**Ellis Rivkin**

## **Hidden Revolution:**

**Popular Science** ,1976-06 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

**The Unity Principle** Ellis Rivkin,2003 Presents a dynamic interpretation of Jewish history from biblical to modern times as a set of interconnected and evolving events and relationships that spring directly from Judaism s core beliefs

**Unknown Revolution** Voline,2019-05-01 This is the untold story of the Russian Revolution its antecedents its far reaching changes its betrayal by Bolshevik terror and the massive resistance of non Bolshevik revolutionaries This in depth eyewitness history written by Voline an outspoken activist in the Russian Revolution is accompanied by a biography of the author by Rudolf Rocker and a contemporary introduction by anarchist historian Iain McKay Significant attention is given to what the author describes as struggles for the real Social Revolution that is the uprising of the sailors and workers of Kronstadt in 1921 and the peasant movement that Nestor Makhno led in Ukraine These movements which sought to defend the social revolution from destruction by the politicians provide important material for a clearer understanding of both the original objectives of the Russian Revolution and the problems with which all revolutions with far reaching social objectives have to contend Drawing on the revolutionary press of the time Voline reveals the deep cleavage between the objectives of the libertarians and those of the Bolsheviks differences which the latter resolved by ruthlessly eliminating all who stood in their way in the struggle for power This edition is a translation of the full text of La R volution inconnue originally published in French in 1947 It reinstates material omitted from earlier English language editions and reproduces the complete text of the original volumes

**The Undivided Heart** Zachary Alan Starr,2025-07-31 The Undivided Heart presents a history of legal and moral thought in Jewish civilization from the earliest times until 200 CE It discusses Israelite wisdom literature biblical law collections the prophets works of the Hellenic Jewish Diaspora the apocrypha apocalypses the Dead Sea Scrolls and the Mishnah and it compares the moral teaching of the Pharisees tannaim the Essenes and Jesus of Nazareth Among the book s important insights is that ancient Israel experienced a fundamental moral change from people esteeming qualities and conduct having competitive value to people esteeming qualities and conduct having cooperative value These newly esteemed qualities and conduct were moreover not originally justified as being commanded by God but as promoting the nation s well being Another important insight concerns Jeremiah s belief that human beings would not be righteous until given a single heart Although Jeremiah is typically understood as envisioning the end of free will this book argues that Jeremiah was actually envisioning the integration of human desires and emotions and that a single heart is better translated an undivided heart The notion of an undivided and a divided heart was used throughout the Second Temple period to explain respectively moral rectitude and moral failure

Secret America Barb Karg,Rick Sutherland,2010-05-18 The Washington Monument The pyramid on the 1

bill The Skull and Bones Society at Yale University Common American icons or secret symbols From our founding fathers to our most prestigious institutions this is a nation built on such secret symbols rites and rituals So forget the textbook version of history and embark on a fascinating and fantastic journey of America s hidden past This tell all handbook is your personal guide to the secret laden people places and things of our great nation including Sign filled national treasures in museums from coast to coast Ancient mysteries of our most familiar cities landmarks and parks Hotbeds of current Masonic Kabbalistic and Rosicrucian activity Freemason planned architecture of Boston New York Philadelphia and Washington D C Covert clubs societies and associations of the ultra rich and powerful From the U S Capitol in Washington D C to the Institute of Noetic Sciences in Petaluma California this book is all you need to discover the true nature of the oldest republic on Earth past present and future

**New York Magazine** ,1979-12-24 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

**A Social Revolution** Kevan Harris,2017-08-08 For decades political observers and pundits have characterized the Islamic Republic of Iran as an ideologically rigid state on the verge of collapse exclusively connected to a narrow social base In A Social Revolution Kevan Harris convincingly demonstrates how they are wrong Previous studies ignore the forceful consequences of three decades of social change following the 1979 revolution Today more people in the country are connected to welfare and social policy institutions than to any other form of state organization In fact much of Iran s current political turbulence is the result of the success of these social welfare programs which have created newly educated and mobilized social classes advocating for change Based on extensive fieldwork conducted in Iran Harris shows how the revolutionary regime endured through the expansion of health education and aid programs that have both embedded the state in everyday life and empowered its challengers This focus on the social policies of the Islamic Republic of Iran opens a new line of inquiry into the study of welfare states in countries where they are often overlooked or ignored

**Sharp's Dictionary of Power and Struggle** Gene Sharp,2012 Sharp s Dictionary of Power and Struggle is a groundbreaking book by the godfather of nonviolent resistance In nearly 1 000 entries the Dictionary defines those ideologies political systems strategies methods and concepts that form the core of nonviolent action as it has occurred throughout history and across the globe providing much needed clarification of language that is often mired in confusion

**Exigent Psychoanalysis** Gila Ashtor,2021-08-16 Exigent Psychoanalysis The Interventions of Jean Laplanche offers a bold exploration of the contemporary psychoanalytic field by focusing on key issues through the lens of one of this century s most exacting and invigorating psychoanalytic theorists Deliberately taking an integrative approach that spans a vast range of psychoanalytic ideas with particular focus on the enduring tension between Freudian and Relational paradigms Ashtor shows

how a rigorous close reading of Laplanche's work can disrupt stale binaries and forge new possibilities for revolutionizing the foundations of psychoanalysis Organized as pointed interventions on such topics as metapsychology motivation the unconscious and psychic structure Ashtor integrates cutting edge research on Affect theory and sexuality to demonstrate the potential for fieldwide innovation Of interest to established and emerging clinicians alike and aimed at addressing a broad spectrum of theoretical positions Exigent Psychoanalysis offers the first extensive clinical and theoretical study of Laplanche's work thus facilitating a timely and cutting edge intervention in contemporary psychoanalytic debates      Books in the Digital Age John B. Thompson, 2013-10-21 The book publishing industry is going through a period of profound and turbulent change brought about in part by the digital revolution What is the role of the book in an age preoccupied with computers and the internet How has the book publishing industry been transformed by the economic and technological upheavals of recent years and how is it likely to change in the future This is the first major study of the book publishing industry in Britain and the United States for more than two decades Thompson focuses on academic and higher education publishing and analyses the evolution of these sectors from 1980 to the present He shows that each sector is characterized by its own distinctive logic or dynamic of change and that by reconstructing this logic we can understand the problems challenges and opportunities faced by publishing firms today He also shows that the digital revolution has had and continues to have a profound impact on the book publishing business although the real impact of this revolution has little to do with the ebook scenarios imagined by many commentators Books in the Digital Age will become a standard work on the publishing industry at the beginning of the 21st century It will be of great interest to students taking courses in the sociology of culture media and cultural studies and publishing It will also be of great value to professionals in the publishing industry educators and policy makers and to anyone interested in books and their future      **Portugal's Political Development** Walter C Opello Jr, 2019-07-05 Portugal's early developmental experience created a highly centralized administrative state that continues to have a powerful influence on the nature and style of the country's government and politics Emphasizing this theme Dr Opello shows that contrary to the conclusions of scholars who have analyzed Portugal from Latin American or Third World perspectives Portuguese political development is more comparable to the pattern of development of West European countries especially France He compares Portugal's political experience with that of other West European countries and concludes by speculating about the future of Portugal's fledgling democracy      Hypocrites or Heroes? Roger Amos, 2015-04-22 It is easy to dismiss the Pharisees as Jesus implacable adversaries the hypocrites with whom he frequently debated and who even plotted his downfall That picture however ignores other gospel passages that show Jesus on friendly terms with them This study explores every New Testament reference to the Pharisees paying special attention to Jesus encounters with them and offers a feasible resolution of the seeming discrepancies Unlike those proposed by some scholars this solution preserves the integrity of the gospel texts and also explains other paradoxical aspects of Jesus ministry This subject contains more than academic importance Since

much of the gospel record of the actions and teachings of Jesus falls within the context of his encounters with the Pharisees some knowledge of these people with whom he so frequently engaged is an essential prerequisite to understanding Jesus himself This study s historical reconstructions of the Pharisee movement origins of its characteristics at the time of Jesus and of Jesus relationship with the Pharisees themselves provide not only a clearer picture of the social and religious environment in which the Christian faith originated but also fresh insight into Jesus

**The Secret Powers Behind Revolution** Léon de Poncins,1929

**'Hell': A Hard Look at a Hard Question** David J. Powys,2007-01-01 I welcome this rigorous examination of some of the many questions which are raised by the doctrine of hell At a time when it is rare to hear even heaven spoken about in our churches it is encouraging that this sober theme is once more in our sights It was plainly often on the lips of Jesus Nigel M de S Cameron Trinity International University Dr Powys has pursued a rigorous examination of the Scriptures He rivets our attention on what the New Testament actually says about the fate of the unrighteous This is a seminal work David Claydon Federal Secretary CMS Australia The author writing from a position of biblical conservatism has presented a powerful convincing and scholarly case for the view that the unrighteous will forfeit resurrection life in the Kingdom of God It is in my judgment the most thorough treatment of the issue in recent years John W Pryor Macquarie University This book is an impressive thorough discussion of a thorny question Dr Powys is at home in many branches of biblical studies He examines the biblical evidence carefully and sets his case out lucidly and with real insight showing convincingly how ill founded are many ancient and many recent views on the fate of the unrighteous His own solution of a set of complex exegetical and theological issues is judicious and clearly the end result of careful thought from the Foreword by Graham Stanton University of Cambridge David Powys has made a significant contribution to an increasingly important debate His book s real strength lies in its very careful study of New Testament teaching in the light of a comprehensive analysis of the Old Testament and Jewish literature This literature is rightly seen not merely as background but as the key to a right understanding of the New Testament teaching I wish that such a clear discussion had been available when I first began engaging with these questions Stephen Travis St John s College Nottingham David Powys was educated at The University of Melbourne He gained degrees in arts and social work studied theology at Ridley College and was ordained in 1981 Dr Powys has ministered in four Melbourne parishes He is an Examining Chaplain to the Archbishop of Melbourne and a member of Archbishop in Council and National Synod He was awarded the Doctor of Theology by the Australian College of Theology in 1994 for his *The Hermeneutics of Hell* The present volume is a slightly abbreviated version of that dissertation

**Fourth World Conflicts** Janusz Bugajski,2019-03-07 This study consists of a comprehensive examination of Communist policies toward rural populations and indigenous societies in a cross section of developing Third World states It explores the universal threads and national adaptations of Communist or Marxist Leninist theory and praxis

*Confronting the Nation* George L. Mosse,2024-01-16 Originally published by the University Press of New England under the title *Confronting the*

Nation Jewish and Western Nationalism copyright 1993 by Trustees of Brandeis University      Congressional Record United States. Congress,1976 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873      **Social Transformations and Revolutions** Johann P. Arnason,2016-07-10 Prompted by the 25th anniversary of the Soviet collapse this volume reflects on revolutions and transformations around the collapse of the Soviet Bloc the political transformations after 9 11 the important changes following the global economic crisis and the revolutionary transformations of India and China The authors stress that the United States military actions after the 9 11 terrorist attacks have had a major transformative impact on the global arena More recently the economic crisis that began in 2007 8 caused a series of breakdowns and provoked demands for social and political transformation so far unfulfilled The repercussions of the Arab Spring and transformations linked to the rise of BRICS are altering the patterns of international and global relations All these processes have unfolded within the framework of global capitalism whose reproduction on an expanding scale involved multiple economic political ecological and civilizational transformations      **From the Nation State to Stateless Nations** Tom W. Bell,2018 Your Next Government From the Nation State to Stateless Nations reveals the revolution quietly transforming governments bottom up inside out worldwide It will attract scholars of international law and trade special jurisdictions development policy urban planning and political philosophy as well as lay readers interested in these topics      *Semiconductors* Grace Murphy,2017-07-15 The discovery of electricity fundamentally changed day to day life Yet after electricity s discovery scientists worked to find the best way to harness electrical currents Today semiconductors are known as the key components of transistors and integrated circuits Semiconductors shows how Michael Faraday paved the way for three men John Bardeen William Shockley and Walter Brattain to invent transistors changing history forever The book investigates semiconductors role in cutting edge technology and explains how semiconductors work through diagrams and full color photos
