerative disease Features Chapters address clinical conditions such as obesity starvation hyperlipemia renal disease and organ function Includes updated information on the body s microbionics and the daily nutrient needs of humans across the life cycle Material reveals the neurodegenerative response to dietary variables with respect to the regulation of food intake Chapter summaries highlight key information and case studies challenge students to integrate what they have learned to solve clinical cases Contemporary Queer Plays by Russian Playwrights Roman Kozyrchikov,Andrey Rodionov,Ekaterina Troepolskaya,Valery Pecheykin,Natalya Milantyeva,Olzhas Zhanaydarov,Elizaveta Letter,Vladimir Zaytsev,2021-09-23 Contemporary Queer Plays by Russian Playwrights is the first anthology of LGBTQ themed plays written by Russian queer authors and straight allies in the 21st century The book features plays by established and emergent playwrights of the Russian drama scene including Roman Kozyrchikov Andrey Rodionov and Ekaterina Troepolskaya Valery Pecheykin Natalya Milanteva Olzhas Zhanaydarov Vladimir Zaytsev and Elizaveta Letter Writing for children teenagers and adults these authors explore gay lesbian trans and other queer lives in prose and in verse

From a confession style solo play to poetic satire on contemporary Russia from a play for children to love dramas that have been staged for adult only audiences in Moscow and other cities this important anthology features work that was written around or after 2013 the year when the law on the prohibition of propaganda of non traditional sexual relations among minors was passed by the Russian government These plays are universal stories of humanity that spread a message of tolerance acceptance and love and make clear that a queer scenario does not necessarily have to end in a tragedy just because it was imagined and set in Russia They show that breathing growing old falling in love falling out of love and falling in love again can be just as challenging and rewarding in Moscow and elsewhere in Russia as it can be in New York Tokyo Johannesburg or Buenos Aires
