When Your Child Learns Differently Kathryn Fishman-Weaver, 2021-09-28 Advocating for a child who learns differently can sometimes feel like an isolating and daunting task This book reminds families that they are not alone When Your Child Learns Differently is a compassionate guide that **Boys and Girls Learn Differently! A Guide for Teachers and Parents** Michael Gurian, 2010-08-26 A thoroughly revised edition of the classic resource for understanding gender differences in the classroom In this profoundly significant book author Michael Gurian has revised and updated his groundbreaking book that clearly demonstrated how the distinction in hard wiring and socialized gender differences affects how boys and girls learn Gurian presents a proven method to educate our children based on brain science neurological development and chemical and hormonal disparities The innovations presented in this book were applied in the classroom and proven successful with dramatic improvements in test scores during a two year study that Gurian and his colleagues conducted in six Missouri school districts Explores the inherent differences between the developmental neuroscience of boys and girls Reveals how the brain learns Explains when same sex classrooms are appropriate and when they're not This edition includes new information on a wealth of topics including how to design the ultimate classroom for kids in elementary secondary middle and high school **I'm Not Broken, I'm Just Different & Wings to Fly** Linda Ruth Brooks, 2010 In an unflinching account Brooks poignantly captures the struggle of living with a child who appears to see the world through broken glass **Evidence-Based Group Work in Community Settings** David E. Pollio, Mark J. Macgowan, 2013-09-13 There has been a strong recent trend towards incorporating evidence into Social Work practice in general and into group

work in particular This trend has focused on the education of students in the use of evidence development of evidence based interventions and discussion of how evidence can be used to improve practice A limitation of most of this literature is that it has been written by researchers for the consumption of practitioners limiting the ability of evidence based practices to be incorporated into unique community settings and with specific populations In spite of this difficulty implementation of evidence based practices continues quietly in practice settings This book describes efforts to integrate evidence into community settings which have two foci The first part details group models developed through collaborations between researchers and community agencies Each chapter details efforts to implement research or review programs in community settings The second part deals with issues around instruction and dissemination of evidence based group work into practice settings The volume makes a significant contribution to the discussion about evidence based group work This book was published as a special issue of *Social Work with Groups* Partnering With Parents in Elementary School Math Hilary Kreisberg, Matthew L. Beyranevand, 2021-02-15 How to build productive relationships in math education I wasn't taught this way I can't help my child These are common refrains from today's parents and guardians who are often overwhelmed confused worried and frustrated about how to best support their children with what they see as the new math The problem has been compounded by the shift to more distance learning in response to a global pandemic *Partnering With Parents in Elementary School Math* provides educators with long overdue guidance on how to productively partner and communicate with families about their children's mathematics learning It includes reproducible surveys letters and planning documents that can be used to improve the home school relationship which in turn helps students parents teachers and education leaders alike Readers will find guidance on how to Understand and empathize with what fuels parents anxieties and concerns Align as a school and set parents expectations about what math instruction their children will experience and how it will help them Communicate clearly and productively with parents about their students progress strengths and needs in math Run informative and fun family events support homework Coach parents to portray a productive disposition about math in front of their children Educators families and students are best served when proactive productive and healthy relationships have been developed with each other and with the realities of today's math education This guide shows how these relationships can be built *Say Goodbye to Whining, Complaining, and Bad Attitudes... in You and Your Kids* Scott Turansky, Joanne Miller, 2009-09-30 Adding honor as a factor in raising kids and parent child relationships Dr Scott Turansky and Joanne Miller offer a thorough program for establishing honor as a basis of family life not just children honoring parents but parents respecting children and children honoring each other Even if honor seems a long way off in your household you will find practical suggestions here to bring that goal a little closer suggestions for kids of all ages Honor is the biblical value that will bring about good behavior It's more than just changing what kids do it's changing the deeper issues of the heart that triggered the behavior Teaching Children to Read Great Britain.
