Hidden Questions, Clinical Musings M. Robert Gardner, 2013-05-13 In *Hidden Questions Clinical Musings* M Robert Gardner chronicles an odyssey of self discovery that has taken him beneath and beyond the categories and conventions of traditional psychoanalysis His essays offer a vision of psychoanalytic inquiry that blends art and science a vision in which the subtly intertwining not quite conscious questions of analyst and analysand gradually discerned open to ever widening vistas of shared meaning Gardner is wonderfully illuminating in exploring the associations images and dreams that have fueled his own analytic inquiries but he is no less compelling in writing about the different perceptual modalities and endlessly variegated strategies that can be summoned to bring hidden questions to light This masterfully assembled collection exemplifies the lived experience of psychoanalysis of one of its most gifted and reflective practitioners In his vivid depictions of analysis oscillating between the poles of art and science word and image inquiry and self inquiry Gardner offers precious insights into tensions that are basic to the analytic endeavor Evincing rare virtuosity of form and content these essays are evocative clinical gems radiating the humility gentle skepticism and abiding wonder of this lifelong self inquirer Gardner's most uncommon musings are a gift to the reader

The Inward Eye Laurie W. Raymond, Susan Rosbrow-Reich, 2013-06-17 A central although unappreciated dimension of psychoanalysis is the complex oral tradition through which analysts verbally reconstruct their lives and careers *The Inward Eye* captures a significant portion of this tradition In a series of interviews initially conceived as an aspect of their psychoanalytic education Laurie Raymond and Susan Rosbrow Reich skillfully elicit the fascinating personal stories of 16 senior analysts The interviewees who represent diverse theoretical traditions and cultural backgrounds share a willingness to reflect candidly on their preanalytic years their formative influences their entry into psychoanalysis and their relationships with mentors and colleagues Out of this skillfully guided journey into the personal past emerges a vital human context for understanding the theoretical preferences and clinical styles of analysts as diverse as Arthur Valenstein Joseph and Anne Marie Sandler Jacob Arlow Andre Green Leo Stone Leo and Anita Rangell Edward Weinshel Merton M Gill Albert Solnit W Clifford M Scott James McLaughlin Rebecca Solomon Joyce McDougall M Robert Gardner and Janine Chasseguet Smirgel Raymond and Rosbrow Reich succeed in capturing the essential humanity of all their interview subjects in showing how their subjects' lives outside the consulting room have shaped and in turn been shaped by the analytic identities they assume behind the couch An engrossing read wonderfully revelatory of its creative subjects *The Inward Eye* is also an invaluable contribution to psychoanalytic history
