How to Hide Money From Your Husband Heidi Evans, 2002-04-05 When Heidi Evans's ninety one year old aunt died her sons were dumbstruck to discover a bankbook with a balance of 50 000 hidden in her top drawer She had been a devoted housewife and mother all of her adult life so where had the money come from But the women in the family just smiled They knew Like generations of women Aunt Lee had been

building a nest egg stashing away a few dollars a week from her household allowance and maybe sometimes from Uncle Irving's pockets so that she could have a little money of her very own for a rainy day for her kids or just to pay for her dreams. Now Evans revives this age-old practice of stowing away money and shows women of all ages how a nest egg can make marriage more secure and more fun and divorce or widowhood less devastating. This award-winning journalist shows us just how the nest egg works by introducing us to a fascinating variety of women whose marriages have been marked by the war over money. These intimate and revealing stories give us a clear view of the financial landscape within marriage today from relationships in which men control the money and their wives to families in which women can openly save their own money for the years ahead. And so we meet Veronica, a hair colorist in her twenties who stashes 20 a day from her tips so she can pay for the little luxuries she and her new husband would like. And Meryl, whose husband left her for a younger woman after twenty-five years of marriage and who now finds that divorce has generated a desperate need for private savings. Later we meet Irene, a seventy-seven-year-old for whom early widowhood might have meant poverty for her and her sons if she hadn't been so smart about creating a nest egg. The age-old tradition of the nest egg has become more important for women than ever. Indeed, financial security is the number one problem facing women today in and out of marriage. Women are still earning only 76 cents to every dollar earned by men and champing at the bit to have equal footing or at least the ability to buy that third pair of black pumps without an argument. What to do? Save a little for yourself with the full knowledge of your husband if you can or on the sly if you must. Whether you pick your husband's pockets or work like a dog for your own paycheck, money is marriage insurance and it's nonnegotiable. So what are you waiting for?

The Money Game Barbara Kimenyi, 1992. One of a series of readers for African students which aims to help them to develop an awareness and a love of language and consists of stories from all over Africa. In this story, Joshua makes some money by collecting illegally at a church meeting. Then Martha steals it from him.

Money Eric Loneragan, 2017-07-05. Eric Loneragan explores our complex relationship with money. In a provocative and insightful analysis, he argues that few things seem to matter more to us but few things are as poorly understood. Economists have long worked with the theory that our relationship to money is rational but not all our reactions to it make sense. Loneragan shows that many of our views about money, credit, and saving are little better than prejudices. The same social and emotional forces that affect quant traders in the world's financial markets can be seen in the mania of Pok n card trading in the school playground. This fascinating book reveals the tension between money's capacity to assist us in our lives and its propensity to cause instability and to distort our values. We are limited in our ability to control money's power, says Loneragan, but only by understanding money better and thinking about it less may we get on with enjoying what we have.
