[Saving Women and Infants from Abortion](#) Margaret Driscoll, Emily Faugno, 2006. Through real life conversion stories but set against the realistic background of what Pope John Paul II called our contemporary culture of death, this book offers inspiration, encouragement, and a challenge to those interested in the respect life movement, especially in this outreach organization known as Helpers of God's Precious Infants, to become involved, whether as actual sidewalk counselors or through prayerful support. According to Msgr. James P. Lisante, pastor of St. Thomas the Apostle Church, West Hempstead, NY, as well as a TV commentator and author, this book tells the story of those who are willing to be the voices of the voiceless, of people of such hope, faith, and love that they are willing to speak up even in the face of what would seem to be the most hopeless situation of all: the moment when a woman is actually about to enter an abortion clinic.

Moral Injury After Abortion Tara C. Carleton, Jill L. Snodgrass, 2022-08-12. *Moral Injury After Abortion* delves deeply into the psychospiritual responses that some women experience when an abortifacient act conflicts with their moral beliefs and values. The book is grounded in a qualitative phenomenological study that examined the lived experiences of thirty Christian women after abortion. The study participants' voices are woven throughout the book in a way that offers the reader a narrative understanding of their experiences and a thick description of the psychospiritual impact of moral injury after abortion. The book provides mental health scholars and professionals with strategies for assessing for moral injury experiences among women post-abortion, as well as a guide for addressing the spiritual and psychological impact of post-abortifacient moral injury.

[Abortion, Motherhood, and Mental Health](#) Ellie Lee. Whatever reproductive choices women make, whether they opt to end a pregnancy through abortion or continue to term and give birth, they are considered to be at risk of suffering serious mental health problems. According to opponents of abortion in the United States, potential injury to women is a major reason why people should consider abortion a problem. On the other hand, becoming a mother can also be considered a big risk. This is a well-balanced

book is about how people represent the results of reproductive choices. It examines how and why pregnancy and its various outcomes have come to be discussed this way. The author's interest in the medicalization of reproduction, its representation as a mental health problem, first arose in relation to abortion. There is a very clear contrast between the construction of women who have abortions implied by moralized argument against abortion and the construction that results when the case against abortion focuses on its effects on women's mental health. Lee argues that claims that connect abortion with mental illness have been limited in their influence, but this is not to suggest that they have not become a focus for discussion and have had no impact. The limits to such claims about abortion do not by any means suggest limits to the process of the medicalization of pregnancy, more broadly that is a process of demedicalization. The final theme of Ellie Lee's book is the selective medicalization of reproduction. Centering on the claim that abortion can create a post-abortion syndrome, the author examines the medicalization of the abortion problem on both sides of the Atlantic. Lee points to contrasts in legal and medical dimensions of the abortion issue that make for some important differences, but argues that in both the United States and Great Britain the post-abortion syndrome claim constitutes an example of the limits to medicalization and the return to the theme of motherhood as a psychological ordeal. Lee makes the case for looking to the social dimensions of mental health problems to account for and understand debates about what makes women ill. Ellie Lee is research fellow in the Department of Sociology and Social Policy, University of Southampton, Highfield, United Kingdom. [Hope After Grief](#) Tricia Draper, 2010-01-29.
